2019 INTERNATIONAL YEAR OF INDIGENEOUS LANGUAGES

About IYIL2019

Languages play an important role in the daily lives of all people. It is through language that we communicate with the world, define our identity, express our history and culture, learn, defend our human rights and participate in all aspects of society, to name but a few. Through language, people preserve their community's history, customs and traditions, memory, unique modes of thinking, meaning and expression. They also use it to construct their future.

IYIL2019 will Promote Indigenous Languages in these Five Key Areas-

- 1. Increasing understanding, reconciliation and international cooperation.
- 2. Creation of favorable conditions for knowledge-sharing and dissemination of good practices with regards to indigenous languages.
- 3. Integration of indigenous languages into standard setting.
- 4. Empowerment through capacity building.
- 5. Growth and development through elaboration of new knowledge.

peace building and

reconciliation

Main Objectives

Focus global attention on-

- The critical risks confronting indigenous languages.
- Their significance for sustainable development, reconciliation, good governance and peace building.

Target steps that will-

- Improve quality of life.
- Enhance international cooperation.
- Strengthen intercultural dialogue.
- Reaffirm cultural and linguistic continuity.

Increase the capacity-

world

Of all stakeholders to take measures that will support, access and promote indigenous languages in accordance with the legitimate rights of the people who speak them.

digenous peoples

international coop-

eration

Message

I would like to congratulate St. Aloysius' Institute of Technology (Education), Jabalpur for bringing up its first volume of college magazine "Chetna". It gives me great pleasure to note that St. Aloysius' Institute have been developing research and educational base for our young generation through culminating the experiences of all students and teachers during the year.

St. Aloysius' Institute as one of the premier institutions of higher education in the city has been performing this task with commitment and diligence. The involvement and active participation of students in the publication of the magazine is a very laudable effort. I am confident that with such synergy between teachers and students, the institution will be able to achieve its vision and mission. My compliments and good wishes to all the teachers and students involved in this pious venture.

MESSAGE

It is heartening to learn that St. Aloysius Institute of Technology, Jabalpur, is bringing out the first Edition of their Annual College Magazine 'The Aloysian'. I wish them the very best for their efforts because they have taken trouble in bringing out this issue which shows their perseverance towards their work.

We sincerely expect that the magazine is a compendium of serious thoughts and valuable propositions for the world we live in. I hope that these young Aloysians with their effort may create a big difference to improve the quality of life on the planet Earth.

I wish to see the college scale great heights of success and acquire the pinnacle of achievements. Once again I wish them good luck for their college magazine and hope for their fruitful and thought provoking publications regularly.

Thankyou and may the heavenly blessings of the Almighty be with you all.

Gerald Almeida Bishop of Jabalpur

Jabalpur, Dated:

MESSAGE

It is indeed a valuable effort, as well, an opportunity to showcase the first glorious year of St. Aloysius Institute of Technology (Education). It is a great joy to know that St. Aloysius Institute of Technology (Education), Jabalpur is ready to release the first edition of Its Annual College Magazine Chetna. It is essential to encourage the Youth of India to Think independently on various issues and contribute towards nation's growth as sincere citizens of the country. I congratulate the students, staff and management of the Institute on the hard work put in to publish Chetna 2019.

I hope this issue of college magazine will inspire the young students and the reading audience to always believe in enriching, enlightening and empowering influence of good literature. May this magazine serve to be a platform to build a better brighter nation by infusing in the Aloysians a sense of devotion and commitment towards their motherland. My good wishes always for the ongoing success journey of the magazine and the institution.

(Prof. Kamlesh Mishra)

Registrar Rani Durgavati Vishwavidyalaya, Jabalpur

From the Desk of the Director

Education is for life, not for living

St. Institute of Technology exploring new frontiers in higher education decided to introduce B.Sc.- B.Ed., B.Ed., D.El.Ed., from the academic year 2018-19. I am very pleased to see that, we have committed staff and talented students to begin the journey of transformation of self and society.

"Education is the most powerful weapon which you can use to change the world."

Nelson Mandela

My dream is, SAIT will be instrumental in bringing out the new generation of teachers who will make India a developed nation and protect the pluralistic and multicultural ethos the social and secular fabric of the Indian Republic.

"Education is the only solution. Education first."

Malala.

The youth of today is totally unlike anything we've seen before. Not only they are aware of their responsibilities, but they are also extremely gifted and talented. Being talented makes a person way better at their job and also instils confidence in the person, and that is exactly why the nation believes that with the immense talent, this generation is soon to become a head turner. With great power to change the destiny of the country, the youth is capable of doing so much that it is sure to bring the country on the path of progress and prosperity.

In today's competitive world, communication skills in real life are the most sought after quality of an educated person. Reading, writing and listening carefully are the three most important communication skills for youth. These skills like most of the communication skills sounds too familiar as a result of which we take them for granted. But Communication in all forms and in all phase of life defines who you are and more so far a teacher. If you excel in your communication, you can express yourself better and climb the stairs of success.

"Reading maketh a full man: conference a ready man: and writing an exact man."

Francis Bacon

I, congratulate the young students, Editorial board and Principal of St. Aloysius Institute of Technology for releasing the first magazine **THE SAITS' ALOYSIAN**.

From the Desk of the Principal

It is a matter of pride that our institute is publishing First Annual Magazine "The SAIT'S ALOYSIAN". This has become possible with the blessings of almighty God and hard work done by our dedicated staff and students under the guidance of visionary management. Since it's founding, the St. Aloysius Institute of Technology is acclaimed for its outstanding contribution to teaching, research and service in nation building. Today, the Institution is focusing to meet the enormous expectations of society. Society wants us to nurture professionals and scholars of high caliber, who can offer solutions to a broad range of issues. This requires excellence in teaching and research at par with the best in the world.

We, at St. Aloysius Institute of Technology, continuously aspire to be a breeding ground for positive ideas and emerge as a symbol of openness of thoughts, cultural pluralism and celebrating the unity in the diversity of India. We endeavor to touch the lives of every student by inculcating prudence, efficiency, creativity and compassion to work for the betterment of the marginalized sections of society. We attempt to kindle their sense of —responsibility, honesty, conscience, justice — and above all commitment to human values.

We aim to expand our reach to the people who are deprived of higher education with many multidisciplinary programs and become a center of knowledge osmosis. We seek to empower every inquisitive soul with the best available human resources. We intend to intensify our endeavors to mobilize more resources and create conducive ambience for our faculty, students and staff to actualize their potential.

Our students form the core of our existence as an institution, and we want to give wings to their dreams. We expect them to be passionate about their dreams and make their family and society proud of their achievements. It is crucial for the parents to keep reminding their wards to remain focused on their education and to instill in them a sense of responsibility and care towards the concerns of fellow beings. It will give them strength and motivation to work hard for a greater cause in life. We have a mammoth task of employing higher education as a means of attaining peace and development for all.

We urge everyone to join us in fostering a healthy, peaceful and engrossing atmosphere at the Institution campuses. We invite you to contribute actively and enrich the Institution with your intellectual resources, rich experiences and fruitful suggestions.

Best wishes

Dr. Archana Pathak

Student Editorial

Individually we are one drop

Together we are an ocean......

THE SAITS' ALOYSIAN, our annual college magazine, an assemblage of the literary contribution by our students and teachers provides glimpses of our journey through this wonderful academic year.

The theme for this magazine is 'Chetna' which means 'consciousness'. Consciousness is the quality or state of being aware of an external object or something within oneself.

The universe gives birth to consciousness and Consciousness gives meaning to the universe.

The key to growth is the introduction of higher dimensions of consciousness into our awareness.

All minds are able to tap into and add to this knowledge and these minds consist of scientists, artists, philosophers and spiritual leaders. The knowledge that exists in this consciousness contains ideologies, beliefs, values, norms and a moral compass. It is basically a sharing of similar sentiments that form a consensus in the collective mind.

'The SAITS' Aloysian' is our effort to etch the beautiful memories of our students. The literary articles reveal the potential and the hidden talent of our students as well as teachers. I appreciate and thank everyone associated with it for rendering their endearing love and support, and I sincerely hope that this wonderful association continues for a life time.

To educate a child well, we must first understand the very nature of the child, and realize that every child is a unique individual, not a part of a class or grouped with others in a grade level. Instead, we must come to recognize the child as a person. What is the child's consciousness and how does the child's consciousness influence learning?

The process of learning, the acquisition of knowledge, and the very nature of perception itself are intricately linked to our own consciousness, for the lens of the *who* affects *what* is seen, and it affects the interpretation of that which is seen.

We are confident that our students will surpass our expectations and lead a life filled with Symbiosis, Energy, Exchange of ideas, Efficiency, Positive reciprocation, Giving and Sharing and Additivity in the progress of our nation.

I am highly indebted to God who blessed me to conduct this piece of work. I offer my earnest thanks, from the depths of my heart to the Great Prophet of God, the epitome of humankind, who enlightened and turned the lives of *human* into one filled with peace and good practices.

I am always grateful to Rev. Dr. Davis George, Director of St. Aloysius Institute of Technology Jabalpur for his kindness, constant motivation, blessings and generous help.

I am profoundly grateful to Dr. Archana Pathak, Principal of St. Aloysius Institute of Technology, for her loving support and persistent guidance.

I express my gratitude to our beloved Dr. Renu Pandey, Head, Department of Education for her enduring faith in me and entrusting the task of putting this wonderful journey together, through 'THE SAITS' ALOYSIAN'. Her unconditional support and guidance has always acted as a catalyst to bring out the best in me as an individual.

I would also like to extend my gratitude to all the professors and students for giving support and encouragement and a free hand in this endeavor.

Last but not the least, I am thankful to all the people who worked hard on expressing their views in the form of various articles. I would like to place on record my gratitude and heartfelt thanks to those who have contributed to make this effort a success.

I hope this venture of ours will find a special place in the heart of the readers. Wishing everyone great success and a fulfilling life.

Ms. Aparna Guha

Teaching as a High-Risk Profession Trust

Think of the attributes we must admire in teachers: a caring demeanor, willingness to go above and beyond time spent in the classroom to help students, an ability to reach children who are disconnected, and the personal knowledge of their students that can help each one find his or her passion.

It turns out these same attributes are also commonly found in teachers whose behaviors cross a line — whether in a legal sense, or through the kinds of unintended consequences that wind up damaging the trust that connects students, families, teachers and schools. These kinds of situations don't usually make headlines, but unintended consequences happen every day, creating risks for educators and students that are unlike those confronted by professionals in other fields.

Consider these key differences: Other professions work through these kinds of issues by creating a culture of social distance which is why you don't invite your therapist to a birthday party or ask your dermatologist to look at a rash in the grocery line. But teachers don't hold weekly sessions with students — they're integral parts of their daily lives for the entire school year. Unlike doctors and counsellors, we also expect teachers to spend time with students outside of the classroom as coaches and club sponsors, as mentors, as counsellors and, often, as the adult they can come to with the problems they're struggling with in and out of school. Teachers who take on these additional roles are often the ones who find themselves in the most vulnerable spaces.

Time and proximity aren't the only reasons why the role of educator is a risky one. As every educator knows, the relationship between teachers and students becomes a shared space very quickly. Think of a coach who pushes a student-athlete to dig in and find the untapped strength needed to break a record or win a game, or an English teacher who draws highly personal writing out of a reluctant student

Most of us can think back to our own time in school to an educator that reached us on a much deeper level than the subject he or she taught. There's an intimate connection in all teaching relationships that's highly nuanced, highly dependent on the individuals involved and very powerful. The shift from a student passively receiving knowledge to becoming actively engaged can blur these boundaries even further. That can be dangerous. The irony is clear. Those educators whom we have long considered as being most influential in our own development may have faced the greatest danger.

That's not to say that educators should step back from extracurricular activities or caring for students. Few committed teachers would be willing to do so, and as a society we value the teachers who go above and beyond the classroom the most. But what we, both individually and as a profession, need to do is to acknowledge the vulnerabilities we face as educators. The uncomfortable truth is that we are in a high-risk position where seemingly insignificant missteps can, over time, cause irreparable damage to our students, our careers, our schools and communities, and the integrity of the profession — whether we break laws or school policies, or not.

Research tells us that educators make more than a thousand decisions a day, the vast majority of which involve interactions with individual students that are often made reflexively. We rarely have time to step back and think through the potential long term implications of our actions and reactions to student behavior. And most teachers aren't trained to do so, as they study to become educators or are mentored in their first years in the profession.

This is why teaching — like law, medicine and counselling — needs a framework that recognizes the challenging situations in which educators often find themselves. A professional code of ethics and related training can help educators recognize these difficult gray areas when they arise. More importantly, such a framework can provide a collective understanding of the challenging situations teachers face, and a mechanism that allows teachers to articulate and make decisions about those challenges individually, through conversations with peers and as a profession.

As I've written before, too often these kinds of difficult issues go without discussion because we don't have a way to separate them from our personal beliefs and biases. A professional code of ethics can not only give educators the framework to guide us through the thousands of routine interactions that make up our days, but also the permission to discuss sensitive issues with each other in a professional context.

This brings me to perhaps the most important reason teaching is such a high-risk profession:

As educators, we're trained to value and even relish the idea of professional autonomy ... that once school starts and the classroom door is closed, we're on our own. That may work well in terms of pedagogy, but it also puts us in a position where we are even more vulnerable when serious problems arise. As we will explore in subsequent articles, professional ethics connect us to each other as educators, and as professionals, in ways that shatter that isolation when it matters the most.

Dr. Renu Pandey

Assistant Professor

MOTHER TERESA'S

Anyways poem

People are often unreasonable, illogical and self centered; Forgive them anyway.

If you are kind, people may accuse of selfish, ulterior motives; Be kind anyway,

If you are successful, you will win some false friends and some true enemies ;

Succeed anyway.

If you are honest and frank, people may cheat you;

Be honest and frank anyway.

What you spend years building, someone could destroy overnight; Build anyway.

If you find serenity and happiness, they may be jealous; Be happy anyway.

The good you do today, people will often forget tomorrow; Do good anyway.

Give the world the best you have, and it may never be enough; Give the world the best you've got anyway

....help people.

People really need help but may attack you if you try to helphelp people.

You see in the final analysis, it is between you and your God; It was never between you and them anyway.

The statement that "it was never between you and them anyway" seems to justify giving up on, or ignoring, or discounting other people. However, according to me, this is not the true message of those lines .The actual message that mother wants to convey through it is that we should see our Lord Almighty in each one and keep loving all and serving all. It is said, "Please Man, Please God", thus we should always keep the almighty God in our Heart and keep serving all who need our help.

Mrs. Punita Upadhyaya Asst. Professor

Trust the Lord with all your heart and you will

achieve all your heart's desires

It is better to trust in the LORD than to put confidence in Man.

PSALM 118:8

No matter what the problems in your life are, God knows it and He's ready to help you out if you allow Him.

My journey in college began when I entered the gates of this institute as a B.Sc. student in the first semester. I had a lot of hopes and aspirations yet I was timid and fearful of the environment I would be facing in the next few minutes. But with every step I took, the above-mentioned verse kept striking my mind and my faith was restored, my steps became confident and my trust in the Lord reaffirmed and reinstalled.

Right from that day till today, the same verse instills pride in me and makes me fearless. I believe if you are right, your attitude should be, 'I will face everything bravely, come what may! If God is for me, who can stand against me?'

Somehow this verse helped me each day of my life, gave me the strength to face each day with courage; I excelled in whichever field I stepped! I was overjoyed and brimming with exaltation for the Lord. My enemies were turned in my favor unbelievably and I knew that it was the Lord's doing.

I have been blessed abundantly, and I would want all upcoming generations to be blessed through my testimonies. Being a topper in class, a winner in elocutions, debates, quizzes, and other competitions, to being a Best Aloysian in college, a prefect in school, a national level shooter in NCC, national winner in western singing for three consecutive years, excelling at it in the first go itself while many others were struggling to reach the nationals for some past twelve years. Everything I received was unexpected, bountiful and beyond my comprehension. Looking back at all my memories and achievements, I still find each treasured and precious moment miraculous!

I find my entire life to be an example set by the Lord for other kids. The Lord continues to bless each one of us, not considering us worthy or unworthy; the fact is we do not notice our daily blessings. We all are sinners, yet we have been blessed with a beautiful life, we see the morning sun, we feel the gentle breeze and breathe in fresh air, we eat our daily bread, we talk, we communicate, we feel God's love all around. These are blessings which we sometimes unknowingly overlook. None can say that they have not been blessed. There is always something in a moment you can be thankful for. If you believe, you can be a miracle! Your entire being inspires you to achieve something beyond your limits, something unusual, something extraordinary. Do you feel it?

All you have to do is fear the Lord, and work hard. It's that simple. All I ask of you today is it be fearless, brave and bold. The only thing you need to fear is the almighty and all things fall into place because the fear of the Lord is the beginning of the knowledge, the beginning of wisdom, strong confidence, a place of refuge, a fountain of life, to depart from the snares of death and deliverance from evil.

May God bless you all with these words!

Miss. Tripti Moses
Assistant Professor

Surgical Strike

A surgical strike is a military attack which is intended to damage only a legitimate military target, with no or minimal collateral damage to surrounding structures, vehicles, buildings, or the general public infrastructure and utilities.

- ♦ To cause injury or damage to the intended targets.
- ♦ It is a military attack that takes place with surgical precision and is extremely target oriented to cause harm to the enemy line.
- ♦ To hurt the enemy in such a way that there is no collateral damage but the target is achieved.

The origin comes from the military but because of the words it is focused on the operations that are performed in hospitals. The strikes are surgically precise which just hurt the intended enemy and all organs around it are safe and secure. Often carried out covertly, the military operations started using surgical precision after targeting the enemy camp.

In such a way that there would be no damage to anyone or anything else in the fight. The enemy is unprepared and hence the strikes are quick to destroy what is intended.

If not used in the military sense, this phrase can be used sarcastically to cause humor.

A swift and targeted attack with the aim of minimum collateral damage to the nearby areas and civilians is a surgical strike. Neutralization of targets with surgical strikes also prevents escalation to a full blown war. Surgical strike attacks can be carried out via air strike, airdropping special ops teams or a swift ground operation or by sending special troops.

Precision bombing is another example of a surgical strike carried out by aircraft – it can be contrasted against carpet bombing, the latter which results in high collateral damage and a wide range of destruction over an affected area which may or may not include high civilian casualties.

In India, on September 29, 2016, eleven days after a terror attack in Uri, the Indian army carried out 'surgical strikes' against suspected militants in Pakistan-administered Kashmir. However, analyst Sandeep Singh, writing in The Diplomat, said that the operation is better characterized as a cross-border raid because "surgical strikes" involve striking deep into the enemy territory and typically using air power.

Another suicide attack on CRPF convoy took place in Pulwama on February 14, 2019 causing at least 40 deaths. It attracted direct air strikes by Indian Air Force on Jaish-e-Mohammed base in Pakistan leading to 200-300 casualties.

On February 26, 2019 twelve Mirage 2000 fighter jets struck joint training camps of Jaish-e-Mohammed and Lashkar-e-Taiba inside Pakistan and completely destroyed them by shelling 1,000 kg bombs. It took 19 minutes to complete the operation.

Mirage 2000 jets hit Balakot 24 KM NW of Muzaffarabad at 3:45 am and the strike went on till 3:53 am. Hitting Balakot is a historic high for IAF because it not only crossed the LoC (Line of Actual Control); they crossed the entire Pakistan-occupied Kashmir (PoK) and then hit the target inside Khyber Pakhtukhwa. IAF has hit targets inside Pakistan after many decades.

Aparna Guha

B.Ed.I Year

One; and One More

To start something new, We distinctively need few, Helping hands to contribute, Working hands to distribute. You and I are different as such, Efforts are added to it as much, Too many cooks spoil the food, But many supporters make it good. The attribute of hoping wisely, A very few minds make decision nicely. No one must be judged as worthless, May be they're just used very less. Tried it time and again, alone, It seemed to be a body without a backbone. Somewhere something is needful, Everywhere something is heedful.

- Rahul Chawla

B.Ed I Year

Dreaming to be a leader

Dr. APJ Abdul Kalam rightly said "Have Dream in your life". Many have dreams in their life. Some have dreams to be leaders. The single greatest problem in any organization whether secular or religious is lack of leadership. A good leader knows what the goal of the organization is and how to motivate co-workers to achieve that goal. A leader who is a visionary tries to find out what exactly the goal of the organization is. A leader tries to see how the original goal of the group can be carried out today and searches for specific and concrete steps to be taken to achieve it. The leader will get the members of the group properly involved in this search and at the same time accept both the goal and specific steps for the attainment of the goal.

Many have become good leader because they had a vision and mission in their life. Mahatma Gandhi was a leader; so was Nelson Mandela and both had action plans. So without specific action plans, intentions will remain very much intentions. The great leaders read the signs of the times and initiate a dialogue and reflection to see if they have in any way misunderstood the goal of the organization. Then they will spell out concrete steps to be taken to achieve the goal.

The purpose of a leader is to guide the group to reach a specific goal. The solitary goal of the educational institution is to give best education to become a good human being.

The first thing that every organization needs is leadership in order to find the right goals and the right steps to follow. After that only comes management that carries out correctly the steps that are indicated by leadership. A leader is a good person with the right skills. Leadership is a skill that can be learnt, provided of course, one is willing to go through the pain needed to become a new creation. The leadership is to know what you ought to do and go about achieving it.

Leadership is hard because all of us are generally trapped in management paradigm, be it in educating children, training students, running institution etc.,. The head need to be first a leader, then only a manager.

How leaders are recognized:

- > Easily available for consultation.
- ➤ Go and meet people where they are and where they work.
- ➤ Chat with people at every level, to colleagues, suppliers or especially workers who actually produce the goods.
- > Listen a lot patiently
- ➤ Do all this on a daily basis.
- Make the employee feel that they have an ownership in the company in a particular institution. This motivates the employees.
- ➤ Make the employees feel that they are important, that their suggestions are valuable and they have some control over their world.
- ➤ Think that employees are advisors and empowers.
- ➤ Need to have a dream, a vision and sense of mission. The leaders feel that they have something special to contribute. This dream demands not so much of an extra effort on the part of the subordinates as a qualitatively different way of doing the same job.

One can become a leader in different ways. What leader you would like to become.

1. The Transactional leadership

Power is given to the leader to evaluate, correct and train subordinates when productivity is not up to the desired level and reward effectiveness when expected outcome is reached. Example: I give power to control others. In return produce goods or results.

2. Transformational leadership

The leader convinces or motivates their associates to strive for a higher level of achievement as well as higher levels of moral and ethical standards. Example: if one is holding a security job he will be motivate to self development.

3. Autocratic Leadership

The leader decides for the whole group and keeps each decision to himself until he feels it is needed to be shared with rest of the group. Example: Hitler

4. Democratic Leadership

The leader would characteristically lay the problem before his or her subordinates and invite discussion. Example: Indian government.

5. Free Rein Leadership

They are given a free hand in deciding their own policies and methods. Example: different situations call for different leadership styles.

6. Visionary Leadership

The leader has a way of visualizing what the future could be and share that vision with their team and work with the people. Example: Mahatma Gandhi

7. Servant Leadership

The leader is out of a desire to serve rather than a desire to lead. Example: Jesus Christ who served rather than to be served. The Servant leadership emphasizes the leaders' duty to serve his/ his followers.

Fr. T.Amalaseelan, B.Ed. 1st Semester

Raindrop

drop of rain is like a sudden knock at the door. unexpected, yet often welcome with a smile. It can brighten your day or ruin your plans. It can make you laugh or make you sad. Whether the raindrop is moving fast or slow, or is big or small, it always gets everyone's attention. A raindrop contains many secrets. It is a bubble of anticipation and surprise. It cleanses the earth, it feeds the flowers, and fills the holes. The raindrop is never silent. It bangs on the roof, spatters on the window, or splashes into a puddle.

B.Ed. First Year

Samarth Gideon

A raindrop.

The Key to Life

Education
the light of our life
A gift of academic rife
Education

the key to a bright and rewarding future A glue that joins our dreams like a suture

Education

A path to divine success
A smooth drive to our greatness
Education

gives our thinking a different appearance
And helps drive away all our ignorance
Education

It leads us to the path of prosperity

And gives our tomorrow a sounding security

Education

the process of teaching and learning
Which will help us in our future earning
Education

shapes our true character

Leading to a successful life it is the major
factor

Education

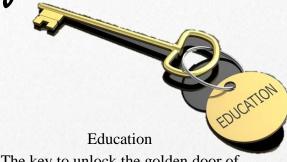

The progressive discovery of our true self
And exploitation of the potentials of oneself
Education

A better safeguard of liberty than a standing army

A life boat that see us through our days of stormy

Education

A torch of academic brilliance
And backbone of inner resilience

The key to unlock the golden door of freedom

And stage our rise to stardom Education

A life sustaining material
Without it we can't lead a life which is
congenial

Not all about bookish knowledge
But it is also about practical knowledge
Education

Education

Makes a person stand up on his own toes
And helps a person to fight with all his foes
Education

A fundamental foundation
For any country state or nation
Education

A thick line between right and wrong
A ladder that takes us to the height where we
belong

Education
Mother of all profession
That helps acquires all our possession
Education Is our right
For in it our future is bright.

Mr. Aman Singh Bais
Asst. Professor

Everyone has a story in life

A 24 year old boy seeing out from the train's window shouted...

"Dad, look the trees are going behind!"

Dad smiled and a young couple sitting nearby, looked at the 24 year olds childish behavior with pity, suddenly he again exclaimed...

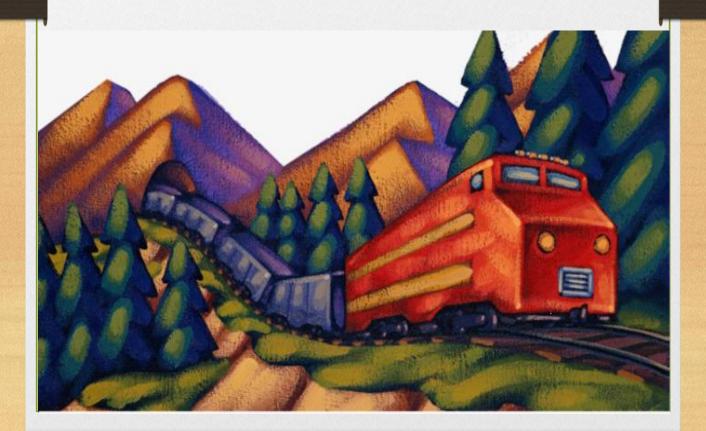

"Dad, look the clouds are running with us!"

The couple couldn't resist and said to the old man...

"Why don't you take your son to a good doctor?" The old man smiled and said..."I did and we are just coming from the hospital, my son was blind from birth, he just got his eyes today."

Every single person on the planet has a story. Don't judge people before you truly know them. The truth might surprise you.

Saurabh Sharma B.Sc.-B.Ed First Year

Sustainable Development Through

Nanotechnology

Sustainable development is a principle that can be applied at every level of society, as it demands that we meet the needs of present generation without compromising the needs of the next. Sustainable development means catering a project to meet the immediate needs of the current generation while incorporating long-term planning into the design. Sustainable development is responsible, drives intellectual and technological innovation, and demonstrates humanity's pursuit of excellence.

Sustainable development involves two main concepts: the needs of the world's human population and the limitations involved, it can involve any factors that make it difficult to meet the needs of the world's population. For instance, insufficient technology, excessive government regulation and scarcity of natural resources all limit the global population's ability to meet its needs. Sustainable development is a set of ideas and methods that seek to continue the progress and advancement of humanity, with this view let's see how Nanotechnology can make it possible.

How do we imagine our world in next 20-50 years? With a rising world population expected to reach 9-10 billion by 2050 according to UN projections, increasing demand for water, crops, healthcare and energy are likely to stretch the resources of the planet, putting our fragile ecosystem under severe pressure.

Therefore, a sustainable model for global development, defined as "meeting the needs of the present without compromising the ability of future generations to meet their own needs", has attracted increasing attention. By focusing our efforts on the preservation of the ecosystem and natural resources, we can hope to guarantee a future for the generations to come. The science of the very small, nanotechnology could play a key role in tackling many of these issues ranging from fresh water supply and food decontamination to green technology.

Thirty years ago, scientists developed the ability to design and control new particles and materials with dimensions between few nano meters and few micrometers. Since then, inorganic particles and organic particles with different shapes and exotic names such as nanorods, nanowires, nanotubes and nanotweezers have been proposed to accomplish specific tasks – including metal coordination, molecules encapsulation, molecules/ions sieving and sensing. This new technology has the potential to tackle many of our most challenging technological, environmental and economic problems of both today and the future.

A key problem facing humanity is that of fresh water supply. Although 70% of the Earth's surface is covered by water, only 2.5% represents accessible fresh water. Environmental problems encompassing depletion and contamination of fresh water coming from aquifers, rivers and lakes, together with the loss of snowpack and water stored in glaciers, present serious risks which undermine the future of agriculture, industrial production and domestic use.

Nanosorbents – including nanoclays, nanoparticles of metal oxides and zeolites – have been developed to remove ions and organic solutes from a liquid. Moreover, nanocatalysts – usually metallic nanoparticles – have the ability to convert toxic organic molecules into harmless products and kill bacteria present in water without generating toxic byproducts. These materials can thus provide an effective solution to water contamination issues. Nanomaterials could also help develop greener technologies, hence reducing CO2 emissions and energy consumption for buildings and transport. By combining the use of light emitting diodes (LEDs), super-insulating and self-cleaning windows, together with the implementation of more powerful roof-top photovoltaic (PV) panels and nanosensors monitoring energy usage, energy efficiency and environmental sustainability of buildings would be enhanced. Improved recycling in industrial processes would enable the recovery of precious transition metal ions from aqueous solutions and mixtures, in parallel to a decrease in solid waste and Green House Gas (GHG) emissions. Such recycling could be achieved through recovery and reuse of magnetic nanoparticles the improvement of solar photovoltaic (PV) is linked to the development of new materials with higher efficiency in solar energy conversion.

Nanotechnology could also play a key role in tackling environmental damage caused by the spillage of toxic substances. Membranes made of potassium manganese oxide that can selectively absorb large amounts of oils from water have great potential for ocean-skimming and oil spillage clean-up. These nanoporous membranes have already been used to power a robot constructed at the Massachusetts Institute of Technology (MIT) called 'Seaswarm' aimed at preserving the water quality of oceans by tackling oil-related pollution. Given their very small dimensions, nanomaterials present potential risks for both the environment and human health that should not be underestimated. It is crucial that scientists developing nanotechnologies of the future are fully aware of potential risks, and communicate these clearly to the general public through an open dialogue. This, coupled with the development and adoption of a clear, transparent and specific regulatory framework, could play a key role in the prevention of nanotechnology suffering the same fate as genetically modified organisms as a safe technology in the public eye.

RASHMI JAISWAL Asst. Professor

Cyber Crime

Information technology has become the axis of todays global and technological developments.

The advancement of technology has made man dependent on Internet for all his needs. Internet has given man easy access to everything while sitting at one place. Social networking, online shopping, storing data, gaming, online studying, online jobs, every possible thing that man can think of can be done through the medium of internet, smartphone and computers. With the advancement of the internet, crimes using this tool too have increased. The whole world is fighting with cyber-crimes and India is also not far behind the other countries.

Many of us don't know about what is cyber crime so lets get some knowledge about what exactly is cyber crime. Cybercrime is any criminal activity that involves a computer, networked device or a network. In other words the crime that are done using digital devices like computer or internet is called cyber crime.

Some cyber crimes are- hacking, ATM or credit card scams/frauds, pornography, bank robbery, illegal downloads, spreading of unwanted content, industrial espionage, creation and distribution of viruses. Recently the Ransom ware was the headlines of the newspaper. The ransom ware infected about 136 million computers all over the world. It was the biggest cyber-attack. The world is near to "cyber war." Cyber crime is not only done by criminals it also done by a Nation, Agencies and Organizations and is termed as CYBER WARFARE. Cyber warfare involves the actions by a nation-state or international organization to attack and attempt to damage another nation's computers or information networks through, for example, computer viruses or denial-of-service attacks. RAND research provides recommendations to military and civilian decision makers on methods of defending against the damaging effects of cyber warfare on a nation's digital infrastructure. We are near to a "CYBER WAR." I thinks it is enough to understand about cybercrime.

The Cyber Crime in India has been rapidly evolving since the dawn of the technological era. Every day, in fact, you get to hear different tricks, scams and many other offences being committed on the cyberspace. There are many types of cyber crime in India that have already been listed under the Information Technology Act, 2000, suggesting various types of crimes. Also in order to follow the guidelines of cyber crime act in India, in major cities, many cyber crime cells in India have been set up. Now take a look at a report which was published in a report of NCRB. According to NCRB "Cybercrime cases in India, registered under the IT Act, increased at a rate of 300% between 2016 and 2017. In 2018, there were 29,732 cases of cyber crime registered in India". We need to be aware and secure from the cyber crime.

Why Me

Arthur Ashe, The legendary Wimbledon Player who was dying of AIDS, which he got due to infected blood he received during a heart surgery in 1983!

During his illness, he received letters from his fans, one of which conveyed:" Why did God have to select you for such a bad disease?

To this Arthur Ashe replied:

50 Million children started playing Tennis,

5 Million learnt to play Tennis,

500 000 learnt Professional Tennis,

50 Thousand came to Circuit,

5 Thousand reached Grand Slam,

50 reached Wimbledon,

4 reached the Semi-finals,

2 reached the Finals and

When I was holding the cup in my hand, I never asked God: "Why Me?" So now that I'm in pain how can I ask God: "Why Me?"

Happiness ... keeps you Sweet!

Trials ... keep you Strong!

Sorrows ... keep you Human!

Failure ... keeps you Humble!

Success ... keeps you Glowing!

But only, Faith ... keeps you going!

Sometimes you are not satisfied with your life, while many people in this world are dreaming of living your life.

A child on a farm sees a plane fly overhead dreams of flying, while a pilot on the plane sees the farmhouse and dreams of returning home.

That's Life!

Enjoy yours ... If wealth is the secret to happiness, then the rich should be dancing on the streets.

But only poor kids do that!

If power ensures security, then VIP's should walk unguarded.

But those who live simply sleep soundly.

If beauty and fame bring ideal relationships, then celebrities should have the best marriages!

Live simply,

Be happy!

Walk humbly

and love genuinely!!

One Life

One SONG can spark a moment

One FLOWER can wake the dream

One **TREE** can start a forest

One **BIRD** can herald spring

One **SMILE** begins a friendship

One **HANDCLASP** lifts a soul

One STAR can guide a ship at sea

One WORD can frame the goal

One VOTE can change a nation

One **SUNBEAM** lights a room

One **CANDLE** wipes out darkness

One LAUGH will conquer gloom

One **STEP** must start a journey

One WORD must start a prayer

One **HOPE** will raise our spirits

One **TOUCH** can show you care

One **VOICE** can speak with wisdom

One **HEART** can know what is true

One LIFE can make a difference.

Khusboo Negi

Be like a rose, Strong and brave Who despite of thorns, Spreads fragrance & love.

Either complain that roses have thorns, Or rejoice for thorns, have roses.

> Life's like a rose, spread happiness everywhere. Worries are not to count as that would let you down.

Remain simple and humble Live like rose, need not grumble.

Be a rose
Give happiness
Love all
Fear not the fall

Rose

The Beauty of nature
Is in the greenery of the trees so big
The chirping birds make sound so sweet.

The clear blue sky, Oh! It's so high The sea so wide; gives breeze to ease.

The garden with fence and
The mountains so huge,
Give us fresh air and health so good.

The brightness of sunrise and the Beauty of sunset
Tells us, life is a running race.
So get inspired by nature each day.

The vivacity of nature is for everyone to see, Looking at the scenic views, You feel so tranquil and glee.

We live in nature and in nature we pass by,
my dear friends;
The lovely creation where we live
Let's safeguard it, for all generations to feel it!

10 Tech Hacks

Here are 10 tech-related hacks that are quick to grasp and can make life more productive or at the very least save you a few seconds:

- 1.To pause a YouTube video, simply press "K" on your keyboard. Pressing "K" again will play it again. To skip the video forward 10 seconds press "L" and press "J" to rewind 10 seconds.
- 2. If you want to jot down a quick note while using your Internet browser, simply type "data: text/html, <html contenteditable>" into the address bar and it will open up a temporary notepad.
- 3. Do you have an online account that you no longer want but don't know how to get rid of? Sites like AccountKiller.com, JustDelete.me or DeleteYourAccount.com show you how to delete an unwanted account step-by-step.
- 4. Have you seen a funny video on YouTube that you want to turn into a GIF? Simply type in "gif" before "youtube.com" and you can create a GIF of any part of the video you've chosen.
- 5. If you don't have a microphone, simply plug your ear- or headphones into the microphone jack (if you have one) and start talking. No microphone needed!
- 6. To scroll down a webpage, hit Spacebar. To scroll back up, hold in the Shift button and then tap Spacebar.
- 7. If you accidentally close a tab, ctrl + shift + t reopen it.
- 8. Stop using Google.com to search information for school essays, use scholar.google.com instead. You will find more relevant information right away.
- 9. Use emoji on desktops
 - For Mac: Press control+command+spacebar to get the emoji menu.
 - For PC: The latest version of Chrome has an emoji menu. Simply right-click anywhere you can type and click "Emoji" in the menu to access all the available emojis.
- 10. If you download "PDF" files ending and you see it ends in "exe" delete it. It is usually a virus.

Counseling and its Importance

"Counselling is the correction of feeling such that the self-defeating feeling is switched for a healthy feeling". - Kevin Malice

Counselling is the service offered to the individual who is unclear about a problem and needs professional help to overcome it. When facing a dilemma or some psychological problem we often tend to isolate ourselves and keep digging our minds to find solution.

There are times when we feel helpless and hopeless. We start losing our self confidence and move towards the situation called DEPRESSION, that's when one needs to seek a counsellor and get back to track.

Teenage tends to be the most sensitive stage when one goes through a whirl pool of emotions. Teenagers can back the wrong horses due to lack of guidance, peer pressure or future anxiety. If there is a counsellor who could listen to and guide them without insulting or punishing them, then they can actually bring a positive change in their life.

A counsellor hears all the problems of his/her subject, discusses situations, finds out basic reason and then suggests help to improve the skill of decision making, reduce tension, maintain a better self – esteem and grow confidence. Moreover one feels positive and optimistic towards life.

According to Buddha "Your thoughts are everything, what you think, you get." Therefore, it is very important that we keep a positive approach towards life.

- Chetna B.Ed. First Year

A meeting with GOD

One night, a press reporter dreamed that he is taking God's interview. God asked him Do you really want to take my interview? "If you have enough time for me" replied the man. God said, "I have enough time for all my children." The man asked, "what is the most amazing thing you find about mankind?" God replied "the thing that astonishes me the most is that how human generation gets bored of their childhood and want to grow up as soon as possible and after growing, up they want to be child again. To gain money, they waste their health and to gain back health they waste their past and die as if they had never lived".

"What would you like your children to learn in life?" was the man's next question, God answered - "I want them to learn that they can never force anyone to love them but can live a happy life by loving others. They are unique, so it is pointless to compare themselves to others. They must learn that a wise man is not the one who has everything, but the one who is not in need for everything. It is not enough for them to forgive themselves." The man then asked - "Would you like to say something to your children?" God smiled and said, "Remember, I am with you always".

Rajendra Vishwakarma

B.Sc.-B.Ed.

Friendship

"Friendship is NOT about whom you have known the longest. It's about who came, and NEVER left your side."

- Vivekanand.

Friendship perhaps one of the deepest bond in human life forged through mutual trust, unconditional Support and selflessness. It is quit difficult to confine the true meaning of friendship. Within just a few word, *Elisabeth Foley*, writer describes this relationship as something that "double Your joy and divides your grief", and the most beautiful discovery that true friends make is that they can grow separately without growing apart."

In Mahabharata friendship is deeply defined in one line. It's one line meaning is that we are Arjuna and we need Krishna ("Keshav and Arjuna"). Friendship requires that rare mean betwixt likeness and unlikeness. I hate, where I looked for manly furtherance, or at least a manly resistance, to find a mush of concession. Neither friendship lie friendship, neither tears nor showers and true friends are those who tear friend's grief even in the rain. But the monks who have soaked the sacred relationships of friendship with deceit in today's *moh maya and fearful* are alive.

True friendship iIn my life there is a sweet friend like Krishna, whom I do not want to lose in anyway, he stands like a shield beside me just like my parents. If you think that the person who helps you or who does your work, is your real friend then you are wrong. When your friendship is true, there will be faith, there will be selflessness.. I have a person like that in my life, my best friend Himanshu, who takes care of me and "he is my life time hero".

Friendship is an authentic love and it includes reverence for the other not simply as person, one capable of loving relationships, but as person God wants him to be.

-Saurabh Sharma B.Sc.-B.Ed

Life is tough that's what they say,
But they don't know what it's like every day
To wake up in the morning and go to school,
Just so people can test you and prove you're a fool.
The teacher says you obviously didn't try,
But they don't know you go to your room and cry.

You did put in effort, you did your part; They just don't understand you're not that smart.

Then comes the pressure from your mum and dad Who are so clearly disappointed that your grades are bad. You are punished and picked on for the rest of the year, Because you finally gave up on the future career

That was once so close, but is now so distant,
However, your teachers and parents are still insistent.
It's hard enough getting up and going to class,
Without the pressure and expectation that you have to pass.

The worst part, however, is not that you're a disappointment.

It's the permanent, never ending embarrassment

Of always failing and coming last,

Of never being good enough, your confidence dropping fast.

Everyone else seems to be doing just fine,
Their parents are all proud, unlike mine.
Honestly, I can't think of a worse place than this,
When in reality it's made out to be somewhere we should miss.

I won't miss it, I'll be glad to leave,
Five years wasted because failure is all I ever received.
I know it's my fault and that I'm the one to blame.
I gave up so early only because I was ashamed.
To my family, I'm a failure, and I'm a failure to myself.
Everyone's high expectations only damaged my metal health.
If I ever have kids I will always try
To make sure the fear of failure is not the reason they ever cry.

People need to understand school is no longer fun or good, Cause some of us don't fit in, although we wish we could.

First Year

INSTITUTIONAL PROFILE

Vision

St. Aloysius Institute of Technology strives for holistic development through excellence in academics, character formation and developing a scientific temperament, thereby opening new avenues for enriching life.

Mission

We the members of St. Aloysius Institute of Technology, aim to create and facilitate an environment for knowledge, research , skill , self-reliance and humanitarianism that moulds the youth to build up a better world.

Objectives

- ➤ To impart qualitative teaching and rigorous training and to empower the youth professionally, thereby, enabling them to respond to the needs and challenges of the times.
- > To mould intellectually competent youth who are responsive and committed to build an inclusive society.
- ➤ To inculcate moral values in the students and make them learned, competent, loyal and kind hearted citizens of this country.
- > To help them realise the motto of the institute VIRTUS in ARDUO (Strength through Striving).

Means

We resolve to achieve our objectives through Value-based, Qualitative Teaching and Learning, Research, Community Service and with special focus on dialogue between science and religion and inter-religious dialogue.

> Academic and Co-Curricular Activities-

- Daily Assembly
- Value Education
- Workshops
- Guest Lecture Series
- Use of Educational Technology
- Practice Teaching
- · Psychology Tests
- Mentoring
- · Criticism Teaching
- Pre-Practice Teaching Preparation
- Clubs and Associations
- · Co-curricular Activities

Goal of the institute is to make the pupil teachers-

- Talented
- Enthusiastic
- Affectionate
- Co-operative
- Humble
- Encouraging
- Resourceful

Clubs

Social Service Club

Professor In charges

- Mrs Rajni Yadav
- Mrs Punita Upadhyay
- Mrs. Suman Mehra
- Mr. Aman Singh Bais

Student In charges

- President- Sourabh Garg
- Vice-President- Sherrick Agrawal
- Secretary- Omna Mishra
- Joint Secretary- Pryanshu Nema

Motto:

'Adore God, Abhor Sin, Social Morality.'

Various Activities:

Environment Awareness Programme, World Citizen Day & Voting awareness programme, World AIDS day, Awareness Rally & Street Play.

Cultural Club

Professor In charges

- Dr. Mrs. Preeti Shrivastava
- Mrs Aditi Pimprikar
- Ms. Tripti Moses

Student In charges

- President-Mansi Choubey
- Vice President-Chhaya
- Secretary-Monika Gupta
- Joint Secretary-Rinki Singh

Motto:

Personality becomes very sound with classrooms, stage & playground.

Various activities:

Drama/Skit, Mime, Mono Acting, Singing, Dancing, Rangoli, Clay modelling, Thali Decoration, Gift Wrapping & Hair styling competition.

Literacy Club

Professor In charges

- Mrs. Nirmala Mishra
- Dr. Mrs. Lajwanti Patel
- Mr. Rituraj Shrivastava
- Mrs. Rashmi Jaiswal

Student In charges

- President-Ragini Nanda
- Vice-President-Himanshu Pandey
- Secretary-Prabha Kori
- Joint Secretary-Shraddhanjali Shukla

Motto:

Various Activities:

Debate, Speech, Drawing, Painting, Slogan Writing, Swarachit Kavyapath, Essay Writing.

Job Scope & Career Option-

- Schools
- Colleges
- Universities
- Educational Research Institutes
- Self Employment by starting Institutes/Tutorials.

Ceremonial Opening of the Institution

St. Aloysius Group of Institutes inaugurated a new wing in the field of education and touched a new milestone in form of BSc.B.Ed. and DEl.Ed. On Tuesday 11/09/18.

The day started with the ribbon cutting and lightening of lamp and thus emanating the opening of new college.

Dr. Fr. Davis George, Director of the Institute stated that St. Aloysius has always been known for its prestigious heritage of excellence and thus taking forward this heritage, the institute has added yet another jewel in the crown of glory.

Dr. Fr. Davis George expressed his profound love and gratitude towards the students and their parents for instilling their trust in the institute.

Dr. Archana Pathak, Principal of the Institute welcomed all the guests, parents and students with the introductory speech.

Chief Guest, Bishop Jerald Almeida addressed all the teachers as missionaries of God for their selfless service towards the society. There were few performances by the students that were appreciated by the parents. Fr. Thomas Mathew, Additional Director was also present.

Dr. Fr. Vazhan Arasu in his address to the audience congratulated the whole team and claimed that this institute aims at nurturing teachers with great ethics and high moral values and will definitely produce great educators.

The programme was led by Ayush Shrivas and Familene John (students of BSc.BEd.). The vote of thanks was given by Astha Pandey. Dance performances were given by Shivani Gupta, Chetna and group. The day concluded with a refreshing fresher party in which all the students participated enthusiastically.

Staff of the Institution (2018-19)

Left to right in front row Mrs. Aditi Pimprikar, Dr. Preeti Shrivastava, Mrs. Nirmala Mishra, Dr. Archana Pathak (Prinicipal) Dr. Renu Pandey (Head of Department Education), Mrs. Rajni Yadav, Dr. Lajwanti Patel, Mrs. Suman Mehra.

Left to right in back row Mr. Aman Singh Bais, Mrs. Punita Upadhyay, Ms. Tripti Moses, Mrs. Rashmi Jaiswal, Mrs. Pooja Sharma, Mrs. Darshana Tadurwar (Librarian), Mr. Vinay Kumar Patel(Registrar), Mr. Rituraj Shrivastava.

Rotary Tulika Competitions

The Students of the Institute participated in Rotary Tulika in various activities including clay modelling, poster making, collage & many more. The students of B. Sc. -B. Ed., B. Ed., D. El. Ed. went to Rotary Club for various competitions. Judges appreciated the efforts of students & also motivated them for this artistic talent as a carrier. Students learned the importance of art in Human Life and the revolutionary concept of these precious things. Ms. Neha Sahu(Rangoli), Ms. Femilin John (Poster making), Ms. Pranita Dongre (On Spot Painting) and Ms. Disha Mishra (Clay Modelling) participated and Ms. Disha Mishra secured the second position in clay modelling.

Students exhibited their hidden talents through different ways during competitions and mesmerised everyone with their creative efficiencies.

Students participation in Youth Festival

Youth Festival 2018-19 was organized by R.D.V.V., Jabalpur under which 32 activities were organized. Students of St. Aloysius Institute of Technology participated in various activities: drama, solo songs, group songs, mime, dance, quiz, debate, speech, creative writing, fine arts, rangoli, clay modelling, painting, poster.

Ms. Omna Mishra won first prize in Quiz competition and Ms. Disha Mishra secured second position in Painting/ Clay modelling.

Dr. Fr. Davis George (Director) congratulated the students and motivated them to aim at holistic development. Dr. Archana Pathak (Principal) too appreciated the students for their participation in large number and in numerous activities.

Birthday Celebration of Director

Birthday Celebration of Director

18th October 2018, yet another spectacular Day in St. Aloysius Institute of Technology, Gauraiya Ghat, Jabalpur as the institution celebrated birthday of Director Dr.Fr. Davis George. Students & all the staff prepared for this celebration. The celebration started with morning assembly followed by the cake cutting ceremony. After that student & staff gave wishes to Director and then he Addressed the gathering. All of them wished our dear director & presented saplings as gift. The ceremony was graced with the presence of Institute's Principal, Dr. Archana Pathak & supported by institute's professors, Dr. Renu Pandey, Mrs. Rajni Yadav, Dr. Lajwanti Patel, Mrs. Aditi Pimprikar, Mrs. Punita Upadhyay, Mrs. Rashmi Jaiswal, Mrs. Nirmala Mishra, Dr. Preeti Shrivastava, Mrs. Suman Mehra, Mr. Aman Singh, Mr. Rituraj Shrivastava, Ms. Tripti Moses whose presence were highly appreciable and commendable.

Environment Awareness Program

Environment awareness programme

Environment awareness programme was organized in the institutes' premises on November 17, 2018. Students were very excited and actively participated in the rally, plantation and also took oath to save the environment. 20 saplings of different varieties including mango, guava, neem, peepal, papaya, custard apple and others were planted in the premises of institute.

This Environment awareness programme was organised under the banner of Institute's Social Club. The student of B.SC.-B.Ed., B.Ed. and D.El.Ed. vowed to protect & save the nature for the society and to make the general public aware at large under the slogan "Save Nature, Save Yourself". The students enlightened the public on this issue of by means of a rally portraying various posters and slogans. The Director, Dr. Fr. Davis George of SAIT inaugurated the rally and congratulated the staff and students for their commendable efforts, the institute's principal, Dr. Archana Pathak made the students promise to make everyone aware about environment. The professors of the institute Dr. Renu Pandey, Mrs. Rajni Yadav, Dr. Lajwanti Patel, Mrs. Aditi Pimprikar, Mrs. Punita Upadhyay, Mrs. Rashmi Jaiswal, Mrs. Nirmala Mishra, Dr. Preeti Shrivastava, Mrs. Suman Mehra, Mr. Aman Singh, Mr. Rituraj Shrivastava, Ms. Tripti Moses were also present in this programme.

Voting Awareness Program

World Citizens' Day & Voting Awareness Program

We celebrated World Citizens' Day for creating voter awareness under joint venture of Election Commission and Department of Higher Education, Madhya Pradesh as SVEEP (Systematic Voters' Education and Electoral Participation) partner on November 19, 2018. Displaying the posters made by students, they carried out an awareness rally chanting slogans to encourage the voters to use their voting rights. The students explained the voters that a single vote has the potential to change the entire social scenario. They all disseminated pledge among the voters to use their voting rights in the upcoming assembly election 2018 to fulfil their duties towards the country. The voters took oath to participate in election process to help the genuine candidate to win. The students also took pledge to contribute towards the transformation of Jabalpur into a Smart City and to ensure skill development among youth so that they can contribute in the process of nation building.

D.El.Ed Teaching Internship

D. El. Ed.'s Teaching Practice was held from November 11 to December 24, 2018.

The students went for their Teaching Internship from November 11 to December 24.

Teaching Practice is a period that a student spends in teaching at a school as part of his or her training.

It is an integral component done by D.El.Ed students. It grants students the real teaching experience in the actual environment.

World AIDS Day

SAIT Celebrated World AIDS Day by street play

St. Aloysius Institute of Technology, Gauraiya Ghat , Jabalpur celebrated World AIDS Day today by organizing a 'Nukkad Natak' by the Social Service Club. The student of B.SC.-B.Ed., B.Ed. and D.El.Ed. vowed to remove AIDS from the society and to make the general public aware at large under the slogan "Stop AIDS keep the promise". The students enlightened the public about the causes, prevention and cure of AIDS by means of a rally portraying various posters and slogans. The Director, Dr. Fr. Davis George of SAIT inaugurated the rally and congratulated the staff and students for their commendable efforts, the institute's principal, Dr. Archana Pathak made the students promise to aware everyone about this incurable disease. The students were accompanied and motivated by their professors Dr. Renu Pandey, Mrs. Rajni Yadav, Dr. Lajwanti Patel, Mrs. Aditi Pimprikar, Mrs. Punita Upadhyay, Mrs. Rashmi Jaiswal, Mrs. Nirmala Mishra, Dr. Preeti Shrivastava, Mrs. Suman Mehra, Mr. Aman Singh, Mr. Rituraj Shrivastava, Ms. Tripti Moses .

Guest Lecture by Pro. Ramrajan

Guest Lecture on December 14, 2018 titled 'Innovative Physics' was organized in the institute. On this occasion, Professor Ramraghurajan, UMDI Centre for Excellence in Basic Sciences University, Mumbai, demonstrated innovative experiments related to innovative Physics , to the students of B.Sc.-B.Ed. He explained the mechanism of Theory of Pressure, Magnetism Optical Virtual Amplifier and acknowledged the questions of the students regarding Physics. Professor taught the students of B.Sc.-B.Ed about the use of Innovative Physics. The lecture was appreciated by the students & they were benefitted with the knowledge given by the expert.

Fine Art Competition

The cultural Club of our institute organised an inter group competition among its four groups at the campus as a part of its annual cultural celebration on December 14, 2018. The students of B. Sc. -B. Ed., B. Ed., D. El. Ed. associated with four groups including Satyam, Shivam, Sundaram and Madhuram participated in the Rangoli, Pooja Thali decoration, Mehandi, Clay modelling, cartoon, kalash decoration, Hair style, poster making competitions etc enthusiastically.

They exhibited their hidden talents through different ways during these competitions and mesmerised everyone with their creative efficiencies.

The panel of judges for these creative competitions comprised of professor Beula Moses and Megha Lamba from SAIT, Rituraj Shirvastava, Assistant Professor, Fine Arts.

Commencement of NSS Girls Wing

St. Aloysius Institute of Technology conducted NSS Orientation Program on 23rd February' 19 in which NSS girls unit was inaugurated .

The aim of this program is to enhance the personality of students through Social Work. Many eminent guests were present in this ceremony: NSS Co-Ordinator of RDVV Dr. Ashok Marathe, Mr. Devanshu Gautam etc.

During this program Students were made aware about the various activities held during the year. Many students were felicitated with the certificates.

Under the banner of NSS many activities took place throughout the year.

The NSS wing of girls is involved in identifying the importance, aims and objectives of NSS in the society which in turn creates social awareness among the students.

NSS volunteers work in rural areas, adopt villages and schools to serve the society.

Oath Taking Ceremony of Student Union

Nomination and Oath Ceremony of students of St. Aloysius Institute of Technology for Student Union

The students of St. Aloysius Institute of Technology, B.Sc.-B.Ed., B.Ed. and D.El.Ed. were nominated for student union on the basis of merit and attendance. Ms. Aparna Guha of B.Ed., with highest percentage and highest attendance in college, was nominated as the President, Mr. Sherrick Agrawal of D.El.Ed. was nominated as the Vice- President Ms., Pinki Patel and Ms. Harshita Sahu, both from B.Sc.-B.Ed., were nominated as Secretary and Join Secretary respectively.

The students took oath under the Principal, Dr. Archana Pathak. The students took a vow to prioritize the honour and reputation of the college and raise it to new heights. They pledged to maintain co-ordination between the students and do their duty with full devotion. Dr. Father Davis George, Director, SAIT, inspired the Nominated students and urged them to work for the development of institution and make it stronger. All the teachers were present on this occasion.

Christmas Celebration

Advocate General of Madhya Pradesh High Court, Mr. Rajendra Tiwari graced the Christmas Celebration organised at our institute under the banner of 'Jabalpur Inter Religious Forum' on December 20, 2018. Before the function, Jai Rohani and his group distributed blankets among the poor and needy people residing in the surrounding areas which was the true mark of Christmas love. Thereafter, the invited guests released the tri-colour balloons with the message of Christmas: love, joy and peace. They also set the pigeons free as a symbol of spreading the message of peace. The programme was started by the carols and scripture reading of different regions by Students. Students performed a skit on the nativity of Jesus and gave a dance performance.

FIRST ANNUAL SOCIAL GATHERING

Indian Youth Day Celebration

St. Aloysius Institute Of Technology organised 'Surya Namaskar' (Yoga) on the occasion of Vivekanand Jayanti on 12th January 2019. All the students of B.Sc.-B.Ed, D.El.Ed and teachers of St. Aloysius Institute of Technology participated in the Yoga Program organised by the social club of the college. Yoga trainer Mr. Manish Sharma guided all for Surya Namaskar. He enlightened all by sharing his views on why the birthday of Swami Vivekananda is celebrated as National Youth Day as well as the philosophy, the principles, thoughts & ideas of Swami Vivekananda. Swami Vivekananda himself led an ideal life and inspired youth to lead a worthy life.

Principal Dr. Archana Pathak said that students are the future of Nation. Today when corruption, evil and falsehood are destroying the nation, it's very important to fill the youth with new energy and make them aware of their important role in safeguarding of the nation. Swami Vivekanand's thoughts have revolutionary strength and power which can fill the youth with positivity and energy. 'Awake, arise and stop not till the goal is reached', the birthday of one who gave this message, the Man of Era, Swami Vivekanand is being celebrated by doing Surya Namaskar, Yoga & pranayam. On this occasion, the President of student union Ms Aparna Guha spoke about the personality of Swami Vivekanand. Assistant Professor Mrs Rashmi Jaiswal talked about the aspirations of Swami Vivekanand. The program was conducted by Ms Omna Mishra & Ms. Femilin John of B.Sc.-B.Ed 1st Semester. Vote of thanks was given by secretory Ms.Pinki Patel. The Non teaching staff took care of all the arrangements. The entire teaching staff of the college including Dr. Renu Pandey, Mrs. Rajni Yadav, Dr. Lajwanti Patel, Mrs. Punita Upadhyay, Mrs. Aditi Pimprikar, Mrs. Suman Mehra, Mrs. Nirmala Mishra, Ms. Tripti Moses and Aman Singh Bais were present in the occasion.

Inspection for New Courses

St. Aloysius Institute of Technology just spread its wing by establishing B.Sc.-B.Ed. & D.El.Ed. For addition on this mission institute also applied for affiliation of new general courses. A team of university professors came to the institute to inspect the whole campus. Guest were received by Director Dr.Fr. Davis George & Principal Dr. Archana Pathak. The Non teaching staff took care of all the arrangements. The entire teaching staff of the college including Mrs. Rajni Yadav, Dr. Lajwanti Patel, Mrs. Punita Upadhyay, Mrs. Aditi Pimprikar, Mrs. Suman Mehra, Mrs. Nirmala Mishra, Ms. Tripti Moses and Aman Singh Bais were present in their offices & labs during the inspection. At the end inspection team was pleased with the environment & arrangement of institute. Inspection team also gave some tips for improvement.

Republic Day Celebration

Republic Day is celebrated to honour the date when the Constitution of India came into effect. The 69th Republic Day was celebrated at our institute with great enthusiasm and happiness displaying love for the motherland. Our respected Director Dr. Father Davis George and principal ma'am Dr. Archana Pathak hoisted the National Flag. After this our SAIT members saluted our Nation by singing the National Anthem. We also stressed on the "Equality of all citizens." After this students performed Songs, Dance and speech and paid tribute to our motherland. Our institute motivated the student to be an ideal and honest citizens of the country and make the institute and nation proud by good deeds.

College Team represented in a program held at R.D.V.V.

On the occasion of Convocation Ceremony of Rani Durgawati University on March 14, 2019, the governor of Madhya Pradesh was invited. St. Aloysius Institute of Technology was given the opportunity to perform welcome dance on this pleasant occasion. As the governor arrived students started their prayer and welcome dance. All the guests were pleased with the performance and then attended the convocation ceremony.

Students of SAIT welcomed our governor Mrs. Anandiben Patel by folk dance in RDVV Jabalpur in Convocation ceremony on March 14, 2019.

Women's Day Celebration by NSS

St. Aloysius Institute of Technology celebrated Women's Day on 8th march 2019 at college auditorium. The theme of the day was "Why women empowerment is important in India?"

The event emphasised on social, economical, political, developmental related to women empowerment. Around 40 students participated and organised Nukkad Natak in various schools.

Plantation of Saplings on completion of Horticulture Assignment Project

St. Aloysius Institute of Technology, Gauraiya Ghat , Jabalpur planted saplings as a part of the completion of project on Work Education-Horticulture. The students of B.SC.-B.Ed. vowed to spread awareness among the general public at large by completing this project. The students not only completed the project but also enlightened the public about the prominence of plants, trees, ornamental gardens & the mother nature. The Director, Dr. Fr. Davis George of SAIT inaugurated this ceremony and congratulated the staff and students for their commendable efforts, the Principal of the institute, Dr. Archana Pathak made the students promise to spread awareness about the prominence of Ornamental Garden. The Head of Department Dr. Renu Pandey was also present. Professor In-Charge Mr. Aman Singh Bais concluded the ceremony by telling students about the significance of Ornamental Gardens. He stressed on the artistic, scientific and environmental value of the project.

Blood Donation Camp by NSS

St. Aloysius Institute of Technology, Gauraiya Ghat, Jabalpur & Seth Govind Das (Victoria) District Hospital both organised Blood Donation Camp as a part of N.S.S. The student of B.SC.-B.Ed., B.Ed. and D.El.Ed. pledged to spread humanity by donating blood. The students also briefed people about the importance of blood donation. The Director, Dr. Fr. Davis George of SAIT inaugurated the function and appreciated the students efforts, the Institute's Principal, Dr. Archana Pathak also motivated the students. The Programme was graced by the N.S.S. Officer Dr. Preeti Shrivastava & Mr. Rituraj Shrivastava.

Art and Craft Workshop and Exhibition

Art and Craft Workshop and Exhibition

SAIT organized an educational workshop on drama and art in education for the students of B. Ed. and D. El. Ed., from 1st to 15th May, 2019.

मेहनत

कड़ी मेहनत है, लक्ष्य को पाने की चाह है, जो मर्जी चाहो, मखमल सी लगती हर राह है। बिन रुके तरक्की के लिए आज कहाँ आराम है, कभी सोचा है कि हम यहाँ सिर्फ मेहमान हैं?

> सब समेट लेना, उन्माद के साधन नहीं, अपने भी पराए जहाँ, अवसाद का कारण यही । समेटा हुआ छोड़ जाना, क्या यही आज काम है, मटमैली सी जिंदगी में हम यहाँ मेहमान हैं ।

क्या कुछ रखना है, क्या और बचाना है, कुछ वक्त के लम्हे यहाँ, आखिर कभी तो जाना है। ठाठ की दुनिया में झूठा सबका नाम है, एक अस्पताल के बिस्तर पर हम यहाँ मेहमान हैं।

मेहमान का कुछ अपना नहीं , ले कर जाने को कहता नहीं, टूट-फूट का उर रहता है , कोई माल क्योंकि अपना नहीं । खुशियां खरीदी जाती नहीं, जीवन एक झूठी शान है। सच पूछो तो हर कोई यहाँ मेहमान है.. बस हर कोई यहाँ मेहमान है। **राहुल चावला** बी.एड. प्रथम सेमेस्टर

माँ

खुशबू नेगी बी.एड. प्रथम सेमेस्टर

सत्य को छुपाना आसान नहीं, अब तो कह दो इन हाथों में जान नहीं। चेहरे तक थकावट आ चुकी है, क्या मुझे है पहचान नहीं।

मेरे सिरहाने अपनी नींद रखकर, रातों को जागना तेरा । मेरे चेहरे पर मुस्कान देखकर, बन जाता था दिन तेरा ।

मेरे रुठ जाने पर मुझे, मनाने के जतन करना। मेरी सिसकियों की परवाह में, आँखें आँसुओं से भरना । मेरी मुसीबत कभी मेरी, नहीं होती थी जिस दिन मैं दुखी होता था मेरी माँ भी रोती थी ।

अपनी तकदीर जब कमजोर लगती है, मैं माँ को सोचता हूँ । भगवान ने माँ देकर सब दे दिया, उनके हाथ जोड़ता हूँ ।

अब जब मंदिर में खड़ा हूँ तो, माँ की याद आती है। भगवान से ज्यादा माँ मेरे, सुख—दुख की साधी है।

चेतना एवं चेतना के स्तर

श्रीमती निर्मला मिश्रा

चेतना शब्द से हमारा आशय उस स्थिति से है जिससे हमारा समग्र जीवन ,हमारा अस्तित्व , हमारी पूर्णता प्रकट होती है ।चेतना सर्वव्यापक है ; उदाहरण के लिए जैसे वृक्ष में फल— फूल ,पत्ती शाखा उसके अंदर रस के ही रूप प्रकट है अर्थात यह अभिव्यक्ति वृक्ष के अंदर एक रस नित्य बहता हुआ रस है जिससे लाल फूल, पंखुड़ी, हरे पत्ते और तना प्रकट होता है ।ठीक उसी प्रकार समस्त सृष्टि के मूल में चेतना निहित है जो भी संसार के नाम रूप प्रकट है उन सभी का आधार विशुद्ध चेतना है भगवान श्रीकृष्ण ने दसवे अध्याय के एतवे श्लोक में स्पष्ट कहा है —

इन्द्रियाणां मंनसचास्मि भूतानामस्मि चेतना ।।अध्याय (गीता)

अर्थात भगवान अपनी विभूतियों तथा स्वरूपों को वर्णन करते हुए स्पष्ट कहते है कि समस्तभूत प्राणियों कि चेतना मेरा ही स्वरुप है मैं ही जीवन शक्ति के रूप में व्याप्त हूँ इसके अतिरिक्त भगवान् ने चेतना की विभिन्न श्रेणियों का वर्णन किया है ।इसी चेतना की वृद्धि अथवा चेतना के विकास का अर्थ विशृद्ध चेतना है जो नित्य है, जो सनातन और सत्य है ।आधुनिक मनोविज्ञान के अनुसार कोई भी चेतना अपने विषयवस्तु से रहित नहीं हो सकती जबकि वेदविज्ञान की दुष्टि चेतना का अर्थ सर्व व्यापक रूप से ग्रहण किया गया है। विभिन्न विद्वानों ने चेतना को चार भागो में बांटा है बैखरी की चेतना मध्यमा की चेतना प्रश्यन्ति की चेतना और परा की चेतना ।यह केवल चेतना के नाम हैं नाम इसलिए है कि भिन्न –भिन्न क्षेत्रों में चेतना के भिन्न –भिन्न गुण होते हैं। जैसा जिसका गुण होता है वैसा उसका नाम हो जाता है ।जैसे वाणी के क्षेत्र में बैखरी वाणी ,मध्यमा वाणी .पश्यन्ति वाणी एवं परा ।

1.जागृति चेतना :

चेतना की इस अवस्था में शरीर और मन दोनों ही पूर्ण रूप से सक्रिय रहते हैं । जाग्रत अवस्था का ज्ञान भ्रामक होता है दैनिक जीवन में जो भी कार्य किया जाता है वह जाग्रत अवस्था के अंतर्गत ही आता है । चेतना की इस अवस्था में यद्यपि हमारा सम्बन्ध वास्तविक संसार से होता है किन्तु संसार की संरचना से हमारा सम्बन्ध नहीं होता है अर्थात जैसी शिक्षा, संस्कार और सामाजिक संस्कृति दी जाती है वैसे ही हम संसार को देखते हैं तो नाम रूप में संसार लाल दिखाई देता है। दूसरे शब्दों में जो ज्ञान इन्द्रियों के द्वारा प्राप्त होता है हम उसी की अनुभूति पर कार्य करते है जबिक यह ज्ञान भ्रामक हो सकता है। जैसे ट्रैन गाड़ी के साध पेड़ो का दौड़ना, सूर्य का पूर्व से पश्चिम की और चलते देखना यह सब भ्रामक है इसका परसेप्शन (इन्द्रिय बोध) भ्रामक है।

2 स्वप्न चेतना :

चेतना के इस स्तर में शरीर निष्क्रिय रहता है किन्तू मन आंशिक रूप से सक्रिय बना रहता है। खप्न चेतना में मनोवैज्ञानिक भाषा में चेतना अवचेतन (सब -कॉन्सियस)की स्थिति में होती है ।चेतना का यह रूप दैनिक जीवन में भी दिखाई देता है। जैसे कोई व्यक्ति बात करते समय अपने हाथों को शरीर के किसी अन्य हिस्से से आवश्यकतानुसार स्परट करा देता है जैसे मच्छर के काटने पर खुजाना, ऐसी घटना का उसे अहसास नहीं हो पाता है और खप्न में बातों का क्रम चलता रहता है। चेतना के इस स्तर में हम गतिविधियों के प्रति प्री तरह से जाग्रत न होकर आंशिक रूप से जागरूक होते हैं। इसमें अधिकतर घटना काल्पनिक होती है। सोते समय व्यक्ति को जो स्वप्न आता है वह स्वप्न इसी चेतना का रूप है इस अवस्था में चेतना भावनात्मक होती है जिसके कारण स्वप्न से संवेदनाओं. कल्पनाओं आदि की प्रधानता होती है। स्वप्न अवस्था का सम्बन्ध जाग्रत अवस्था की भांति वास्तविक विश्व से सम्बन्ध नहीं होता है। इस चेतना की अनुभूतियों में तार्किक संभावना नहीं होती है। इस अवस्था का पर्सेप्शन (इन्द्रिय-बोध) प्रत्यक्षीकरण काल्पनिक होता

3. सुषुप्त अवस्था :

चेतना के इस स्तर में शरीर और मन दोनों ही निष्क्रय होते हैं। सोते समय जब चेतना पूरी तरह से सुषुप्त होकर शांत हो जाती है तब चेतना में वस्तुओं और अनुभूतियों की जागरूकता नहीं होती है । यह गहरी नींद की अवस्था होती है इस अवस्था में इन्द्रिय बोध का ज्ञान नहीं होता है ।मृत्यु की अवस्था और सुषुप्त अवस्था की अवस्था में अंतर यह है कि सुषुप्त अवस्था में नींद खुलने के बाद इस बात का अनुभव होता है कि आज मुझे अच्छी नींद आयी या आज मैं खूब सोया आदि। जबिक मृत्यु अवस्था में इस तरह के अनुभव का प्रश्न ही नहीं उठता है । इसी प्रकार ब्राही चेतना में शांत चेतना का पूर्णता अनुभव होता है और स्वयं में उसी अवस्था के प्रति जागरूकता बनी रहती है जबिक सुसुप्त अवस्था में नींद खुलने के बाद चेतना का अनुभव होता है ।इस अवस्था का परसेप्शन(प्रत्यक्षीकरण)),इन्द्रिय बोध श्रन्य होता है ।

4. तुरीय चेतना या भावातीत चेतना :

चेतना के इस स्तर में सभी प्रकार की भावनाएँ,इच्छाएँ,क्रियाएँ, विचार आदि शांत हो जाते हैं; यह चेतना की चौथी अवस्था कहलाती है। इस अवस्था में हम मानसिक रूप से पूर्ण सजग और शारीरिक रूप से गहन विश्राम प्राप्त करते हैं। अतः मन के तीनों आयाम विचार भाव और क्रिया रूपांतरित होकर पूर्णतः शांत हो जाती है।जिस प्रकार सागर से उठती लहरें शांत होकर सागर में मिल जाती है ठीक उसी प्रकार मन के तीनों आयाम शांत होकर आत्मा बन जाती है किन्तु यह अवस्था आत्म ज्ञान की नहीं है। आत्म ज्ञान के पूर्व जो मानसिक अनुभूति होती है वही तुरीय या भावातीत चेतना कहलाती है।

5. तुरीयातीत चेतना (अवस्था) :

जब तुरीय चेतना की अवस्था सदैव के लिए स्थापित हो जाये अर्थात् जब क्रियाशील जगत में क्रिया की शांति बनी रहे तो ऐसी अवस्था को तुरीय अवस्था कहते हैं। इस अवस्था में मन द्विमुखी हो जाता है मन एक ही समय में शांत होकर क्रिया भी कर सकता है इस अवस्था को निष्काम अवस्था भी कहते हैं। जिसमें कार्य करते हुए भी कार्य के संस्कार चेतना में प्रवेश नहीं करते ,चेतना की यह पूर्णता वस्तुनिष्ठ व तटस्थ होती है। चेतना की इस अवस्था में संकल्प सिद्धि नष्ट हो जाती है। हम जैसा चाहते हैं चेतना वैसी ही हो जाती है चेतना का यह स्वरुप अत्यंत प्रगाढ़ होने से प्रकृति सहयोग करने लगती है इसे ही आत्म ज्ञान कहते हैं इस अवस्था में प्रत्येक वस्तु का यथार्थ एवं पूर्ण ज्ञान होता है। पूर्ण ज्ञान वह होता है जिसमे अं व् अनुभव सिम्मिलित हो ,अतः इस अवस्था में परसेष्शन पूर्ण होता है।

वस्तु के यथार्थ दर्शन एवं बुद्धि सौ प्रतिशत प्रकाशित रहती है इसे हंस अवस्था भी कहा जाता है । क्योंकि इसमें विवेक अविवेक का पूर्ण ज्ञान होता है । इस अवस्था को विदेह की अवस्था कहा जाता है राजा जनक इसी अवस्था में रहते थे वह जगत में रहते हुए भी अथवा जीवन रहते हुए भी जीवन मुक्त बने रहते हैं अर्थात सौ प्रतिशत आध्यात्मिक जीवन जीता है जिसे पूर्णता का जीवन कहते हैं।

6. भगवत चेतना :

चेतना की यह अवस्था जिसमे चेतना विस्तृत होकर विश्व से मिल जाती है विश्व की चेतना और स्वयं की चेतना एक होकर जिस चेतना का निर्माण होता है उसे भगवत चेतना कहते है। इस चेतना की मुख्य विशेषता यह है कि प्रकृति पूरी तरह से नियंत्रित हो जाती अष्ट सिद्धियां आदि चेतना के इसी स्तर में जागरूक होने लगती है।इसलिए इस अवस्था में परसेषान (इन्द्रिय बोध)दिव्य होता है। दैवीय दृष्टि हो जाती है,जीवन पूर्णतः सफल होकर सत्य से साक्षात्कार कर लेता है ,इसे गोल्डनविजन (सुनहरी दृष्टि)भी कहते है। इस अवस्था में चेतना अत्यंत करुणामयी होती है। इस अवस्था में प्रत्यक्षीकरण , इन्द्रिय बोध इतना सूक्ष्म हो जाता है कि व्यक्ति स्थूल सापेक्ष धरातल पर ही सक्ष्मतम सापेक्ष का अवलोकन कर सकता है यह अपरिमित सापेक्ष अवस्था होती है इसे दिव्य अवस्था भी कहते है।

7. ब्राम्ही चेतना (अवस्था) :

ब्राम्ही चेतना, चेतना के स्तर की अंतिम अवस्था है जिसमे चेतना पूर्णतः निर्विकल्प, निरपेक्ष, अनंत , शाश्वत और आनंद युक्त होती है। यह अवस्था चेतना की सर्वोच्च अवस्था है इसमें जीव ब्रहमय हो जाता है इस अवस्था में पिंड और ब्रम्हांड दोनों ही अलग—अलग अनुभूति न होकर एक मात्र शुद्ध चेतना की अनुभूति होती है वह एक ही समय में पिंड और ब्रम्हांड में साथ—साथ रहती है। ब्राही चेतना के पश्चात् चेतना पुनः लौट नहीं पाती है। यह चेतना की उच्चतम अवस्था का परसेष्मन स्वयं का दर्शन होता है जिसमे — अहम् ब्रम्हास्मि, अहम् आत्मा, मैं ही ब्रम्ह हूँ, मैं ही आत्मा हूँ, इस अवस्था में मन अनंत में समाहित हो जाता है।

शीश कटाते फौजी देखे

प्रियंका चौधरी बी.एड.

शीश कटाते फौजी देखे. आँख दिखाता पाकिस्तान . भाव गिराता रुपया देखा . जान गँवाता हुआ किसान, बहनों की इज्जत लूटती देखीं, काम खोजता हर नौजवान . कोई तो मुझको यह बता दे .. यह कैसा भारत निर्माण ... अन्न गोदामो में सडते देखा . भूख से मरता हिंद्स्तान , घोटालों की सत्ता देखीं, लुटता हुआ यह हिंदुस्तान, आपस में लडकर भाई–भाई. जा रहे है क्यों श्मशान, कोई तो मुझको यह बता दे .. यह कैसा भारत निर्माण .. पैसों के आगे बिकता देखा. हर इंन्सान का ईमान, ईमानदारी को कूचलते देखा तनकर चलता बेईमान . कदम कदम पर होते देखा . देश के गरीबों का अपमान , कोई तो मुझको यह बता दे .. यह कैसा भारत निर्माण ... हिंसा को मैंने बढते देखा . अहिंसा का होता कत्त्लेआम . गिरगिट का रंग बदलने जैसा रूप बदलता हर इंसान . आपस में हमने लडते देखा . राम हो या हो रहमान , कोई तो मुझको यह बता दे .. यह कैसा भारत निर्माण ...

शिक्षा की महिमा

पिंकी तिवारी डी.एल.एड. प्रथम वर्ष

अंधकार को दूर कर जो प्रकाश फैला दे, बुझी हुई आशा में विश्वास जो जगा दे,

जब लगे नामुमिकन कोई भी चीज, उसे मुमिकन बनाने की राह जो दिखा दे वो है शिक्षा।

हो जो कोई असभ्य, उसे सभ्यता का पाठ पढ़ा दे.. अज्ञानी के मन में, जो ज्ञान का दीप जला दे.. हर दर्द की दवा जो बता दे.. वो है शिक्षा।

वस्तु की सही उपयोगिता जो समझाए, दुर्गम मार्ग को सरल जो बनाए, चकाचौंध और वास्तविकता में अन्तर जो दिखाए, जो ना होगा शिक्षित समाज हमारा, मुश्किल हो जाएगा सबका गुजारा।

इंसानियत और पशुता के बीच का अन्तर है शिक्षा.. शांति, सुकून और खुशियों का जन्तर है शिक्षा, भेदभाव, छुआछूत और अंधविश्वास दूर भगाने का मन्तर है शिक्षा, जहाँ भी जली शिक्षा की चिंगारी, नकारात्मकता वहाँ से हारी, जिस समाज में हों शिक्षित सभी नर—नारी, सफलता—समृद्धि खुद बने उनके पुजारी।

> इसलिए आओ शिक्षा का महत्व समझें हम, आओ पूरे मानव समाज को शिक्षित करें हम।

संचार क्रांति

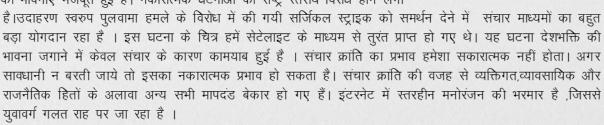

श्रीमती अदिति पिम्परीकर

मानव समाज में पुरातन काल से ही संचार का अत्याधिक प्रभाव रहा है ।एक मनुष्य दूसरे मनुष्य से अपनी भावनाएँ संचार के माध्यम से ही स्थापित करता है ।वर्तमान समय में संचार साधनों का जितना विस्तार हुआ है उतना पहले कभी नहीं था।ऐसा माना जाता है कि किसी राष्ट्र की प्रगति तभी होगी जब उसका संचार माध्यम उत्कृष्ट होगा ।वास्तव में आज संचार द्वारा ही राष्ट्र विश्व समुदाय में अपना स्थान बनाये रखने में समर्थ हो सकता है ।संचार क्रांति ने कई बेराजगार युवाओं को रोजगार प्रदान किये हैं ।आज ऐसा कोई क्षेत्र नहीं है जहाँ संचार क्रांति ने अपना प्रभाव न छोड़ा हो।

भारतीय समाज प्रागैतिहासिक युग से प्रारम्भ होकर क्रमिक रूप से विकसित हुआ है। अतः प्रत्येक युग की जानकारी पुरातत्विक अवशेषों,साक्ष्यों और कलाओं से मिलती हैं। संचार की जड़ें संस्कृति में निहित हैं। संस्कृति का जैसे जैसे प्रचार होता गया संचार उन्नत होता गया है। पौराणिक समय से वर्तमान समय तक संचार प्रक्रियाओं के तरीकों और आयामों में बहुत परिवर्तन आया है।संचार की यात्रा में उसकी सांस्कृतिक पृष्टभूमि भी रही है। जिसमें सूचनाओं को स्थानीय जनमानस तक पहुँचाने हेतु लोकगीत, नाट्यकलाओं आदि का उपयोग किया जाता था क्योंकि संचार साधन विकसित नहीं थे। ऋषि— मुनि अपने आध्यात्मिक और अलौकिक संचार को जानते एवं अनुभव करते उसके पश्चात प्राप्त अनुभवों को जनसामान्य तक पहुँचाते थे।

संचार क्रांति का आध्यात्मिक प्रभाव पड़ने के साथ ही समाज पर भी उतना ही प्रभाव पड़ा है। वर्तमान समय में सम्पूर्ण विश्व में ग्लोबलाइजेशन तीव्र गति से हो रहा है ।संचार क्रांति ने रीति–रिवाजों,परम्पराओं एवं मान्यताओं को प्रभावित किया है ।कृषि, विज्ञान, शिक्षा आदि की नई तकनीक विकसित हो गयी हैं, जिनकी जानकारी तुरंत प्राप्त हो जाती है।

विद्यार्थियों के विषय से सम्बंधित जानकारी इंटरनेट पर उपलब्ध है ।मनोरंजन का क्षेत्र भी इससे अछूता नहीं है । आज सस्ता और सुलभ मनोरंजन उपलब्ध है ।संचार के सभी माध्यम चाहे वो टी.वी.,समाचार पत्र,सोशल नेटवर्किंग साइट हो या फिल्म उद्योग, सभी ने सामाजिक, आर्थिक, धार्मिक, सांस्कृतिक आदि सभी क्षेत्रों को सामान रूप से प्रभावित किया है। धार्मिक पाखंडों और अंधविश्वासों को दूर करने में संचार क्रांति की भूमिका को नजरअंदाज नहीं किया जा सकता।संचार क्रांति ने वेशभूषा और खानपान को भी प्रभावित किया है।वैश्विक संस्कृति में उपलब्ध विभिन्न प्रकार के परिधान और जरूरत की सभी वस्तुएँ आज एक इशारे पर घर बैठे मिल जाती हैं वो भी विश्वस्तरीय गुणवत्ता के साध संचार माध्यमों से युवाओं में राष्ट्रीयता और एकता की भावनाएँ मजबूत हुई हैं। नकारात्मक घटनाओं का राष्ट्र स्तरीय विरोध होने लगा

उपसंहार — सूचनाओं के आदान—प्रदान में संचार माध्यम महत्वपूर्ण भूमिका निभाता है। व्यक्ति, समाज और राष्ट्र के मध्य संबंध स्थापित करने में संचार क्रांति का महत्वपूर्ण योगदान है तीव्र गति से विकसित होने वाले संचार माध्यम जितने सशक्त होंगें राष्ट्र उतना ही मजबूत होगा और विकसित माना जायेगा। विकास के लिए संचार क्रांति का उपयोग किया जाये परन्तु उसके नकारात्मक पक्ष को अनदेखा न किया जाये, तभी इसका समृचित लाभ मानव समृदाय को प्राप्त हो सकेगा।

सपनों की परछाई

गज़ल

रिंकी सिंह डी.एल.एड. प्रथम वर्ष

सनव्वर जहाँ बी.एड प्रथम वर्ष

सपने होते हैं परछांई से. जितने कदम चलो उतने बढ़ते जाते हैं। कभी खुशहाली, तो कभी जंग वो बन जाते हैं। छोटे से मन में. वो विशाल घर बनाते है। जिन्दगी की हकीकत में. वो युद्ध छेड़ जाते हैं। सपने हैं परछाई से, जितने कदम चलो उतने बढ़ते जाते हैं। नरमी सा एहसास, दिल में भर देते हैं। कभी हकीकत बन के, सामने आ जाते हैं। कभी किसी से नहीं करते हैं. वो भेद-भाव चाहे राजा हो या भिखारी की आँखें. सबकी आँखों में आते हैं वो। सपने हैं परछाई से जितने कदम चलो उतने बढ़ते जाते हैं। ऊँचाई इतनी कि, पल में चाँद और सूरज को छू लें गहराई इतनी कि, समुद्र की सतह में पल न लगे। गरीब को पल में. अमीर वो बनाएँ। महब्बा को पल में, प्रियतम से मिलाए। सपने हैं परछांई से. जितने कदम चलो उतने बढ़ते जाते हैं।

निकले हैं गम-ए-हिज्र में जो अश्क हमारे, वोह बन गऐ शबनम तो कभी बन गऐ सितारे।

हम तुम से खफा होंगे तो आएगा मजा क्या, एहसास–ए–मोहब्बत नहीं जब दिल में तुम्हारे।

सूरत भी हमारी नहीं आज उनको गवारा, लगते थे अभी कल जिन्हें हम जान से प्यारे।

एक झटके में ही तोड़ दिया शीशा-ए-दिल, जो दोस्त बने बैठे थे पहलू में हमारे।

उसके भी खताओं की सजा हमको मिलेगी, सब जुर्म रहे इश्क में होते हैं हमारे।

वादा भी नहीं उनसे मुलाकात का कोई, तकते है सना राह मगर नैन हमारे।

प्रकृति

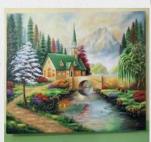

माधुरी महतेल बी.एड. प्रथम सेमेस्टर माँ की तरह हम पर प्यार लुटाती है प्रकृति,
बिना मांगे हमें कितना कुछ देती जाती है प्रकृति..
दिन में सूरज की रोशनी देती है प्रकृति,
रात में शीतल चाँदनी लाती है प्रकृति..
भूमिगत जल से हमारी प्यास बुझाती है प्रकृति,
और बारिश में रिमझिम जल बरसाती है प्रकृति..
दिन—रात प्राणदायिनी हवा चलाती है प्रकृति,
मुफ्त में हमें ढेरों साधन उपलब्ध कराती है प्रकृति..
कहीं रेगिस्तान तो कहीं बर्फ बिछा रखे हैं इसने,
कहीं पर्वत खड़े किए तो कहीं नदी बहा रखे हैं इसने.
.कहीं गहरी खाई खोदी तो कहीं बंजर जमीन बना रखी हैं इसने,
कहीं फूलों की वादियाँ बसाई तो कहीं हरियाली की चादर बिछाई है
इसने,

मानव इसका उपयोग करे इससे, इसे कोई ऐतराज नहीं, लेकिन मानव इसकी सीमाओं को तोड़े यह इसको मंजूर नहीं. जब—जब मानव उदंडता करता है, तब—तब चेतवानी देती है यह, जब—जब इसकी चेतावनी नजरअंदाज की जाती है, तब—तब सजा देती है यह...

विकास की दौड़ में प्रकृति को नजरंदाज करना बुद्धिमानी नहीं है, क्योंकि सवाल है हमारे भविष्य का, यह कोई खेल—कहानी नहीं हैं.. मानव प्रकृति के अनुसार चले यही मानव के हित में हैं, प्रकृति का सम्मान करें सब, यही हमारे हित में हैं..

कला

कला एक ऐसा विषय है कि जिसके बारे में लिखना या कहना, जितना भी हो कला विषय पर कम ही होगा। कला शब्द इतना व्यापक है कि विभिन्न विद्वानों की परिभाषाएं केवल विषय पक्ष को ही छू पातीं हैं। कला विषय को अभी भी एक मत से परिभाषित नहीं किया जा सकता है। कला प्रकृति से भी प्रभावित होती है। कला को सीधे अर्थों पर कह सकते हैं कि मानव मस्तिस्क में चल रही कल्पनाओं को सुन्दर और व्यवस्थित रूप से प्रस्तुत करना ही कला है। कला एक प्रकार का कृत्रिम निर्माण है जिसमें शारीरिक और मानसिक कौशल का प्रयोग होता है। कला जीवन को 'सत्यम् शिवम् सुन्दरम्' से समन्वित करती है। साहित्य के अनुसार 64 कलाओं का वर्णन मिलता है, इनके मुख्य रूप से दो भेद किये गये

हैं — उपयोगी कलाएँ तथा लित कलाएँ। इनका वर्णन अलग होगा । इस लेख में 'लित कला' के बारे कुछ विभिन्न विद्वानों लेख के अनुसार ही प्रकाश डाला गया है । लित कला को परिभाषित करने के लिये यह कह सकते हैं कि सौंदर्य या लालित्य को प्रकट करने वाली कलाएँ ही लित कला कहलाती हैं । पारंपरिक रुप से लित कला को सात भागों में विभक्त किया गया है — स्थापत्य कला, मूर्ति कला, चित्र कला, संगीत, काव्य, नृत्य, रंगमंच । इन कलाओं को निम्न प्रकार से भी श्रेणीकृत कर सकतें हैं — साहित्य कलाएँ (काव्य, उपन्यास, लघुकथा, महाकाव्य आदि), निष्पादन कलाएँ (संगीत, नृत्य, रंगमंच), पाक कलाएँ (बेकिंग, चॉकलेटरिंग, आदि), दृश्य कलाएँ (ड्राइग, चित्रकला, मूर्तिकला)। वर्तमान समय पर मीडिया को भी एक कला के रुप मे प्रस्तुत किया गया है जिसके अंतर्गत (फोटोग्राफी, सिनेमेटोग्राफी, विज्ञापन आदि) कलाएँ आती हैं। इस लेख को लिखने का उद्देश्य यह है कि कला के क्षेत्र का कुछ अवलोकन हो सके और विद्यार्थियों का ज्ञानवर्धन हो सके।

ऋतुराज श्रीवास्तव

वानिकी में करियर

श्रीमती सुमन मेहरा

यदि आप युवाओं के सामने यह प्रश्न रखें कि क्या वे इस क्षेत्र में आजीविका पाना चाहते हैं, तो इस बात की सम्भावना है कि बहुत से युवा इस क्षेत्र में आजीविका पाने के प्रति इक्छुक नहीं होंगे, यह एक वास्तविकता है कि बहुत से युवा इस बात से अवगत भी नहीं है कि वानिकी के क्षेत्र में अनेक पाठ्यक्रम तथा आजीविका के विकल्प उपलब्ध हैं। वर्तमान दौर में पारिस्थितिकी संतुलन ,पर्यावरण संख्मण जैसे शब्दों का धड़ल्ले से इस्तेमाल किया जा रहा है। दुनिया के सामने अनेक चुनौतिया हैं। पर्यावरण का बढ़ता असंतुलन उसमें से एक है। मानव द्वारा वन्य संसाधनों का नुकसान किया जा रहा है तथा उनका बेहतर दोहन किया जा रहा है।

हमें यह नहीं भूलना चाहिए कि वनों के अस्तित्व पर ही मानव समाज निर्भर है । लोगों की अनेक आवश्यकताओं की पूर्ति वनों से होती है। वनों के महत्व पर विचार करने का यह एक कारण हो सकता है। इस विश्व को रहने के लायक बनाने में वनों एवं वानिकी को बहुमूल्य माना जाना चाहिए। प्रायः ग्रहों पर जीवन का कोई अता पता नहीं है,क्योंकि वहाँ वनों तथा जीवन के लिए आवश्यक अन्य संसाधनों का अभाव है ।वनों से हमें आश्रय, जल, जीविका ,खाद्य सामग्री ,ईंधन आदि प्राप्त होते हैं। वन सम्बन्धी गतिविधियाँ प्रत्यक्ष अथवा अप्रत्यक्ष तौर पर हमारे जीवन से जुड़ी हैं। फलों, सब्जियों, लकड़ियों की प्राप्ति के साथ औषधियों रसायनों आदि में इस्तेमाल होने वाले उत्पाद भी हमें वनों से ही प्राप्त होते हैं ,वनों में वन्यजीवों को आश्रय मिलता है ,जिसका महत्व कम करके नहीं आँका जा सकता है।

वानिकी में क्या शामिल है ?

वानिकी में वनक्षेत्र के विस्तार, बंजर भूमि को आबाद करने ,वन की उत्पादकता बढ़ाने,लकड़ी तथा अन्य वनोत्पादों के युक्तिसंगत इस्तेमाल ,पर्यावरण के अनुकूल उत्पादों के साथ—साथ वन एवं पर्यावरण के संख्राण के बारे में अध्ययन किया जाता है। वानिकी के पाठचक्रम में वनाच्छादन वानिकी, सामाजिक वानिकी, कृषि वानिकी, जैव विविधता, वन्यजीवन संख्राण एवं पारिस्थितिकी—पर्यटन आदि जैसे विषय शामिल है।

मैंने वो दिन डूबते देखे हैं सपनों के,

मैंने रंग बदलते देखे हैं अपनों के

मैंने तो ऐसी चौखट भी देखीं हैं,

जब लोगों ने मेरे लिए कुत्ते की तरह रोटी भी फेंकी है

लोगों के सामने हाथ फैला के देखा है,

लोगों को मेरे जख्मों मे नमक लगाते भी देखा हैं

ऑसू आते थे तो छुपा लेता था,

जब कोई मजाक बनाता था तो मैं अपने अरमान दबा लेता था

करूँगा एक दिन कुछ ऐसा अक्सर ठान लिया करता था,

कभी कभी पानी को हीड्रिंक मान लिया करता था,

जो गुजारी है रातें भूखे पेट में वो रात नहीं भूलता,

सब कुछ भूल जाता हूँ अक्सर

मगर में अपनी औकात नहीं भूलता..!!

औकात

प्रभात नाविक बी.एड. प्रथम वर्ष

संतुष्ट जीवन ही ईश्वर का प्रसाद है!!

रोहित लोधी डी.एल.एड. प्रथम वर्ष

एक गाँव में एक व्यक्ति था जिसका एक छोटा सा घर था और वो बस आज में जीने जितना कमाता था उसे कल का कोई भय ना था। उसकी ईश्वर में अपार भक्ति थी; उसका मानना था ईश्वर जो करता हैं भले के लिए करता हैं। उसके चेहरे पर ये शांति का भाव देखकर कई लोगो को उस पर क्रोध आता था; सच तो यह था लोग उससे जलते थे। आज के समय में कोई किसी को संतुष्ट देखकर भी जलता हैं; पर वह व्यक्ति सभी को सिखाता था ईश्वर में विश्वास रखे वो जो करता हैं अच्छे के लिए करता हैं।

एक दिन गाँव में एक बच्चे की ऊँगली दरवाजे में फँस गई और कट गई वो बहुत रोया, पास के दवाखाने ले जा कर उसकी मलहम पट्टी की गई लेकिन उसकी आधी ऊँगली को नहीं जोड़ा जा सका; उसकी माँ बहुत रो रही थी उसके पिता भी बहुत दुखी थे तभी वो संतुष्ट व्यक्ति वहाँ से गुजरा उसने पूरी बात सुनी और बच्चे और उसके माता— पिता को समझाया और कहा— भगवान में विश्वास रखे वो जो करता अच्छे के लिए करता । यह सुनकर बच्चे के माँ बाप और गाँव के लोगों को गुस्सा आ गया ।हमारे बच्चे की ऊंगली कट गई इसमें तुम्हें और तुम्हारे भगवान को क्या अच्छा दिख रहा है। वो व्यक्ति मुस्कुराता हुआ बोला देखो सज्जन वक्त तुम्हे सब बताएगा और वहाँ से चला जाता है।

छह महीने बाद्...

. गाँव में कुछ अन्धविश्वासी जंगली लोगों की टोली के कारण भय उत्पन्न हो गया। वे लोग हर एक गाँव से एक बच्चे को ले जाते और उसकी बिल देते उनका मानना था इससे खुशहाली आती है। अब इस गाँव की बारी थी। वे लोग उसी बच्चे को उठाकर बिल देने ले गए जिसकी छोटी ऊँगली कट गई थी। उसके माँ बाप का रो—रोकर बुरा हाल था पर उन लोगों ने एक ना सुनी उनके अनुसार जिसकी बिल दी जाती हैं वो शहीद माना जाता हैं। जब उस बच्चे को बिल के लिए तैयार किया गया तब उस टोली के मुखियाँ ने देखा बच्चे कि एक ऊँगली कटी हुई हैं। इस तरह उन लोगों ने इस बच्चे को छोड़ दिया और वहाँ से चले गये क्योंकि उन्हें एक गाँव से एक ही बच्चा लेना था। बच्चा सही सलामत घर पहुँचाया गया। सभी खुशी का ठिकाना ना था। तभी वो संतुष्ट व्यक्ति आया। बच्चे के माँ बाप ने उसके हाथ जोड़कर कहा भाई तुम सही थे ईश्वर जो करता हैं अच्छे के लिए करता हैं।

कहानी से शिक्षा;

ऐसा नहीं कि अन्धविश्वासी बने और भगवान पर सब कुछ छोड़ कर्महीन बन जाए। लेकिन अगर कोई दुर्घटना घटी है तो उसे लेकर ना बैठे। आगे की और देखे क्योंकि जीवन में जो होता हैं उसका कोई न कोई मायने जरुर होता है।

डॉ. प्रीती श्रीवास्तव

संगीत

संगीत नैसर्गिक रूप से हृदय के संवेगों एवं भावनाओं को प्रकट करने की कला हैं और इसीलिए इसे सर्वश्रेष्ठ लित कला का स्थान प्राप्त हैं हृदय के उद्गार कलाकार के व्यक्तित्व एवं अन्तः करण का वर्णन करते हैं और कलाकार अपनी कला के माध्यम से परम आनंद एवं मोक्ष प्राप्त करने की चेष्टा करता है। संगीत कला में कलाकार एवं श्रोताओं में प्रत्यक्ष संबंध स्थापित होता है तथा कलाकार अपनी कला के आकर्षण से श्रोताओं को कला की रसधारा में बहा ले जाता है तथा श्रोता अलौकिक आनंद के सागर में तैरने लगते हैं। (इस परमानन्द की अवस्था में श्रोता अपने मन के अन्य भावों से विरक्त हो, केवल इसी परमानन्द में निमग्न हो जाता है) उन्हें परमानन्द की प्राप्त होती है और परमानन्द की ऐसी अवस्था ही संगीत के उद्देश्य की प्रक हैं।

संगीत द्वारा चिकित्सा की पद्धति :-

विभिन्न शोध अध्ययनों के अनुसार विभिन्न स्त्रोतों से उत्पन्न होने वाली ध्विन तरंगों को कान ग्रहण करते हैं। वहाँ से ये तरंगे, संवेदी, तिन्त्रकाओं द्वारा विभाग के मध्यभाग में पहुँचती है और वहाँ से फिर न्यूरॉन की संरचना द्वारा विभाग के अन्य भाग में पहुंचती है दमाग का दाहिना गोलाई संगीत और रचनात्मक कलाओं को तीव्रता से ग्रहण करता है। इस संबंध में एक विशेष बात जान लेना अत्यावश्यक है कि संगीत के मध्यम से उपचार काफी हद तक दिमाग की ग्रहण शिवत पर निर्भर करता है। इस विषय से संबंधित कुछ शोधों से यह तथ्य भी सामने आया है कि संगीत की रोग उपचार में वही भूमिका हो सकती है, जो ध्यान आदि यौगिक प्रक्रियाओं की होती हैं।

कुछ समालोचकों के विचार :-

1—संगीत समालोचक आशीष खोखर का मानना है कि — संगीत ध्विन से उत्पन्न होता है और ध्विनयाँ हमारे सोचने की क्षमता को कई—कई तरह से प्रभावित करती है । यह देखा गया है कि एक्वेरियम में मछिलयाँ भी पास में आ रहे संगीत की ध्विन को जल में उठती तरंगों के माध्यम से महसूस करके उसकी धुन के आधार पर तैरती हैं। यहाँ गौर करने वाली बात यह है कि मछिली संगीत की ध्विन को सुनती नहीं है, वरन् उसे पानी में तरंगों के माध्यम से महसूस करती हैं इस आधार पर अनुमान लगाया जा सकता है कि ध्विन और संगीत का मानव के दिमाग पर कितना असर पड़ सकता है।

2—नेशनल इंस्टीट्यूट ऑफ मेंटल हेल्थ एण्ड न्यूरोसाइंसेज बैंगलोर की डॉ.बी.एन. मंजुला कहती है कि सभी संगीत उपयोगी हो सकती है तथा अवसाद की अवस्था में स्वयं रोगी के स्वर में गीत अधिक उपयोगी होता है, एंग्जाइटी न्यूरोसिस में तारयुक्त वाद्ययंत्र में बजाया गया सुमधुर संगीत विशेष रूप से लाभदायक पाया गया है । तथा उन्माद की अवस्था में तीव्र संगीत को प्राथमिकता देनी चाहिए ।

वे आगे कहती है कि संगीत सुनने से बेहतर होता कि रोगी स्वयं गीत गाये या वाद्ययंत्र बजाए ।

3—न्यूयॉर्क सिनॉय हॉस्पिटल के डॉ. जॉन डायमंड कहते है कि रॉक संगीत दिल की धड़कनों को बढ़ाकर रोगों को न्योता दे सकता है ।

विशिष्ट रोगों के निवारणार्थ विशिष्ट रागे :-

विविध रागों को भिन्न—भिन्न रोगों में अपने चिकित्सकीय प्रभाव के लिए उपयुक्त माना गया है कफ के कुपित होने से सम्भावित रोगों के लिए राग भैरवी, मानसिक चंचलता एवं कोध की स्थिति में मल्हार एवं जैजैबन्ती, रक्तचाप में राग आसावरी, श्वास संबंधी रोगों तपेदिक, खॉसी, दमा आदि में राग भैरवी और उदर संबंधी रोगों में पंचम राग का प्रयोग बतलाया गया है। पागलपन की स्थिति में राग खंबुज, अनिद्रा रोग में राग नीलांबरी का उपयोग लाभदायक है। श्री राग से पाचनिकया ठीक होती है,

रागवर्धिनी शरीर पीड़ा को दूर करता है। शरीर के कियाकलाप सामान्य एवं सहज ढंग से कार्य करें इसके लिए राग तोड़ी को उपयुक्त बताया गया है। इन प्रयोगों के लिए संगीत चिकित्सकों की राग, रोग व रोगी के मन, स्थिति का सही ज्ञान होना अत्यावश्यक है।

निष्कर्ष एवं सुझाव :-

उपर्युक्त अध्ययन में यह निष्कर्ष निकाला जा सकता है कि कुछ विशिष्ट रोगों (मुख्यतः मानसिक रोगों) का उपचार संगीत—चिकित्सा द्वारा किया जा सकता है । इस अध्ययन से यह बात भी सामने आती है कि तीव्र संगीत के स्थान पर अध्यात्मिक एवं शास्त्रीय संगीत रोगों के उपचार में अधिक लाभकारी है।चूंकि संगीत—उपचार की संभावनायें दिन प्रतिदिन बढ़ती जा रहीं है, इस कारणवश इस संदर्भ में मेरा यह सुझाव है कि भारत में संगीत द्वारा चिकित्सा विषय पर प्रामाणिक अध्ययन अवश्य होने चाहिए । जिससे कि संगीत के द्वारा परमानंद एवं मोक्ष की प्राप्ति के साथ साथ रोगों का उपचार अथवा स्वास्थ्य लाभ को भी एक उचित एवं प्रामाणिक दिशा दी जा सकें, तथा संगीत मनोरंजन एवं मोक्ष प्राप्ति के अतिरिक्त चिकित्सा के लिए भी प्रसिद्ध होकर अपनी बहुमुखी क्षमता दुनिया को दिखा सकें

कैसे हुई नोबेल पुरस्कारों की शुरुआत !!

श्री अमन सिंह बैस

महान वैज्ञानिक अल्फ्रेंड बर्नार्ड नोबेल (1833—1896),स्वीडन निवासी रसायनज्ञ तथा इंजीनियर थे। उनका जन्म स्टॉकहोम में हुआ था, वे बचपन से ही अत्यंत जिज्ञासु व प्रतिभाशाली थे। प्रसिद्ध विस्फोटक डाइनामाइट का अविष्कार उन्होंने ही किया था। इसे तैयार करने में नोबेल ने काफी रिसर्च और मेहनत की थी। अपने पिता के कारखाने में वे इसका उत्पादन करते थे, इस कारखाने में अनेक लोगों के साथ उनके भाई भी काम करते थे। 3 सितंबर 1864 को इस कारखाने में भयंकर विस्फोट हुआ और पूरा का पूरा कारखाना ही तबाह हो गया। इस दुर्घटना में कई मजदूरों के साथ—साथ उनके भाई की भी मृत्यु हो गयी।

नोबेल को अपने भाई से बेहद लगाव था। वह उसके बिना अपने जीवन की कल्पना भी नहीं कर पाते थे। अनेक लोगों के साथ—साथ, भाई की मृत्यु ने उन्हें बुरी तरह झकझोर कर रख दिया। कई दिनों तक वह पागलों की सी स्थिति में बैठे रहते थे। धीरे —धीरे उन्होंने स्वयं को संभाला।

एक दिन वह अपने एक मित्र से बोले, काश मैं विध्वंस के साधन की जगह किसी रोग या महामारी से बचाने वाले जीवनरक्षक साधन के अविष्कार की पहल करता तो ज्यादा अच्छा रहता। ऐसे में मेरे भाई के साध—साध अनिगनत निर्दोष लोग भी असमय ही मौत का शिकार नहीं बनते।

मित्रों एवं परिजनों ने नोबेल को बहुत समझाया और जीवन में आगे बढ़ने को प्रेरित किया। किंतु वे कारखाने में हुई मौतों का जिम्मेदार खयं को ही समझने लगे थे। वे पश्चाताप की आग में जलते रहे। उन्होंने अपने जीवन में लगभग 90 लाख डॉलर की राशि अर्जित कर ली थी। इन्होंने जीवन पर्यन्त विवाह नहीं किया तथा एकाकी जीवन बिताया। मानव हित की आकांक्षा से प्रेरित होकर इन्होंने अपने धन का उपयोग एक न्यास संस्था (दूरट) स्थापित करने में किया, जिससे प्रति वर्ष (1) भौतिकी, (2) रसायन, (3) शरीर-क्रिया-विज्ञान व चिकित्सा, (4) आदर्शवादी साहित्य तथा (5) विश्वशांति के क्षेत्रों में सर्वोत्तम कार्य करनेवालों को पुरस्कार दिया जाता है। ये पुरस्कार नोबेल पुरस्कार कहलाते हैं। सन् 1901 से नोबेल पुरस्कार का देना आरंभ हुआ है और यह विश्व का सबसे बड़ा पुरस्कार माना जाता है।

जो बात आत्मा से निकलती है, वह कभी झूठ नहीं होती!!

शिखा जैसवाल डी.एल.एड. प्रथम वर्ष

न्यूयार्क में एडवर्ड ऐनिस नामक एक व्यक्ति रहता था। वह धर्म—कर्म और ईश्वर में बहुत विश्वास रखता था पर अपने अनेक संबंधियों में सबसे अधिक निर्धन वही था। तो भी वह इतना आत्म—विश्वासी था कि इसी एक गुण के कारण उसका सभी सम्मान करते थे।

निर्धनता की अवस्था में काफी समय बीत गया। एक दिन वह किसी स्थान के पास से गुजर रहा था तो उसे ऐसा आभास हुआ, इस स्थान पर द्रव मात्रा में काफी सोना विद्यमान है। उसने एक ज्योतिषि से भी पूछा, उसने भी पुष्टि कर दी पर उसने प्रमुखता अपने विश्वास को ही दी। वह प्रायः कहा करता था—'मेरा हृदय, मन और मेरी आत्मा इतने निष्कलुष और विकार रहित हैं कि उनमें भविष्य के संदर्भ भी ऐसे प्रकट हो जाते हैं, जैसे उन्हें में सचम्च देख रहा हूँ।

जब मेरा विश्वास दृढ़ हो जाता है तो फिर उस कार्य की सफलता में कुछ सन्देह भी नहीं रह जाता। ऐनिस के पास धन नहीं था तो भी उसने अपने तमाम साधन एकत्रित करके कुछ मित्रों से सहायता प्राप्त करके वह जमीन खरीद ली और वहाँ खुदाई प्रारम्भ कर दी। दुर्भाग्य कि हाइलैण्ड मेरी में कुछ चाँदी के टुकड़े ही उपलब्ध हुये और उसके बाद ही उसकी मृत्यु हो गयी। मरने से पूर्व अपने एक संदेश में एनिस ने कहा— ''जो बात आत्मा से निकलती हैं, वह कभी झूठ नहीं होती। मुझे नहीं मिला तो क्या, अभी उस स्थान पर सोना है अवश्य। "मृत्यु के 16 वर्ष बाद श्रीमती मार्या मारले ने, जिन्हें एनिस के आत्म—विश्वास पर भारी भरोसा था, फिर से खुदाई का काम जारी करवाया। 600 फीट तक खुदाई करने के बाद वहाँ सोने, चाँदी, तांबे और जिंक के भंडार मिले। इससे उस महिला को कई लाख डालर का लाभ हुआ। अपनी सफलता पर उन्होंने केवल इतनी ही टिप्पणी की—''आत्म—विश्वास अपने आप में एक ज्योतिष हैं, ऐसा मनुष्य भले ही अपने लिये कुछ न करे पर उसकी विकसित अन्तर—शक्ति अनेकों का कल्याण कर सकती है।"

सुविचार

सौरभ गर्ग बी.एड.प्रथम वर्ष

- "गलत तरीके अपनाकर सफल होने से यही बेहतर है सही तरीके के साथ काम करके असफल होना।"
- "अपनी उर्जा को चिंता करने में खत्म करने से बेहतर है, इसका उपयोग समाधान ढूंढने में किया जाए।" "जिंदगी बहुत खूबसूरत है इसे बेकार की बातो और झगड़ो में बर्बाद ना करे।"
- "अगर आप बोलेंगे तो जानी हुई बातें ही दोहराएंगे पर सुनने पर कुछ नया सीखेंगे।"
- "हर दिन अच्छा हो जरूरी नहीं है, लेकिन हर दिन कुछ अच्छा जरूर होता है।"
- "तुम पानी जैसे बनो जो अपना रास्ता खुद बनाता है, पत्थर जैसे ना बनो जो दूसरों का भी रास्ता रोक लेता है।"
- "हजारों दीयों को एक ही दिए से, बिना उसका प्रकाश कम किए जलाया जा सकता है खुशी बांटने से खुशी कभी कम नहीं होती।"
- "उम्मीदों से बंधा एक जिद्दी परिंदा है इंसान जो घायल भी उम्मीदों से है और जिंदा भी उम्मीदों पर है।"
- "हमारी समस्या का समाधान केवल हमारे पास है दूसरों के पास तो केवल सुझाव है।"
- "जब दुनिया यह कहती है कि हार मान लो, तब आशा धीरे से कान में कहती है कि एक बार फिर से प्रयास करो।"

क्षमा व सद्भावना

मोनिका गुप्ता **हजरत मोहम्मद ने दिखाया वृद्धा को सही रास्ता** डी.एल.एड.प्रथम वर्ष

हजरत मोहम्मद भी नमाज पढ़ने मिरजद जाते तो उन्हें नित्य ही एक वृद्धा के घर के सामने से निकलना पड़ता था। वह वृद्धा अशिष्ट, कर्कश और क्रोधी स्वभाव की थी। जब भी मोहम्मद साहब उधर से निकलते, वह उन पर कूड़ा—करकट फेंक दिया करती थी। मोहम्मद साहब बगैर कुछ कहे अपने कपड़ों से कूड़ा झाड़कर आगे बढ़ जाते। प्रतिदिन की तरह जब वे एक दिन उधर से गुजरे तो उन पर कूड़ा आकर नहीं गिरा। उन्हें कुछ हैरानी हुई, किंतु वे आगे बढ़ गए।

अगले दिन फिर ऐसा ही हुआ तो साहब रहा नहीं गया। उन्होंने दरवाजे पर दस्तक दी। वृद्धा ने दरवाजा खोला। दो ही दिन में बीमारी के कारण वह अत्यंत दुर्बल हो गई थी। मोहम्मद साहब उसकी बीमारी की बात सुनकर हकीम को बुलाकर लाए और उसकी दवा आदि की व्यवस्था की। उनकी सेवा और देखभाल से वृद्धा शीघ्र ही स्वस्थ हो गई।

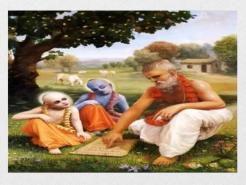

अंतिम दिन जब वह अपने बिस्तर से उठ बैठी तो मोहम्मद साहब ने कहा— अपनी दवाएँ लेती रहना और मेरी जरूरत हो तो मुझे बुला लेना। वृद्धा रोने लगी। मोहम्मद साहब ने उससे रोने का कारण पूछा तो वह बोली, मेरे दुर्व्यवहार के लिए मुझे माफ कर दो? वे हंसते हुए कहने लगे— "भूल जाओ सब कुछ और अपनी तबीयत सुधारो।" वृद्धा बोली— मैं क्या सुधारूँगी तबीयत? तुमने तबीयत के साथ—साथ मुझे भी सुधार दिया है। तुमने अपने प्रेम और पवित्रता से मुझे सही मार्ग दिखाया है। मैं आजीवन तुम्हारी अहसानमंद रहूंगी।

घटना का संदेश है कि जिसने स्वयं को प्रेम, क्षमा व सद्भावना में डुबोकर पवित्र कर लिया, उसने संत–महात्माओं से भी अधिक ज्ञान एवं तप प्राप्त कर लिया।

काम में संलग्नता

गुरुकुल में अपनी शिक्षा पूरी करके एक शिष्य अपने गुरु से विदा लेने आया। गुरु ने कहा— वत्स, यहाँ रहकर तुमने शास्त्रों का समुचित ज्ञान प्राप्त कर लिया, किंतु कुछ उपयोगी शिक्षा शेष रह गई है। इसके लिए तुम मेरे साथ चलो। शिष्य गुरु के साथ चल पड़ा। गुरु उसे गुरुकुल से दूर एक खेत के पास ले गए। वहाँ एक किसान खेतों को पानी दे रहा था। गुरु और शिष्य उसे गौर से देखते रहे। पर किसान ने एक बार भी उनकी ओर आँख उठाकर नहीं देखा। जैसे उसे इस बात का अहसास ही न हुआ हो कि पास में कोई खड़ा भी है।

सपना श्रीवास्तव डी.एल.एड. प्रथम वर्ष

वहाँ से आगे बढ़ते हुए उन्होंने देखा कि एक लुहार भट्ठी में कोयला डाले उसमें लोहे को गर्म कर रहा था। लोहा लाल होता जा रहा था। लुहार अपने काम में इस कदर मग्न था कि उसने गुरु—शिष्य की ओर जरा भी ध्यान नहीं दिया। गुरु ने शिष्य को चलने का इशारा किया। फिर दोनों आगे बढ़े। आगे थोड़ी दूर पर एक व्यक्ति जूता बना रहा था। चमड़े को काटने, छीलने और सिलने में उसके हाथ काफी सफाई के साथ चल रहे थे। गुरु ने शिष्य को वापस चलने को कहा। शिष्य समझ नहीं सका कि आखिर गुरु का इरादा क्या है? रास्ते में चलते हुए गुरु ने शिष्य से कहा— वत्स, मेरे पास रहकर तुमने शास्त्रों का अध्ययन किया लेकिन व्यावहारिक ज्ञान की शिक्षा बाकी थी। तुमने इन तीनों को देखा। ये अपने काम में संलग्न थे। अपने काम में ऐसी ही तल्लीनता आवश्यक है, तभी व्यक्ति को सफलता मिलेगी।

जीवन पर महापुरुषों के अनमोल विचार।

रिमता कुजूर बी.एड. प्रथम वर्ष

उपलब्धि :

"मेरे लिए उपलब्धि सक्रियता में है, जितने सर्वश्रेष्ठ ढंग से मैं बीज बो सकता हूँ। उतने बेहतर ढंग से मैं उन्हें बोता हूँ और उसके बाद सब कुछ ईश्वर पर छोड़ देता हूँ।" —डी प्रताप सिंह रेड्डी

आदर्श मार्ग :

"हम एक आदर्श रास्ते की खोज में दिनोदिन इन्तजार करते रहते हैं कि शायद वह अब मिलेगा मगर हम भूल जाते हैं कि रास्ते चलने के लिए बनाये जाते हैं, इन्तजार के लिए नहीं।" —अज्ञात

"जब एक बार सही पथ के अनुगमन की इच्छा ही नहीं रहे तो यह अनुभूति ही नहीं हो सकती कि गलत क्या है।" —अज्ञात

इच्छा :

"इच्छाओं को आगे न बढ़ने दो तो फिर तुम खुद जीवन में आगे ही बढ़ते जाओगे।" – अज्ञात

"दुःख और भय की प्रतीति इच्छा के कारण ही होती है। इच्छा से विहीन व्यक्ति दुःख और भय से मुक्त रहता है।" –भगवान बुद्ध

फैसला :

"जब आप किसी के बारे में फैसला लेने लगते हैं तो प्यार करना भूल जाते हैं।" –मदर टेरेसा

कर्म :

"जैसा बोएंगे वैसा ही पाएंगे।" -बाइबिल

"कर्मों की ध्वनि सबसे ऊँची होती है।" –अज्ञात

"कुछ लोग उन चीजों को देखते हैं, जो हैं और पूछते हैं कि वे ऐसी क्यों हैं, मैं उन चीजों के स्वप्न देखता हूँ, जो कभी नहीं थीं और कहता हूँ कि वे क्यों नहीं हो सकती हैं।" — जॉर्ज बर्नार्ड शो

प्रार्थना :

सर्वे भवन्तु सुखिनः सर्वे सन्तु निरामया।

सर्वे भद्राणि पश्यन्तु मा कश्चिद् दुःख भाग्भवेत्॥

भावार्थ : सभी सुखी हों, सभी निरोगी हों, सभी सज्जन दिखाई पडे, किसी को भी दुःख न हो। -अज्ञात

नीति:

"पुस्तकें और धर्म—नीतियों को पढ़ने का तब तक कोई लाभ नहीं जब तक इस पर अमल न किया जाए।" —अज्ञात

सादगी:

"सादगी और कम बोलने से बहुत कुछ मिलता है, ज्यादा तर्क देने से कुछ मिलता नहीं बल्कि उपहास उड़ता है।" –अज्ञात

नियंत्रण:

"वाणी पर नियंत्रण रखना और असत्य न बोलना, अशुभ विचार व्यक्त न करना है।" —अज्ञात

"मन में विकार न आने दें, अशुभ विचार न आने दें और मन को विषय वासना से बचाकर रखें कोई भी काम अनाडीपन से न करें, पूरी कुशलता से और ठीक से सोच विचार कर करें। यह कर्म पर नियंत्रण रखना है।" —अज्ञात

समय का महत्व

शक्ति पांडेय बी.एड. प्रथम वर्ष

समय बेशकीमती उपहार है जिसे खुद भगवान ने मनुष्य को सौंपा है और बदले में सिर्फ इतनी सी चाहत रखी है कि, वह उस के दिए गए इस उपहार का अपने लिए बेहतरीन उपयोग करें। वह इस सच्चाई को समझें कि उसे दिया गया प्रत्येक क्षण धन से भी अधिक शक्तिशाली और अमूल्य वस्तु है। समय सबसे बड़ा और कीमती धन हैं।

समय के हर क्षण में एक अनोखी संभावना छिपी होती है, पर यह तब साकार हो सकता है, जब इसका उपयोग बहुत उच्च स्तर पर होता है । लेकिन हम सब इसका उपयोग कैसे और किस तरह से कर रहे हैं ? यह एक अहम् सवाल हममें से हर एक से है । जिसका जबाब हमें खुद खोजना है ।

इसके सही और सटीक जबाब से ही प्रत्येक क्षण के सुनियोजन की कला जानी और सीखी जा सकती है। यही वह परम दुर्लभ कुंजी है, जिसके माध्यम से जीवन के परम लक्ष्य, सफलता के सर्वोच्च सोपान की दहलीज पर कदम रखा जा सकता है।

हालाँकि समय के महत्व से जनसामान्य कतई अनभिज्ञ नहीं है । फिर भी यह विलक्षणता से परिपूर्ण तोहफा, जितना जाना पहचाना लगता है, शायद उससे भी ज्यादा ये गूढ़, रहस्यमय और अनूठा है । यही कारण है कि इसके महत्व को मानव समझ नहीं पाता है और जो समझ जाता है वो सफलता की सीढ़ियाँ चढ़ता जाता है ।

यह सच है कि सभी का समय हमेशा एक समान नहीं होता । यदि आज होंठों पर हँसी है तो कल नयनों में नीर भी झिलमिला सकता है, पर इसमें भी एक अर्थ और गित है, जो पूर्णता की ओर ले जाती है । एक कहावत है कि – 'सुख के दिन छोटे होते हैं।' इस अविध में मनुष्य इतना खो जाता है कि वे क्षण अत्यंत लघु मालूम पड़ते हैं । दूसरी ओर दुःख एवं संघर्ष के क्षण मनुष्य पर भारी पड़ते हैं और उससे अत्यधिक शारीरिक एवं मानसिक क्रियाशीलता की मांग करते हैं । अतः उसी अनुपात में वे बड़े मालूम पड़ते हैं।

इस जीवन में समय का महत्व सबके लिए समान है इसलिए जब लगे कि परिस्थितियाँ कमजोर है तो उदासीन, खिन्न व अन्यमनस्क न होकर उन्हें आत्मपरिष्कार की कठोर तप साधना मानकर साहस और जिंदादिली के साथ जीना चाहिए।

ये विपत्ति भरे क्षण प्रायः अगले आने वाले क्षणों पर पकड़ मजबूत करते हैं। अन्दर के सुषुप्तावस्था में पड़े आत्मबल को जाग्रत कर जीवंत बनाते हैं। साध ही निराशा के अँधेरे क्षणों को चीरकर आशा की चमकदार किरणों की भरी पूरी भीड़ सामने ला खड़ी करते हैं। परंतु ये लाभ मात्र उन्हें ही प्राप्त हैं, जो इस कठिन और विपन्न समय का सामना उतनी ही साहसिकता व उत्साह के साथ करते हैं, जितना कि ऐसे समय में उनसे अपेक्षनीय है ।

समय अच्छा हो या बुरा हो ध्यान रहे यह सतत् प्रवाहमान हैं, जिसे रोका नहीं सा सकता । मनुष्य जीवन की सार्थकता समय के सदुपयोग है। आमजन में प्रचलित धारणा होती है कि धन कीमती होता है पर धन की अपेक्षा समय ज्यादा कीमती है । धन को वापस पाया जा सकता है लेकिन समय को वापस नहीं पाया जा सकता । समय निरंतर गतिशील है । इसकी यह गतिशीलता ही जीवन है जिसका बड़ा महत्व है ।

यीशू के चमत्कार

अल्फा रामटेक डी.एल.एड. प्रथम वर्ष

यीशु ने अपने चमत्कारों के जरिए दिखाया कि जब वह राजा बनेगा, तब वह अपने अधिकार और ताकत का कैसे इस्तेमाल करेगा।

यीशु ने बड़े—बड़े चमत्कार किए, जो किसी इंसान के बस की बात नहीं। क्योंकि ऐसा करने की शक्ति उसे परमेश्वर से मिली थी। यीशु ने अक्सर ये चमत्कार सैकड़ों—हजारों लोगों के सामने किए। इन चमत्कारों से साबित हुआ कि यीशु के पास उसके दुश्मनों से कहीं ज्यादा ताकत है और वह उन बड़ी—बड़ी समस्याओं को आसानी से सुलझा सकता है, जिन्हें दूर करना इंसान के लिए नामुमिकन है। आइए इसकी कुछ मिसालों पर गौर करें।

खाने—पीने के लाले पड़ना :यीशु का सबसे पहला चमत्कार था, पानी को बढ़िया दाख—मदिरा बनाना। दो अलग—अलग मौकों पर उसने कुछ रोटियों और मछिलयों से हजारों लोगों का पेट भरा। इसके बाद भी बहुत सारा खाना बच गया। बीमारी : यीशु ने लोगों की "हर तरह की बीमारी और हर तरह की दुर्बलता" दूर की। (मत्ती 4:23) जैसे अंधापन, बिधरता, कोढ़ और मिरगी की बीमारी। यीशु ने लूले— लँगड़ों को भी ठीक किया। जी हाँ, ऐसी कोई भी बीमारी नहीं थी जिसे वह दूर न कर सका हो।

खराब मौसम : एक बार यीशु और उसके चेले नाव से गलील सागर पार कर रहे थे कि अचानक एक जोरदार आँधी चलने लगी। इस पर चेलों का दिल काँप उठा पर यीशु ने आँधी की तरफ देखकर कहारू "शश्श! खामोश हो जाओ!" तब आँधी थम गयी और बड़ा सन्नाटा छा गया। (मरकुस 4:37–39) एक दूसरे मौके पर, जब समुंदर में भयानक तूफान आया तब यीशु उठती लहरों पर चला। कृमत्ती 14:24–33.

दुष्ट स्वर्गदूत: दुष्ट स्वर्गदूत, परमेश्वर के दुश्मन हैं और इंसानों से कहीं ज्यादा ताकतवर हैं। एक बार जब वे किसी इंसान में समा जाते हैं, तो उनकी गिरफ्त से छूटना मुश्किल होता है। लेकिन यीशु ने ऐसे लोगों को ठीक किया था। वह उन दुष्ट स्वर्गदूतों से खौफ नहीं खाता था। उल्टा वे यीशु से उरते थे, क्योंकि उन्हें अच्छी तरह पता था कि उसे परमेश्वर से अधिकार मिला है।

मौत: मौत को 'सबसे आखिरी दुश्मन' कहा गया है। 1 यों 15:26) और यह सही भी है, क्योंकि कोई भी असिद्ध इंसान इसे नहीं मिटा सकता। लेकिन यीशु ने मौत पर जीत हासिल की थी। मिसाल के लिए, उसने एक विधवा के जवान बेटे को और एक छोटी लड़की को दोबारा जिंदा किया था। एक दूसरे मौके पर उसने मातम मनानेवाले कई लोगों के सामने अपने जिगरी दोस्त लाजर को जिंदा किया था। यह मौत पर वाकई एक शानदार जीत थी, क्योंकि लाजर को मरे चार दिन हो चुके थे! यीशु के जानी दुश्मन भी इस चमत्कार को झुठला न सके।कृयूहन्ना 11:38—48, 12:9—11.

मगर इन सारे चमत्कारों का क्या फायदा, क्योंकि जिन लोगों की यीशु ने मदद की थी, वे सब तो मर गए? एक फायदा है। ये साबित करते हैं कि मसीहा के राज के बारे में की गयी हर भविष्यवाणी पूरी होगी। इसके अलावा, परमेश्वर के ठहराए हुए राजा यीशु पर हमारा यकीन बढ़ता है कि वह भुखमरी, बीमारियों, खराब मौसम, दुष्ट स्वर्गदूतों और मौत को मिटाने के काबिल है। क्योंकि उसने साबित कर दिखाया कि उसे यह सब करने की ताकत परमेश्वर से मिली है।

–यह भागत्ती, मरकुस, यूहन्ना किताब पर आधारित है।

सकारात्मक सोच, सफलता का मूलमंत्र

श्रीमती पूजा शर्मा

सफलता स्वस्थ और मधुर जीवन का मूलमंत्र है। सकारात्मक सोच यह एक ऐसा मंत्र है, जिससे न केवल व्यक्ति और समाज की ,वरन समग्र विश्व की समस्याओं को सुलझाया जा सकता है यह सर्वकल्याणकारी मंत्र है। किसी भी व्यक्ति की शांति ,तृप्ति और प्रगति का प्रथम पहलू सकारात्मक सोच ही है। वर्तमान परिस्थिति में विद्यार्थी बहुत जल्दी निराश हो जाते हैं। अपनी छोटी सी असफलता से घबराकर गलत फैसला ले लेते हैं। तथा अपने जीवन को अंधकार और निराशा से घर लेते हैं। जबिक सफलता हमेशा आशावादी बनने और सकारात्मक सोच से मिलती है। जीवन के हर कदम पर चुनौतियाँ हैं इनका निडरता पूर्वक सामना करना चाहिए। अत्याधुनिक जीवन शैली के साथ महानगरीय परिवेश में कुंडा, संत्रास ,मृत्युबोध को समेटे प्रतिस्पर्धात्मकता की युगीन प्रतिछाया में जीवन यापन कर रहे हैं। हमें सदैव परिवेश ने प्रभावित किया है। और ऐसे समय में तनाव जन्म लेता है और हमारे मनःस्थिति में सकारात्मक विचार आने से पहले ही नकारात्मक विचार उभर जाते है। एक नकारात्मक विचार हमारे अनेक सकारात्मक विचारों को समाप्त कर देता है।जहाँ एक छोटी सी विफलता या पराजय का भाव मन में निराशा को जन्म देता है वही छोटी सी सफलता सकारात्मक विचार मन में उमंग और स्फूर्ति का संचार कर देता है। आज के दौर में सबसे महत्वपूर्ण आवश्यकता सकारात्मक दृष्टिकोण तथा सोच के साथ आगे बढ़ने की है।

इस बात पर मुझे एक कहानी याद आती है। किसी दूधवाले के डिब्बे में एक नटखट बालक ने एक मेढक जिसका नाम दुखीराम था को पकड़कर डाल दिया डिब्बे के बंद होने पर मेढक घबरा गया और डिब्बे बनाने वाले को, बालक को, साथ ही भगवान को भी कोसने लगा जिसके कारण अपनी शक्तियों पर विचार नहीं कर पाया फलस्वरूप वह दोष देते—देते वह डूब गया। दूसरे दिन उस बालक ने एक सुखीराम नाम के मेढक को दूध के डब्बे में डाल दिया किन्तु सुखीराम ने हार नहीं मानी उसने अपनी सकारात्मक सोच के कारण विचार किया कि मेढक का सबसे बड़ा गुण द्रव में तैरने का है वह तेज गित से दूध में तैरने लगा जिससे दूध का मंथन हो गया और मक्खन का ढेर बन गया और सुखीराम उसमें बैठ गया। थोड़ी देर बाद ज्यों ही दूधवाले ने डिब्बे का ढक्कन खोला वह कूदकर बाहर आ गया। जिस प्रकार सकारात्मक दृष्टिकोण के कारण ही सुखीराम विषम परिस्थितियों से सकुशल निकल गया। इसी प्रकार हमारे जीवन में परिस्थितियाँ कितनी भी खराब क्यों न हो हमें सकारात्मक सोच को नहीं छोड़ना चाहिए।

आज लगभग सभी वर्ग चाहे विद्यार्थी ,कर्मचारी या कोई और सभी को स्पर्धा से गुजरना पड़ रहा है। ऐसे में तनाव ,िनराशा और मानसिक अवसाद से बाहर निकलकर सकारात्मक सोच को अपनाने की अत्यंत आवश्यकता अनुभव की जाने लगी है। लगातार (अनवरत) आत्मनियंत्रण एवं आत्म—विश्लेषण के माध्यम से नकारात्मक विचारों पर विजय प्राप्त कर सकारात्मक सोच विकसित की जा सकती है। इस दिशा में आत्म—विश्वास ,लगन, मेहनत का अपना महत्वपूर्ण स्थान व योगदान है।

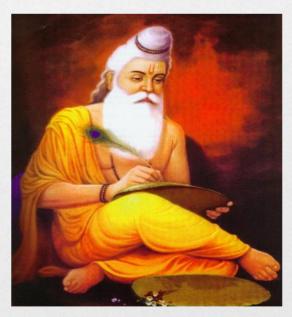

श्री इडियट फिल्म को समाज के हर वर्ग ने पसंद किया। फिल्म का एक डायलॉग जो वास्तव में प्रभावशाली है – वह है 'काबिल बनो कामयाबी तो झक मार कर पीछे आएगी।' ऐसा नहीं है कि काबिल सिर्फ आज के कॉलेज स्टूडेंट को बनना है। ,बिल्क हर उस इंसान को बनना है जो समाज में अपनी अलग पहचान बनाना चाहता है। आज सब कुछ रूटीन सा हो गया है वही ऑफिस , वही खाना ,और वही पार्टी आदि हमारी सोच सीमित हो गयी है इसमें क्रियेटिविटी समाप्त हो गयी है। आज जरुरत है बदलाव की ग्लोबलाइजेशन के इस दौर में हर क्षेत्र में रोज नए एक्सपेरिमेंट हो रहे हैं। ऐसे में हम अपने अंदर सकारात्मक सोच के द्वारा बदलाव लाकर अपने जीवन को सफलता की ओर अग्रसर कर सकते हैं। जो आज आपको असंभव दिखाई दे रहा है। वह कल आपके कड़े परिश्रम और सकारात्मक सोच से साकार हो सकता है।

बरसों पहले ताजमहल ,वायुयान ,परमाणु बम ,चन्द्रमा पर मानव के कदम ,सब कल्पनाएँ थी ; सबसे महत्वपूर्ण है, कि आप अपने लक्ष्य को प्राप्त करने के लिए कितना परिश्रम करते हैं। आज आप सभी सर्वसुविधायुक्त हैं, क्यों नहीं आप कोई ऊँचा लक्ष्य निर्धारित करते, बदलिए अपनी सोच को अपनी विचारधारा को सकारात्मक सोच लाइए कि अपनी किस्मत के मालिक आप हैं अपने भाग्य —विधाता आप स्वयं हैं स्वयं अपने आप को रास्ता दिखाए फिर देखिये आपकी जिंदगी स्वयं बदल जाएगी एवं ऊर्जा व सफलता से भर जाएगी।

आदर्श अध्यापक के गुण

प्रभा कोरी डी.एल.एड. प्रथम वर्ष

अध्यापक शिक्षण प्रक्रिया का एक महत्वपूर्ण अंग है। अध्यापक के बिना शिक्षा की प्रक्रिया सफल रूप से नहीं चल सकती। अध्यापक न केवल छात्रों को शिक्षा प्रदान करके ही अपने दायित्व से मुक्ति पा लेता है वरन् उसका उत्तरदायित्व इतना अधिक और महत्वपूर्ण है कि प्रत्येक व्यक्ति उन्हें पूर्ण करने में समर्थ नहीं है। शिक्षक की क्रिया और व्यवहार का प्रभाव उसके विद्यार्थियों, विद्यालय और समाज पर पड़ता है। इस दृष्टि से कहा जाता है कि अध्यापक राष्ट्र का निर्माता होता है। अतः अध्यापक को अपने कार्यों को सफलतापूर्वक एवं उचित प्रकार से करने के लिए आवश्यक है कि उसमें कुछ गुण अथवा विशेषताएँ होनी चाहिए। सामान्यतः एक अच्छे अध्यापक में निम्नलिखित गुणों का होना अति आवश्यक है—

शैक्षिक योग्यता।
व्यवसाय के प्रति रुचि निष्ठा।
विषय का पूर्ण ज्ञान।
शिक्षण विधियों का प्रयोग
सहायक सामग्री का प्रयोग।
मनोविज्ञान का ज्ञान।
ज्ञान पिपासा।
पाठ्य सहगामी क्रियाओं में रूचि।
समय का पाबंद।
कुशल वक्ता।
छात्रों के प्रति प्रेम व सहानुभूति।
व्यक्तित्व संबंधी गुण।
संबंध स्थापित करने का गुण।

- The United Nations General Assembly declared 2020 as the **International Year of Plant Health** (**IYPH**). The year is a once in a lifetime opportunity to raise global awareness on how protecting plant health can help end hunger, reduce poverty, protect the environment, and boost economic development
- Plants are the source of the air we breathe and most of the food we eat, yet we often don't think about keeping them healthy. This can have devastating results. FAO estimates that up to 40% of food crops are lost due to plant pests and diseases annually. This leaves millions of people without enough food to eat and seriously damages agriculture - the primary source of income for rural poor communities. Plant health is increasingly under threat. Climate change, and human activities, have altered ecosystems, reducing biodiversity creating new niches where pests can thrive. At the same time, international travel and trade has tripled in volume in the last decade and can quickly spread pests and diseases around the world causing great damage to native plants and the environment. Protecting plants from pests and diseases is far more cost effective than dealing with full-blown plant health emergencies. Plant pests and diseases are often impossible to eradicate once they have established themselves and managing them is time consuming and expensive. Prevention is critical to avoiding the devastating impact of pests and diseases on agriculture, livelihoods and food security and many of us have a role to play.
- Everyone needs to avoid taking plants and plant products with them when travelling across borders.
- People in the **transportation industries** need to make sure that ships, airplanes, trucks and trains don't carry plant pests and diseases into new areas.
- **Governments** need to increase their support to national and regional plant protection organizations.

School: A Second Home

School boosts confidence and teaches us to establish and maintain friendship. It help us in learning how to work together as a team, which is a primary tenet of any successful society. Without school, knowledge would not spread rapidly and our access to new ideas and people could easily be cut off. School serves a number of purpose: from building confidence to

There are many types of schools available, ranging from private to public to home-schooling. Online academics and a number of public and private school programs offer internet based learning too.

teaching children the importance of teamwork & working with others. Students are provided with access to new ideas, including science & language and are given the opportunity to learn

Let's take a look at why school is so important to children of all ages.

more about world cultures, geography and personal history.

- 1. Confidence- Learning form new subjects & becoming proficient in a skill can help a child grow exponentially.
- 2. Socialization- Humans are social animates & we need people around us to service school, yes, even online school can be an excellent way to build a network of friends & a like minded community.
- 3. A school environment offers students the opportunity to learn to work with others which is very important real world skill. Working with others is all about managing different personalities and finding ways to make the working run more smoothly.
- 4. Preparation- School doesn't merely touch facts and figured & numbers and letters. School is crucial in preparing children to become their future selves.
- 5. Information- Perhaps one of the most important reasons to attend school is to gain the wealth of knowledge & information provided within the school setting.
- 6. Inspiration- School does not only helps in developing lifelong friendships, work strategies and career goats but has also functioned as one of our primary means of inspiration. School benefits everyone and its important to remember that everyone can better himself through learning.
- 7. Community- A school can function as the centre of a person's community and can act as a meeting place, a place for children to grow and a second home. The school isn't simply a place to sit and learn, it becomes a centrepiece of our community where kids attend band practices & chess club and where parents often sit for hours waiting for their kids to finish their activities. As humans, all we really desire is a sense of community and belonging & I think a school can provide that for both children and adults.

School is not only important to us as individuals, it helps society progress by educating its members who bring their newly acquired information to the workforce.

-Deepak Kumar Tripathi

B.Ed IV Semester

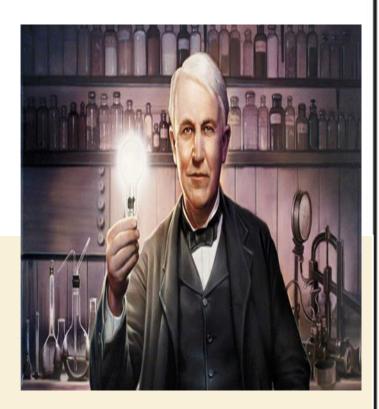

Human behaviour is influenced by several factors such as genetics, social habits, visible behaviour, religion and physiology. It is always said that between madness and genius there is a difference of one hair and scientists as humans possess the ability to be creative and clever. However, most of them have suffered on the psychological level. You will be surprised when you know about these scientists who suffered in childhood from disability!

Thomas Addison was forgetful to the extent that he even forgot his name once upon a time. His actions as a child looked crazy; he was serving his time in the classroom in drawing pictures and watching around him and listening to what others were saying. He never cared for his shoes and rarely shouted. He was an acentric! And always forgot everything that was being taught in school. His teachers despaired him and doctors speculated that he has suffered harm due to the odd shape of his head! Another example is of the scientist Edwin Hubble.

"Does the universe had a beginning and an end?" the question presents itself.

- Shayna Ansari B.Sc.-B.Ed. III sem.

"Achieve Life's true happiness in all the struggles for a successful life"

"Happiness lies in the joy of achievement and the thrill of creative effort."

By Franklin D. Roosevelt

There is beauty in all those struggle we include in to become successful. Have you ever found yourself so delightfully happy because you finally achieved something you really worked hard for?

Or, have you ever felt so creatively accomplished when you seem to have successfully achieved a task but in a different way altogether especially when others are still trying to figure out the solution.

Yes indeed! That small feeling that pops up in your heart is basically your heart crying out loud of course in a happy mood, for accomplishing something you normally wouldn't expect yourself to do. Getting me, right?

For the Joy of Achievement Rests in all the struggles that you Indulge in.

It is but a true fact that what you achieve easily does not make you quite happy about your accomplishment. It is all the struggle and thrill of creative effort that makes your achievement more remarkable and worth it down the memory lane.

So, next time you feel like going out easy on any task, think of it rather as a challenge. This way you cannot only improve yourself at every step, but actually make life more amazing with your sweet little accomplishments all throughout.

Happiness Is Created; It Is Not Something That Is Made Available To You

It is totally up to you, whether you want to be happy or not. Life's little struggle might seem tiring at first however they are the only way out for you to experience. So, push the extra mile, try to achieve what others believe is impossible and reward yourself with happiness in the purest form.

- Aastha Kachhwaha B.Sc.-B.Ed.

"Don't wait for perfection Start Now!"

When we have dreams, we have a passion; we want to do it with perfection.

Often, when we have some goals, we want to start it with a blast. We want to achieve best as soon as possible but things take time, it gets better with the time

The key is to start as soon as possible. What happens is that we have an idea which we think can change our or someone's life instantly but we don't work on it until we have favourable situation. We wait for more time & more resources and one fine day someone else builds a product on that idea and we regret. We have heard this statement "Ohh! I also had the same idea, but could not start."

How to handle the thought of being perfect?

Look for perfection. That is fine. Try to do things as good as possible that is all right. But don't stop doing it because you cannot do it perfectly. Take a step and keep learning you will get better while doing it.

"Strive for continuous improvement instead of perfection." ~ Kim Collins

"Perfection is not attainable, but if we chase perfection we can catch excellence."

~ Vince Lombardi

Ok! It's done. It is all right if it was not perfect. Keep Learning.

- Arvind Kumar Pathak B.Ed IV Semester

Hold on!!!

I need you to hold on,
I should not be the one to say,
To say anything about making
mistakes
We all make mistakes.

I know how it feels to be someone, who looses their way, Take my hand and hold on, Tell me everything that you need to say.

Remember that its within you,
To have a belief.
Do not give up, hold on,
Because life might test you,
But heaven is not a place
too far

LAUGHTER - THE BEST MEDIC

The most important principle behind "Laughter Yoga" and the driving force behind 'Laughter Clubs' is the theory that motion creates emotion. Some people wonder how a person can laugh when he is in no mood to laugh. The answer is simple: what happens to the mind happens to the body as well. There is a link between the body and the mind.

A simple thing between a father and his son proves it. The father told his son that if he is sad, he should not sit idle but do some physical work or go for a walk so that he feels better and it happened. If a person is in a sad mood and diverts the mind towards something refreshing or filled with happiness, we shall start feeling happy.

Laughter Yoga aims to use the two-way body-mind link to change the state of mind through clapping, chanting or some body movements like breathing exercises. The result has been positive as Laughter Yoga has been seen to overcome severe and chronic depression in thousands of people across the globe. Several Laughter Clubs have adopted the motto: If your Mind can't laugh, bring your Body to our Club'.

Laughter is all about playfulness. Children laugh 300 to 400 times a day. This is because of the brain. Adults first use their brains to understand humour to decide if they have to laugh. This is linked to the LKK syndrome, that is, "Log Kya Kahenge". This is called the "Mind-to-Body Model "of Humour. But children do not bother about it, if they fall into mud they laugh even though they spoiled their clothes. Their laughter comes straight from their bodies and not brains. They exhibit the "Body-to-Mind Model of Humour'. It is this playfulness that Laughter Yoga aims at cultivating in people who are stressed. More and more people are becoming the members of Laughter Clubs.

Laughter is different from Happiness and Joy. Happiness is a conditional response of the mind which depends slowly on the fulfilment of certain desires of the mind. It is related to how one's life has been in the past and how it will be in the future. It is a sad fact that even if some goals or dreams have been obtained, happiness disappears quickly as the mind starts searching for new goals like a new house, a car etc. On the other hand, joyfulness is the unconditional commitment to be happy each moment despite the problems of life. It is the promise that the Body makes to the mind to indulge in playfulness. During this playfulness caused by dancing, singing, playing and laughing, physiological and biochemical changes occur within the body. This gives us a sense of well-being which changes the negative outlook towards life.

In Laughter Clubs members develop positive conditioning of joy. In chanting 'Ho Ho Ha Ha' and Very Good Very Good Yay Yay' the brain develops new neuronal connections to produce neuropeptides and hormones in the body that rejuvenates the members.

Laughter Yoga rectifies irregular breathing which is the direct consequence of stress and negative mental state. According to Dr. Otto Warburg, a Nobel Laureate, one reason for falling k is the lack of oxygen in the body cells due to incorrect breathing.

let us laugh together and get oxygen back into our cells.

LAUGH AS MUCH AS YOU BREATHE & LOVE AS LONG AS YOU LIVE!

-Meghna Gain

B.Sc. B.Ed II sem

You!!

Don't show your weakness to anyone,

Don't give a chances to anyone to judge your inner ability,

Be confident, be yourself and take care of it.

Bloom like a flower and understand the things around you.

Gain today to survive tomorrow

As a leader of future

Maintain your good thoughts and filter out the bad ones.

Always trust yourself first to make your future shine.

Somehow if you get troubled in your life,

Do the thing which you most like. Calm yourself down with your activities.

You are born with a motive, not for blaming anyone.

Difficult situations in the life, it's true, But only with calm you can handle it.

What is you?

You are Unique

Because no one can be like you

What is you?

You are precious

Because you are the

Only one

Like you.

In this world, know your value

Love yourself"

Mother

-* ※ ※ *** ***

-When you were one year old boy, she fed you her milk,

You thanked her by crying all the night and kept her awake.

-When you were 10 years old, she got a new ball,

You thanked her by breaking neighbour's window.

-When you were 15 years old, she took you and your friends for movie,

You thanked her by asking to sit in a different row.

-When you are 25 years old, she'll search whole world to find the best life partner for you,

You may thank her by saying, 'I am in love'.

-When you are 40 years old, she may ask you to buy her medicines

Please don't thank her by saying "I am busy ".

Don't forget she gave her blood as medicine to you.

So, please do respect, love, obey your mother.

Shreya Pandey B.Sc - B. Ed

GOLDEN WORDS

LET IT GO!!

The things that aren't happening right now...

LET IT GO!

If you want to be free, Stop locking yourself in the prison of your past.

> If you don't want them to win, LET IT GO!

MOVE ON! Create your best life. You will never allow a thief to enter your home

And live there rent free. So why do you allow thoughts that steal your joy to enter & live inside your mind???

LET IT GO!

Someone did you wrong, LET IT GO! The best revenge is moving on, Letting Go.

Life hasn't gone as planned!? So what? It doesn't for anyone. MOVE ON!

Don't cheat on your future with your past, It's over. Commit to your future and make it strong, A healthy one.

Your Ego will tell you, The things that have happened in the past, Once everything will be perfect then I'll be happy,

> But your soul knows the truth; Once you're happy, everything is perfect.

Everything happens for a reason, And be at peace with that, Be Happy.

Do whatever it takes to be happy. Not because everything is good, But because, you see the good in everything.

Not because every circumstance is a miracle,

But because you see the miracle in life itself.

Albert Einstein once said: There's only two ways to live your life, One is as though nothing is miracle, And the other is as though everything

I know which space I want to live in! What about you???

> ~ALIYA SIDDIQUI B.Sc-B.Ed

Have you ever looked at a falling leaf? Have you ever noticed that falling leaf tries to tell you something?

so here I am going to tell you what I discovered while watching a falling leaf. A FALLING LEAF always tries to say something. It tries to tell about her pain of not being alive anymore. Along with this it also give a valuable message of life that life is precious. We often do not understand the value of what we already have but when that thing is taken away from us then we understand the value of it. Similarly we don't understand the value of our life.

A Falling Leaf tell us the importance of life. It also makes us realize that how lucky we are!

But very often we see around and find that many people always complain about the problem of life. They behave like I have this problem or I have that problem. It looks like they are the only one who have problems in life. A person needs to understand that problem is in every one's life but complaining is not a solution then why to waste our energy on complaining. We can use the same energy on finding solutions.

We live only once so we should not waste it on unimportant things but still, if you don't understand then ask the falling leaf which wants to live again, which wants to go back on its tree again, wants to smile again, wants to spend some more time with its mother (tree) who gave birth to that falling leaf, wants to again wave with his brother (other leaves of the tree) in blowing winds.

We should learn from everything. Everything around us gives a specific message of life and teach us the art of living.

LIVE LIFE FULLY AND VALUE IT. Start every day with a new ray of hope and great enthusiasm. Explore yourself every day. Try to learn from everything that's around you, especially from nature,

-Pallavi Markam

B.Ed. IV Semester

KEEP MOVING

Challenges are high, Dreams are new The world out there Is waiting for you. Dare to dream, No star is out of approach, Just get going Lets try to be strong. Accept the challenges of life Never say to god, why me? Instead say "try me", That's on attitude. There is no substitute of hard work. There is no shortcut to success Everyday is a challenge Everyday is a risk. A challenge is an opportunity, An opportunity is an inspiration, So get going, And have it all. A winning horse does not know, What is win He only runs due to pain given by the rider So wherever you are in pain think that god wants you to win.

Rule V/s Principles

We learn and follow rules almost every moment of our life; home rules, school rules, game rules, traffic rules International rules, religious rules and the list goes on

What are Rules? Who made from? Why do we learn to follow them? What do we active from them?

Rules are the guidelines to make our life easier. They have been derive from the experience of many people. We follow them to we follow them to make our life smoother. But, have they made life easier? I think No, what do you think? Why is that

It is because we have forgotten to learn about principles of life. Principles are the conscience ethics and values of our life. They give our life a true meaning. Are you confused between Rules and Principles?

Let me Explain

For Example, laving your parent is a principles in which manner to love them may be the rule. Respecting feather and elders is the principles and how to express it is the rule. Protecting environment is our principle and how to execute it, is the rule.

This means all the rules in the world are made to protect and nature our principle. Rule change with time and necessity but principle should be fixed. Then, why do we find rules so burring and difficult to follow?

People who misunderstand the principles bend and break rules; and people who follow them without understanding the essence of principle find it burdensome. Let us not make the mistake of protecting the rules and in the process forget the principle. Principle are the soul of life to save them we can break the rules but it would be of no use if we save the rules and break the principle it would be like saving body without soul.

Therefore I came to conclusion.

"Recognise the principle and follow the rules"

If you don't like something change it.

If you can't change it then you change your thinking

See yourself as a winner than only

You can perform as a winner

"Yesterday is History

Tomorrow is mystery

Today is gift

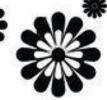

So enjoy your life"

Important Facts

- 1. The game of chess, whose game pieces depict royalty, knights, and such, has been played since A.D. 600.
- 2. The ruins of 5,000 castles remain in France.
- 3. By the 1600s, the use of castles for military reasons had ended.
- 4. Baby spiders are called spider lings.
- 5. A person who studies spiders is called an Arachnologist.
- 6. Dolphins can swim up to seven times faster than the fastest swimming human and dive up to 2,000 feet [610 m].
- 7. Dolphins have between 80 and 100 teeth.
- 8. Fifty million years ago, whale and dolphin ancestors walked on land! They are the distant relatives of hoofed animals such as deer, hippos, and bison.
- 9. One day, Laptops will roll up like a yoga mat.
- 10. Cell phones used to be the size of a brick.
- 11. Future cell phones will be as thin as a credit card and bendable.
- 12. The average user on facebook has 130 friends.
- 13. The covering at the end of a shoelace is called an Aglet.
- 14. The ritual of walking on hot coals has been around for thousands of years, while coals reach temperature of around 1,000*F, most people aren't badly injured because only a small amount of heat transers to their feet.
- 15. The sahara desert is the world's largest hot desert. It is almost as big as the United States.
- 16. There are no movie theatres in Saudi Arabia.
- 17. Asia and Europe have the same number of countries, 46.
- 18. Earth moves around the sun at the rate of 19 miles per second [30 km/second].
- 19. There are about 1900 active volcanoes on earth.
- 20. Snake venom was used to make two drugs that prevent heart attack in humans.
- 21. A Blue Whale's heart is as large as a small car.
- 22. In some parts of Antarctica, the ice is 5km thick!
- 23. The lowest temperature ever recorded on earth was- 128.78F in Antarctica.
- 24. The longest venomous snake in the world, the king cobra, can be as long as a car.
- 25. Drinking too much water at once can change the salt content in your blood and kill you.
- 26. A dozen is 12. A baker's dozen is 13.
- 27. A newly invented light bulb only has to be changed once every 20 years.
- 28. The human tongue has about 9000 taste buds.
- 29. The miniature statue of liberty was built out of 104 kg of chocolate.
- 30. More than 7,00,000 different kinds of insects live in Brazil.

CORONA AND RUMOURS

Today the whole world is scared of corona virus. It is a new disease which is untreated and it is spreading its legs very fast. Day by day, its patients are increasing. It is a matter of concern. Covid-19 or Corona virus is not a virus transmitted in the air, but it is contagious and it is a disease caused by contact with each other with symptoms like pneumonia, wholesome cough, and trouble in breathing and high fever.

This deadly disease was originated in the seller and buyer sea food market in Hubei province of Wuhan, China in December 2019. Corona Virus is not found in the air but spread by touch or contact, and no treatment has been understood yet.

Scientists need at least one year to make its medicines and vaccines. The only known prevention for this disease is to maintain social distance, stay at home and wash your hands frequently with soap. People living in the country of India associate any disease with superstition and rumors and start treating it on their own without thinking.

Illiterate and educated people also start following rumors and these rumors spread very fast on social media as was the case when Corona came in India.

I would like to mention some of these.

- 1) A hair will be found in the middle of Ramayana's bal kand, drinking this water will prevent corona.
- 2) Smelling clove, camphor, black pepper and javitri will prevent corona.
- 3) Plant neem at home and wash your hands with Neem water, there will be no corona.
- 4) Havan of five types of stems will prevent corona.
- 5) Chanting mantras will prevent corona.
- 6) Shivapurana has already described the corona epidemic.
- 7) The disease is spread by bat soup.
- 8) Flies on human stool will spread disease.
- 9) Bathing with 'Gaumutra' or cow urine will prevent corona.

If we see, there is no truth in these rumors. Neem leaves purify the air but corona virus spreads through touching and not from the air.

Drinking water from the hair obtained in Ramayana's bal kand will definitely cause stomach infection. If anything smells, cold will definitely occur. Smoke from the incense can also cause cold and trouble breathing. Those who know about Shivapuran say that the shloka which is going viral on social media, is not there in Shivapuran.

So far it has not even been proven where and how this disease came from. The only and only cure for this disease is to avoid social contact, wash your hands repeatedly with soap for 20 seconds. Sanitize the house.

Keep cleanliness, eat clean and pure homemade food and do not go out unnecessarily to cooperate in lockdown. If feel sick consult with your doctor, take medicine and live in quarantine. It can be fought only by fully taking steps taken by the Prime Minister and ignoring the rumors, so stay home and stay healthy Section 56 of the National Disaster Provision has been filed, whoever spreads false information/rumors about this disaster or its severity or consequences, will have to serve one year of imprisonment and pay fine if found guilty.

Keys to simple life

Living a simple life is about paring back, so that you have space to breathe. It's about doing with less, because you realize that having more and doing more doesn't lead to happiness. It's about finding joys in the simple things and being content with solitude, quiet, contemplation and savoring the moment. Remember that:

- We create our own struggles.
- Become mindful of attachments that lead to clutter and complexity.
- Distraction, busyness and constant switching are mental habits.
- Single-task by putting your life in full-screen mode
- Create space between things
- Find joy in a few simple things.
- Get clear about what you want and say no to more things
- Practice doing nothing, exquisitely.

-Shristi Rakheja

B.Ed. IV Semester

ENDANGERED SPECIES

Even this brief thought is endless.

A man speaks as if unaware of the erotic life of the ampersand.

In the isolate field he comes to count one by one the rare butterflies as they die.

He says witness is to say what you mean as if you mean it. So many of them are the color of the leaves they feed on, he calls sympathy a fact, a word by which he means to make a claim about grace.

I have in my life said many things I did not exactly mean. Walk graceless through the field.

Graceless so the insects leap up into the blank page where the margins fill with numbers that speak diminishment.

Absence as it nears also offers astonishment.

Absence riddles even this briefest thought, here is your introduction to desire, time's underneath where the roots root down into nothing like loose threads hanging from the weaving's underside.

No one seeing the roots can guess at the field above. Green equation that ends in yellow occasions.

Theory is insubstantial.

The eye latches on to the butterflies as they fly and the quick heart follows, not a root in nothing but a thread across abstraction.

They fly away.

What in us follows we do not name.

What the butterflies pull out us as in battle horses pull chariot, we do not name.

But there is none, no battle, no surge, no retreat, a field full not of danger, but the endangered, where dust-wings pull from us what we thought we lost, what theory denies, where in us ideas go to die, and thought with the quaking grass quakes.

Some call it breath but I'm still breathing. So empty I know I'm not any emptier.

On slim threads they pull it out me, disperse—no one takes notes—disappear.

FLAMINGO

From my window, in corner of an eye, see a pink flamingo. Broad curves, into familiar shape, grounded legs, Iron weighted. Been there for years, quietly sitting, amongst roses. Pushed by storms, changing winds, yet surprising, inner strength. Retains balance, keeps small piece, staked out, of much larger plot. Slowly losing, it's distinctive hues. Dissolving, fuchsia to palest pink. Every family has their own, pale pink flamingo

Faculty Development Program by Association of Teacher Educators, Jabalpur (M.P)

Aloysius St. Institute of Technology conducted a seminar on 8th July 2019. The seminar was started by the lightning of the lamp by our guest of honour, Dr.. Himani Upadhyay, Head Department of Education ,Hawabagh College; Professor Shobha Singh, President of Teacher's Association; Dr. Elina Philip, Dean, Art, Department of St. Aloysius College, Sadar and Dr. Archana Pathak, Principal, Aloysius Institute St. Technology. The felicitation of the guests was done by Dr. Pandey Renu and Dr. Lajwanti Patel.

INDEPENDENCE DAY CELEBRATION

Every year Independence Day, in India, is a national holiday celebrated annually on August 15. Independence Day marks the end of British rule in 1947 and the establishment of a free and independent Indian nation. St. Aloysius Institute of Technology celebrated this day with the flag hoisting done by Dr. Fr. Davis George (Director, SAIT); followed by the singing of the National Anthem all these rituals were conducted in the SAIT premises

After this the cultural program was organised in which students performed Songs, Dance and speech to pay tribute to our motherland. Our institute motivated the student to be an ideal and honest citizens of the country and make the institute and national proud by good deeds.

REPUBLIC DAY CELEBRATION

Guest Lecture

4th September 2019

Two renowned DRDO scientists visited the campus of SAIT. They both enlightened the students with their valuable knowledge and experience. The program was attended by Director, SAIT, Dr. Fr. Davis George, Administrator, Dr. Ben Anton Rose, Principal, Dr. Archana Pathak, all the teaching staff and students

World Literacy Day

9th September 2019

The world literacy day was **9**th celebrated on September 2019 at SAIT premises. There was a conduction of different competitions like poster and slogan writing. The students participation was huge numbers.

Science Exhibition

13th September 2019

The students SAIT displayed projects and during science posters exhibition. The posters and were based projects themes including Water Conservation and Water Management, Smart City, Development, Sustainable Environment and Green Manufacturing, Control and Automation etc to humanity.

Students from all the streams participate enthusiastically.

Oath Taking Ceremony of NSS

21st September 2019

The students of SAIT came forward to participate in National Service Scheme (NSS). As they embarked for this new journey, they took oath to serve their locality, society and nation. Dr. Ashok Marathe and Varsha Shukla Pathak motivated the newly enrolled students to serve the society and to contribute in proper implementation of policies made by the government.

The oath was taken under the guidance of Dr. Archana Pathak, Principal, SAIT. Shayana Ansari and Divya Patel hosted the program while vote of thanks was delivered by Rishita Kohli.

Awareness Rally to keep Environment Plastic/Polyethene free

21st September 2019

The Social Club of SAIT organized an awareness rally through which they tried to spread the messaage of keeping the environment safe from plastic and polythene. The rally was innaugrated by the Director, SAIT, Dr, Fr, Davis George and Principal, Dr. Mrs. Archana Pathak. The title of the rally was 'Polythene Free City'. The students of all the streams participated in the rally with full enthusiasm.

Youth Festival

10th October 2019

Various competitions such as group dance, solo singing, western group song, fine art, mimicry etc. are organized under the banner of youth fest. The students participate from all over MP and represent their respective college. The students of SAIT also participated in the competitions and represented the college. They won the second position in Drama and third position in Group Dance and in Western Group Song.

Guest Lecture

by Dr. Ram Ashish Chouksey

13th November 2019

guest lecture was organized by SAIT for the faculty members of the institute. Dr. Ram Ashish Chouksey was the speaker.

The felicitation was done by Dr.
Lajwanti Patel.
All the faculty members benefitted from the guest lecture.

Christmas Celebration

20th December 2019

Christmas celebration was organised on 20th December 2019 by St. Aloysius' Institute of Technology under the Jabalpur Inter Religious Forum in the spirit of Brotherhood/Sisterhood which gave the message of love, unity and peace. The event was graced with the presence of Shri Ashok Rohani and Prof. Kapil deo Mishra.

Annual Social Gathering

21st December 2019

Annual Social Gathering UMANG was organized by St. Aloysius Institute of Technology on 21st December 2019. the inauguration of the event was done by lightning of the lamp by our chief guest. The various performances were presented and the event ended with joy and happiness.

Release of Books

National Youth Day

13th January 2020

On the occasion of National Youth Day, the students and staff of SAIT performed YOGA and learned the benefits of it. The sports teacher Ms. Sadhna Yadav lead the troop and told them the benefits of the same.

Community Living Anand Utsav

21st-22nd Januray 2020

The students were divided into groups and they organized a fate in the premises of SAIT. All the other students of various streams participated in it and the event was a

success.

ANAND UTSAV is backbone of our integrated course B.Sc. B.Ed. As the involves of paper community living. The students learn how to live in a society with and harmony healthy competition. This year's community living program included the contribution of the staff and students

Prayas

Workshop in Art and Drama

29th January -12th February

Annual Sports Day

8th February 2020

कविता

मैं हूँ हिन्दी वतन की बचा लो मुझे, राष्ट्रभाषा हूँ मैं, अभिलाषा हूँ मैं,

एक विद्या का घर पाठशाला हूँ मैं मेरा घर एक मंदिर बचा लो मुझे,

मैं हूँ हिन्दी वतन की बचा लो मुझे, राष्ट्रभाषा हूँ मैं, अभिलाषा हूँ मैं,

देखो इस भीड में कहाँ खो गई, ऐसा लगता है अब नींद से सो गई मैं,

प्यार की एक थपक से जगा लो मुझे, मैं हूँ हिन्दी वतन की बचा लो मुझे,

मैं ही गद्य भी बनी, और पद्य भी बनी, दोहे, किस्से बनी और छंद भी बनी,

तुमने क्या-क्या न सीखा बता दो मुझे, मैं हूँ वतन...... मैं हूँ भूखी तेरे प्यार की तू सुन, जिसके बिना हिन्द थम जाए,

मैं कहाँ से शुरू मैं कहाँ आ गई, सर जमीं से चली आसमां पा गयी. अपने सीने से एक पल लगा लो मुझे, मैं हूँ हिन्दी वतन की बचा लो मुझे,

तेरी कविता हूँ मैं, हूँ कलम तेरी, अपना ए दोस्त आप बना लो मुझे, वह हँसी पल मेरा फिर लौटा दो मुझे, मैं हूँ हिन्दी वतन की बचा लो मुझे,

मैं हूँ हिन्दी वतन की बचा लो मुझे, सरल शब्दों में कहा जाए तो जीवन की परिभाषा है हिन्दी ।

बेटी बचाओ बेटी पढ़ाओ बेटी बचाओ बेटी पढ़ाओ

अभियान हमारे देश के प्रधानमंत्री श्री नरेन्द्र मोदी जी के द्वारा शुरू किया गया, वह अभियान है जो की देश की बेटियों की सुरक्षा और हित के लिए उठाया गया एक ऐतिहासिक कदम है। बेटी बचाओ, बेटी पढ़ाओ अभियान को मोदी जी ने 22 जनवरी 2015 को पानीपत हरमाना में शुरू किया था। जिस की पूरे देश भर में काफी पसंद और तारीफ किया गया। बेटी बचाओ, बेटी पढ़ाओ योजना देश की बेटियों की आने वाले जिन्दगी को सुधारने वाली मुहीम और हमारे देश की भविष्य लिखने वाली अहम् कलम है जो की आने वाली पीढ़ियों के लिए एक सुरक्षित वातावरण लाएगा।

बेटियाँ तो है ईश्वर का उपहार मत छीनों इनके जीने का अधिकार

बेटी बचाओ, बेटी पढाओ योजना के उद्देश्य के बारे में , मैं आपको बताना चाहुँगी-

इस योजना का मुख्य उद्देश्य शिक्षा के माध्यम से लड़िकयों को सामाजिक और वित्तीय रूप से स्वतंत्र बनाना है। लोगों को इसके प्रति जागरूक करना एवं महिलाओं के लिए कल्याणकारी सेवाएँ वितरित करने में सुधार करना है। इस योजना के तहत मुख्य रूप से लड़के -लड़िकयों के लिंग अनुपात में ध्यान केन्द्रित किया गया है तािक महिलाओं के साथ हो रहे भेदभाव और सेक्स डिटर्मिनेशन टेस्ट को रोका जा सके। शिक्षा के साथ-साथ बेटियों को अन्य क्षेत्रों में आगे बढ़ाने एवं उनकी इसमें भागीदारी को सुनिश्चित करना भी इसका मुख्य उद्देश्य है। पक्षपाती लिंग चुनाव की प्रक्रिया का उन्मूलन बालिकाओं का अस्तित्व और सुरक्षा सुनिश्चित करना है। बालिकाओं की शिक्षा सुनिश्चित करना, बालिकाओं को शोषण से बचाना व उन्हें सही/गलत के बारे में अवगत कराना।

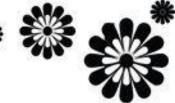

बेटियों की महत्ता को बताते हुए चार पंक्तियाँ प्रस्तुत करती हूँ-

माँ नहीं तो बेटी नहीं बेटी नहीं तो बेटा नहीं बेटी है स्वर्ग की सीढ़ी वो पढ़ेगी तो बढ़ेगी अगली पीढ़ी

बेटी क्यों बनाया

बेटी क्यों बनाया? श्रू होने से पहले ही, ख़ॅत्म कर दिया जीवन मेरा तुम पे ना कोई बोझ मैं बनती, कॅर्ज चका कर जाति मैं तेरा आई इस जग में , मैं बिन सोचे क्या हसर मेरा सना था इंसान है बसते पर टूट गया भरम मेरा क्या खशियाँ मिल जायेगी. करके जीवन ख़त्म मेरा भूल नहीं ये बात अगर त् औरत से ही है जन्म तेरा जब चीखी चिल्लाई थी मैं तब आवाज कहा सुनाई दी मेरी उस हत्या की आखिर

किस इंसान ने गवाही दी पछँ ये सवाल किस से ???

बेटी होना पाप अगर है

किस गलती की सजा स्नाई थी

तो बेटी क्यों बनाई थी ?? जी हाँ एक नारी से ही संतान उत्प<mark>ति और वंश रेखा आगे</mark> जाती है। नारी समाज का आधार स्तम्भ है। सही ही कहा गया है-

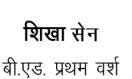

बेटियाँ जीवन का वो पहलू हैं जो जीवन में सदा आनंद और खुशियाँ प्रदान करती हैं। जीवन का कोई पक्ष नहीं जो उनसे अछूता हो। फिर ऐसा क्यों है कि समाज आज भी पुरानी कुरीतियों को ढो रहा है। जिस बेटी के दम पर देखो महक रही है धरती, कभी गर्भ में वो मरती तो कभी दहेज की बिल है चढ़ती। आज आवश्यकता इस बात की है कि हम नारी और एक सौम्य सी किल रूपी बेटी की महता को समझे क्योंकि अगर बेटी नहीं बचाओंगे तो कल बहू कहाँ से लाओंगे?

गुलफ्शा **खान** बी.एड. प्रथम वर्ष

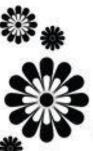

वो थे पापा

''वो थे पापा'' जब मम्मी डाँट रही थी तो कोई चुपके से हंस रहा था, वो थे पापा.... जब में सो रही थी, तब कोई चुपके से सिर पर हाथ फिरा रहा था, वो थे पापा.... जब में सुबह उठी तो कोई बहुत थक कर भी काम पर जा रहा था, वो थे पापा..... सपने तो मेरे थे पर उन्हें पूरा करने का रास्ता कोई और बताए जा रहा था वो थे पापा..... में तो सिर्फ अपनी खुशियाँ में हँसती हूँ पर मेरी हँसी देखकर, कोई अपने गम भुलाए जा रहा था, वो थे पापा..... खुश तो मुझे होना चाहिए कि वो मुझे मिले, पर मेरे जन्म लेने की खुशी कोई और मनाए जा रहा था, वो थे पापा...... विदा तो मैं हो रही थी, पर मुझसे अधिक आँसू कोई और बहाए जा रहा था, वो थे पापा.... में अपनी ''बेटी'' शब्द को सार्थक बना सकती या नहीं पर कोई बिना स्वास्वार्थ के अपने ''पिता'' शब्द को सार्थक

बनाए जा रहा था,

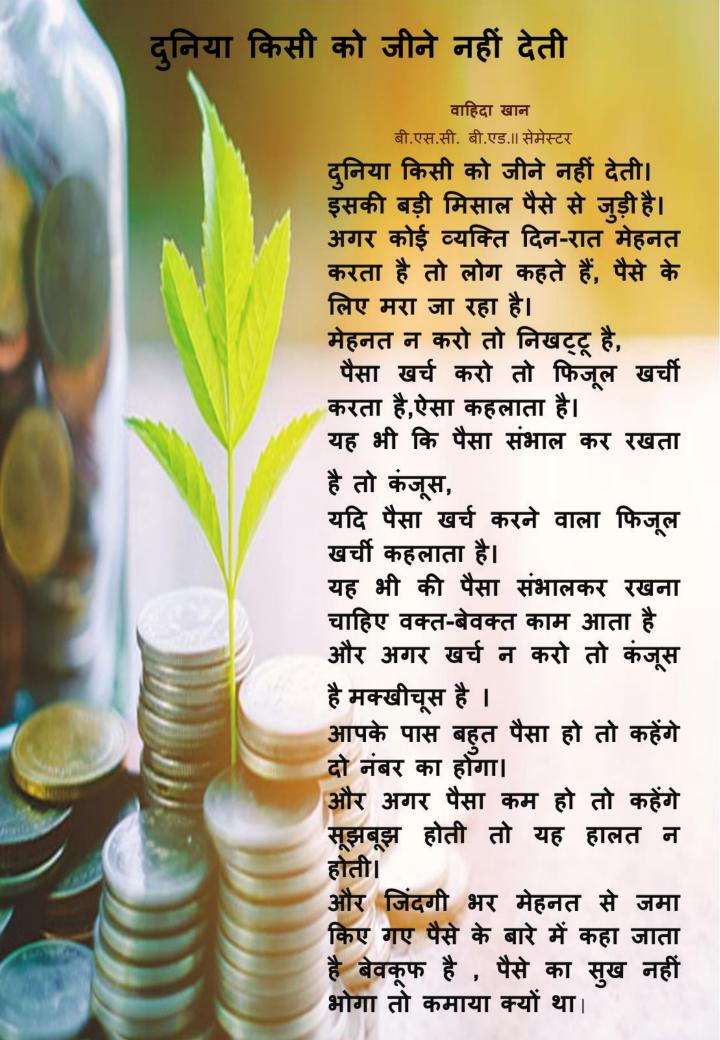

वो थे पापा.....

कुछ कहना था आपसे

कुछ कहना था आपसे किस्से कुछ कहना था अपने भाई-भाई किस्से हिन्दी से पराये हो गये हो आप अनजाने से लगते हो कभी-कभार बड़ी -बड़ी यूनिवर्सिटीज में सुनने मिल जाते हो पर समझ कुछ ना आते हो जब कभी-कभी जब कभी कहीं कोई हिन्दी में स्टेट्स डाल लेता है तो उसका स्टेट्स कम हो जाता है जब कभी कोई पूर्ण हिन्दी से स्टेट्स डाल लेता है तो सुनाई आता है भाई क्या लिखा है समझ कुछ ना आता है परायों को कैसे अपना बना लिया हमने मतलब अंग्रेजी को ऐसे अपना बना लिया हमने जैसे अपनी माँ को भूलकर दूसरे की माँ को अपना लिया हमने सोचते हो बड़ा भला काम कर दिया हमने परायों को अपना बनाकर अपनों को पराया कर दिया तुमने हमने ही उसे पराया किया है किसे यार हिन्दी को वो तो हमारी माँ थी हमने ही उसे घर से बाहर निकाल दिया है।

कुछ हो जो अंदर तो कहो

स्वाति शुक्ला बी.एस.सी. बी. एड. चतुर्थ सेमेस्टर

कुछ हो जो अंदर, तो कहो
कोई तकलीफ या उलझन, तो कहो
जिंदगी से कोई गिला या शिकवा, तो कहो
जीवन सफर है और सफर लम्बा है
कही आसान है तो कही मुश्किल भी
पर अगर कुछ मदद कर सकूँ, तो कहो
बिना चले ही सफर छोड़ देना
जैसे बिना लड़े ही हार जाना
तो रुको मत, इस सफर में
हो अगर,
जो किसी दिन दिल भरा सा लगे,
मौत ही आखिरी रास्ता सा लगे
तो बेझिझक कहना अपने मन की उलझनें
किसी अपने से
मगर कहना जरूर।

हिन्दी भाषा

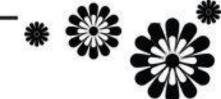

नीलम डोंगरे <u>बी.एस.सी.</u> बी.एड.॥ सेमेस्टर

प्रकृति की पहली ध्वनि ॐ हैं मेरी हिन्दी भाषा भी इसी ॐ की देन है। देवनागरी लिपि है इसकी देवों की कलम से उपजी बांगला ,गुजराती ,भोजपुरी डोंगरी ,पंजाबी और कई हिन्दी ही है इन सब की जननी। प्रकृति की हर एक चीज अपने में सम्पूर्ण है। मेरी हिन्दी भाषा भी अपने में सम्पूर्ण जो बोलते हैं वही लिखते मन के भाव सही उभरते हैं। हिन्दी भाषा ही त्महें प्रकृति के जाएगी मन की शुद्धि तन की शुद्धि सहायक यह बन जाएगी। कुछ हवा चली है ऐसी यहाँ कहते हैं इस मातृभाषा को बदल डालो। बदल सकोगे क्या तुम अपनी माता को? मातृभाषा का क्यों बदलाव करो। देवों की भाषा का क्यों तुम तिरस्कार करो। बदल सको तो तुम अपनी सोच को बदल डालो। हरएक भाषा का तुम दिल से सम्मान करो। हिन्दी की जड़ों पर आओ हम गर्व करें। हिन्दी भाषा पर आओ हम गर्व करें।

सावन

एक बार के जाने से, भाायद किसी बहाने से, संबंधों की नींव है टूटी, लोलुपता के कारण से,

> अभी भी है उम्मीद मुझे कि दौर वही फिर आएगा, यदि विश्वास है एक दूजे पर, तो प्रेम सदा निभ पाएगा...।

अमित पाठक बी.एस.सी.बी.एड.प्रथम वर्ष

आज के युग को देख चले हम। कलयुग हमें न भाया।। द्वापर और त्रेता युग में भी। ऐसा कलयुग न आया।। वर्तमान की पीढ़ी देखों, कितनी गिरती जाती । जनसंख्या में होती वृद्धि, बच्चों को न पढ़ा पाती।। सबसे आना, सबको आना, सबको सिखलाना है। सबको पढना, सबको बढना, भेदभाव मिटाना है।। यदि नहीं बच्चे हैं शिक्षित तब उजड़े पूरा घर संसार बच्चे से हो जाता बूढ़ा टूट गया पूरा कारोबार। काम–रोजगार के अवसर को जाते करने दूर–दूर।। शिक्षा बिन संस्कार के व्यक्ति होता। यह करने मजबूर।। धर्म-जाति और जन्म को लेकर सबको याद दिलाना संविधान में बने नियम से सबको हमें पढाना है। पहले शिक्षा के कम साधन, अब तो है इसके अवसार। ऊँच-नीच भेदभाव मिटाने लायी। न्य एज्केशन पॉलिसी राज्य सरकार।। सबसे आना, सबको आना, सबको यह सिखलाना है। सबको पढना, सबको बढना, भेदभाव मिटाना है।। वर्तमान की देखो स्थिति. सबका ऐसा रोना है यही स्थिति ने सिखलाया, शिक्षा को न खोना है। गाँव यदि पहले होता शिक्षित शहर में होते ऐसे राज।। राष्ट्र भी बन जाता एक विकसित, आत्मनिर्भर हो सब, करते काम-काम।। वर्तमान स्थिति देख, आज हमें सिखलाना है, न्यू एज्केशन पॉलिसी भी हाथ पर , अब हमें राष्ट्र विकसित करके दिखाना है। सबसे आना, सबको आना, सबको सिखलाना है पबको पढ़ना, सबको बढ़ना, भेदभाव मिटाना है।।

प्रिय गुरुवर

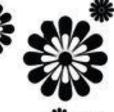

प्रिय गुरूवर के चरणों में, मंदमति का वंदन है। करें स्वीकार इसे गुरूवर, करते हम अभिनन्दन हैं।। आप हैं, सूरज सी तपन। पिंकी तिवारी तरूवर सी शीतल छईया। डी.एल.एड.द्वितीय वर्ष डांट पड़े जो आपकी, याद करें हम मईया।। भूल करें जो, हम कभी गुरूवर चित्त न धरना।। आप सहारे हैं, हम। आप सहारे, रखना।। प्रिय गुरूवर के चरणों में मंदमति का वंदन है। करें स्वीकार इसे गुरूवर, करते हम अभिनन्दन हैं। आभार प्रकट करें, उस प्रभु का जिसने जगत बनाया। आभार प्रकट करें, उस प्रभु का जिसने आप-सा गुरूवर हमें मिलाया।। मान न घटने देंगे, गुरू का आज ये प्रण हैं करना आप–सा बन सकें, सदा प्रयास यही है करना।। प्रिय गुरूवर के चरणों में, मंदमति का वंदन है। करें स्वीकार इसे गुरूवर, करते हम अभिनन्दन हैं।।

रक्षाबंधन

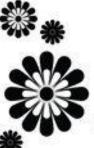

सोफिया अंसारी डी.एल.एड. द्वितीय वर्ष

कभी किसी बात पे लड़कर यू ही चिढ़ाया तुमने, कभी हरकतों से अपनी, गुदगुदाया तुमने।
कभी कर गलत, माँ से मेरा नाम लगाया तुमने।
या बाबूजी को किसी बात के लिए मनवाया तुमने।
तुम मेरे अनमोल रिश्तों का खजाना हो, तुम कभी खिलौने के लिए उखड़ते हो। कभी मेरी इच्छा के लिए सबसे लड़ते हो। मैं एक धागे में बाँध कर खुशियाँ जुटाती हूँ, खाली गुल्लक को देखकर, मुस्कुराती हूँ। मेरा हाथ पकड़कर चलना, मुझको चिढ़ाना तेरा, भाई याद आता है, बचपन सुनहरा मेरा। कोशिश लाख करूँ चाहे तुझसे रूठ जाने की वजह ना जान पाई मैं तेरी मुझको मनाने की। हजारों वादे रक्षा के लाखों तेरे नखरे, राखी बाँध दूँ तुझको फिर काहे के यह खतरे।

The United Nations General Assembly has declared 2021 as the International Year of Peace and Trust.

The International Year of Peace and Trust constitutes a means of mobilizing the efforts of the international community to promote peace and trust among nations based on, among other things, political dialogue, mutual understanding and cooperation, in order to build sustainable peace, solidarity and harmony.

In making this declaration, the General Assembly called upon the international community to continue to promote peace and trust among nations as a value that promotes sustainable development, peace and security, and human rights. It invited all Member States, organizations of the United Nations system, other relevant international and regional organizations and society, including non-governmental individuals organizations, and other relevant stakeholders, to facilitate the observance of the International Year of Peace and Trust, in an appropriate manner and to disseminate the advantages of peace and trust, including through educational and public awareness-raising activities.

It also requested the Secretary-General to bring the present resolution to the attention of all Member States, organizations of the United Nations system and other international and regional organizations, as well as civil society, including non-governmental organizations and individuals. And it stressed that the cost of all activities that may arise from the implementation of the present resolution should be met from voluntary contributions.

We

We may be young or old,
But we must be bold,
Against the enemy untold,
We neither go to malls,
Nor can we go to waterfalls,
Because this virus is scary,
Sending our spines into a shiver
If you have to go out, think twice,
Wear your mask, that too double,
After coming back, sanitize
And wash your hands thrice
Covid-19 is the name,
It is playing a game
By following the rules, we can ensure
The defeat of the virus.

A MOTHER LIKE YOU

A mother like you
I just want to let you know
You mean the world to me,
Only a heart as dear as yours
Would give so selflessly
The many things you've done
All the times that you were there,
Helps me know deep down inside
How much you really care
Even though I might not say
I appreciate all you do
Richly blessed is how I feel
Having a mother just like you

-KOMAL LALWANIB.Ed II SEMESTER

HAPPINESS

WHAT IS HAPPINESS?

It is a feeling of inner peace and satisfaction. It is usually experienced, when there are no worries, fears or obsessing thoughts. This usually happens, when we do something, we love to do, or when we get, win, gain, or achieve something that we value.

The source of happiness is within us. Happiness starts from us.

External events might cause it to manifest, but the real source of happiness comes from within you.

There is a term called inner happiness, but it is covered by layers the of negative thoughts like fear, worries and anxieties. Happiness is an inseparable part of our inner being, of our essence, but we often allow various factors to hide it. Events and circumstances can surely affect how we feel but only if you let them. The secret is in not letting them affect your mood and state of mind. This might not be easy, but if you are determined to bring happiness into your life you will be able to do it.

- It is your attitude that makes you feel happy or unhappy.
- ➤ It is your habitual thinking that determines whether you are happy or unhappy.
- ➤ It depends on how much you let events affect you.
- It depends on how much you allow people's words and actions affect you.
- > It depends on how much inner peace you can attain.
- ➤ We come face-to-face with all kinds of situations every day and some of them may not contribute to happiness. However, it is particularly our choice. We can choose to keep thinking about the unhappy events or can choose to refuse to think about them.

SIGN OF A HAPPY PERSON

Happy people live with purpose. They find joy in lasting relationship, working towards their goals, and living according to their values. The happy person is not enamoured with material goods or luxury vacations. This person is fine with the simple pleasure of life – petting a dog, sitting under a tree, enjoying a cup of tea.

The point is simple, if you want to be happy then the secret is to find happiness within yourself. The contentment will be the torch bearer for the real happiness.

LIVE LIFE TO THE FULLEST

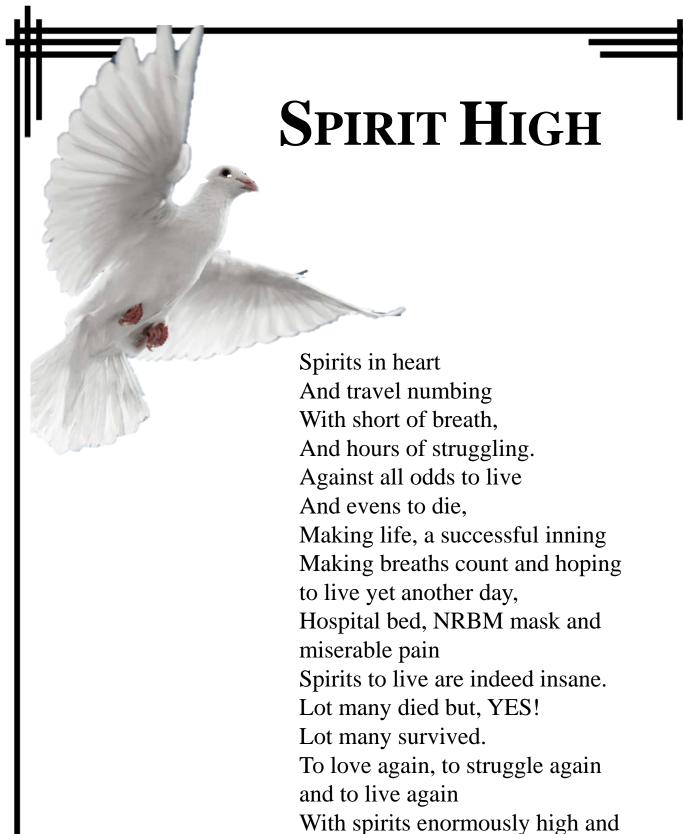

Life is changing at every moment
Life is now a shade
Life is now a sunshine
Every moment on Earth
Live life to the fullest
Whatever time you have is
yours.

Take time to appreciate,
Every little color
So that there is nothing to regret.
Life is changing at every moment
Live life to the fullest
Whatever time you have is
yours.

Love every moment with all your

Is difficult to come by
Should there be something like
that
Life is changing at every moment
Life is now a shade
Life is now a sunshine
Every moment on Earth
Live life to the fullest

A Meaningful Life

Every human being has a life with a meaning on this earth. In fact, the parents decide about the future of their children before birth and according to their wish or plan they want to nurture their children. They try to facilitate their children in whichever way they can, and having done so much for their children, they have good expectation from them. They want their children to stand at their own feet one day. Well, every human being can have very meaningful life; if he or she adopts these three things in his or her life (to know thyself, to make thyself and to give thyself).

- 1. To know Thyself. A great philosopher Socrates has said, "Know thyself," this gives a very important meaning to everyone because to know oneself is very important. Our existence consists in knowing ourselves. If we know ourselves, our existence will be completely different. We will be able to become aware of our true existence, our thoughts, our words and actions and will be turning into positive sense. Having known ourselves, we will be able to become true and faithful people who will be the great assets for the society.
- 2. To make thyself. Nietzsche, the contemporary philosopher, speaks of making the super man where individual works on himself. He will have to involve himself totally in his activities, giving the maximum things. So we can apply it in our own context too because it speaks of our well being, which makes us ready for battle. It prepares us for future. If we know ourselves, who are we? What is the purpose of our existence on this earth? Definitely, we will be able to prepare ourselves for future, and we will be the best resource for the world. In this way our existence will be used for smooth running of the society. As a potter accumulates the knowledge through various ways to make a beautiful pot, and makes it according to his knowledge, we see the beautiful result from which the society benefits; similarly knowing ourselves involves in preparing or making things well. Hence it is very important for us to make or prepare ourselves so that the society may benefit from us.

3. To give thyself. Robin Sharma mentioned about giving oneself in his book, "who will cry when you die." In this book Robin Sharma speaks of giving oneself completely to the world, because we are meant for the world, so it is our duty to give ourselves. To give oneself requires one's own sacrificial acts. First of all he or she has to know oneself and having known oneself he or she has to make or prepare himself or herself, then certainly he or she will be able to give himself or herself for the betterment of other fellow beings.

Conclusion- Student age is very crucial. It is the time of search for truth, wisdom, knowledge and so on. It is the knowledge or wisdom which makes the human beings what it is. Knowledge and wisdom directs the person to take the correct decision. If we individuals know ourselves, prepare or make ourselves and give ourselves generously to the world, then certainly our life will be very meaningful and appreciable.

- Kiran Lakra. B.A. 1st year

Towards Tomorrow

You can't erase the past,
for it is erased anyway.
You can't change your present,
because you don't see it.
You can't go forward
If you don't want to.
You can't even fall out of interest.
You can't touch time
If you don't create it. You can't die as long you still
believe.

-Komal Lalwani B.Ed. II Semester

HOPE

Life can seem an endless maze, The twist and turns and delays But things always fall into place

The hurt of getting something wrong' And the lesson it often brings along Are there, you see, to make you strong.

Kindness freely given away'
Unnoticed now; will somehow find its way
Back to you and will come to stay.

Efforts seem not to pay to plan?
Forge on friend, doing the best you can.
Fortune will find the deserving man...

Life can be tough, there's no doubt, But hope is the thing we can't do without. Right things with joy will come about... In good time

-KOMAL LALWANI

B.Ed II Semester

Responsibilty

Responsibility means, "I can do things on my own"

When I turn it on. I turn it off.

When I unlock something, I lock it up.

When I drop something, I pick it up.

When I break something, I repair it.

When I open something, I close it.

When I make a mess. I clean it up.

When I make a promise, I keep my promise.

When I find something, I return it.

When I borrow something, I give it back.

When I take it out, I put it back.

When I am assigned to a task, I complete it on time.

When I earn money, I spend and use it wisely.

How to tackle issues of Online classes during Lockdown

Covid-19 is a misfortune that has affected the life of the entire world. As we all know Covid-19 has brought online learning in full fervor and with it comes a number of challenges that students are facing now a days.

The biggest challenge is technical issues, distractions and time management, staying, motivated, understanding course expectations, lack of teacher-student interaction, adapting of unfamiliar technology.

But despite of many challenges, there are some advantages also. However, with the ongoing lockdown conditions, this teaching and learning platform has a new lease of life. As we know students cannot go outside the house and physically attend the classes as they used to, institutes have found a new way of bringing the classroom on to the screens of computers and smartphones.

Online classes have been an important tool to sustain skills development during thus hard time. Developing strong attitude towards learning can help the students to overcome some of the potential challenges. Positive attitudes towards learning, self- regulation and motivation to learn play an important role in improving performances. " LEARNING IS ESSENTIAL AND VALUABLE THE MODE MAY DIFFER BUT IT IS THE KEY TO SUCCESS"

-KOMAL LALWANI B.Ed II SEMESTER

Be Kind To Every Kind!

"The greatness of a nation and it's moral progress, can be judged by the way its animals are treated."

- Mahatma Gandhi

Having the capacity for love and generosity for not just mankind but every kind has magical potential and can renew faith in humanity. Being kind implies having empathy, and also encouraging people across the globe to better understand "the pains of others" and touch their lives "positively". As we talk about being kind to others, it becomes important, especially in the current scenario, to remind ourselves about being kind to not just humans but animals as well. Perhaps, animals do not have much to offer in return more than playful loving gestures but kindness, in its true sense, means to be good to someone without having an expectation of anything in return. Sadly, there has been an increase in animal cruelty with horrendous human behaviour against animals coming to light almost every other day. As many writers and poets have rightly highlighted, a man's real nature can be judged by the way they choose to treat animals. My Love for Animals: Since ages!

My family has raised me with little calves of cows (Indian Breed- Desi Gaay) and dogs too and I myself feel proud for being a part of such family where animals are being treated as a family member. And its very much evidentiary that my whole family and of course I too, love being surrounded by animals. My love for animals is as such that I talk to my furries and wait for them to reply. It may sound crazy for few folks but yes, that's true. It takes nothing from a human being to be kind and compassionate for the fellow beings because they too have lives and feelings as well.

Extend Your Compassion for Animals

One of the largest animal rights organization in the world, PETA urged fellows to "extend compassion to some of the most exploited and vulnerable among us: animals." The organization suggests ways through which one can make a "lifesaving impact on countless animals" by being more conscious of their everyday choices.

At any given moment, millions of animals are locked inside cages in laboratories across the world, subjected to cruel experiments that cause them immense pain. PETA mentions on its website, "Monkeys are forced to become addicted to drugs, the skin of sheep and pigs is burned off, and rats' spinal cords are crushed. Mice, guinea pigs, rabbits, and other animals are forced to swallow or inhale massive quantities of test substances, and chemicals are smeared in their eyes or on their skin. Dogs are poisoned with experimental drugs, and grotesque devices are implanted in rabbits' bodies, all in the name of 'health' and 'science.

Besides, the use of animals for entertainment, fashion and food need serious consideration. Just one simple act of kindness can make someone's life more beautiful. That someone can be the stray dog in your street, a monkey howling out of pain in some laboratory, a bird battling life... if only everyone starts valuing life in every being, the world can be a much more beautiful place, not just for mankind, but for every kind.

How to report animal abuse?

- **Know the law:** Familiarising yourself with animal-protection laws is very important if you wish to help and support animals. You can visit the websites of the Animal Welfare Board of India and the Ministry of Environment, Forest and Climate Change.
- **Document the crime:** Though witnessing such an incident can be extremely disturbing, it is important that you maintain patience and documenting the crime is important. Take a photo or video to document the details if you can.
- **File FIR with the police:** Report the crime to the police and file FIR to begin the process of criminal justice into motion.
- **Notify other appropriate authorities:** Besides filing FIR, notifying other appropriate authorities can also provide extra help to the animal.

Let us all pledge to learn co-existence, as this planet, Mother Earth, belongs to all of us, that is, not only to humans but the flora and fauna too.

Let's Live and Let Live !!!

-Prakrati B.Ed. II Semester

"EFFECTIVE COMMUNICATION IS THE SUCCESS OF THE ORGANIZATION"

Communication is transfer of information from one person to another, whether or not it elicits confidence. But the information transferred must be understandable to the receiver – G.G. Brown.

In common parlance, the process of exchange of information is called Communication. Every living organism, on Earth, even Animals and birds, uses the Communication process in accordance with the powers conferred by nature.

In ancient times Human Beings used different kinds of voices, signals and expressions etc. For mutual interaction and expression of their thought. With gradual development civilization, Different language and policies were development to make the communication process more accessible and effective .Up to the modern age, the communication also changed with the time with Human passage of Civilization according to Human needs

.There was a continuous development in means of communication and it's methods as well as printing, press radio .With the development in information technology. Cinema, television, telephone, telex, internet, e-mail and are being used by the common man as a powerful. 'Communication is an integral, part of Human Life. Hence, communication in the process of transmitting meaningful information. For communication at least one sender, one message and one desired recipient are required. Although it is not necessary that the information received is physically present at the time of transmitting the information, there is no interruption of distance and time in the information communication process. The communication process is complete only. When the recipient accepts it in the communication is proved that the information or message sent by the sender is understood in the same way as the sender wants to explain it.

All departments work together for the basic objectives of the organization. Differential dependencies can be seen in different departments/divisions of the organization. Accordingly, each department or division has to contact other departments and division as needed and exchange information with them. Therefore, effective communication is very necessary to establish coordination, co-operation and coordination among various departments and divisions.

-Ms.Geeta Mali B.Com 2nd year

Be Optimistic

"Optimism is a kind of heart stimulant – the digitalis of failure."

- Elbert Hubbard

Optimism is a mental attitude reflecting a belief or hope that the outcome of some specific endeavor or outcomes in general, will be positive, favorable, and desirable.

Be optimistic, because it is a tendency to look on the more favorable side of the events or conditions and to expect the most favorable outcome. The glass is half full gives a positive feeling than saying the glass is half empty.

There are different ways by which you can be optimistic and happy-

- 1. Live by the one day principle- The only one Day you have is the day you wake up. live every day in the present and enjoy to get the best output from it.
- 2. Pay attention to your personal needs- It sounds selfish but if you take care of yourself, it will have plenty of enthusiasm ,energy and optimism to give to others.
- 3. Feed your mind with positive thoughts- The news which brings you down would lose optimism, so try to read a book with positive thoughts, look at the good picture and try to be in a company of positive persons.
- 4. Let go of things that drain your energy, don't evolve too much in things which keep you busy and bored.
- 5. Know that you always have better choices; opt for such jobs which provide better opportunities and happiness.
- 6. Indulge in your hobbies, whatever hobby you like best from paintings, playing violin, to watching T.V.carry it out.
- 7. Find Positive friends. Live around the friends with positive thinking.
- 8. Choose rainbow- Listen to your good dreams and go after them.
- 9. Plan for down days- Keep something for rainy days so that you don't have to feel sorry at that time.

- 10. Enjoy the simple things- You can enjoy simple things of nature. so much variety of leaves. Even colors of leaves may be different on the same plant.
- 11. **Laugh-** There is a reason we feel great after a good laugh. It is called endorphins, and when you laugh, they Rush through your body like a burst of happy energy.
- 12. **Get moving-** Don't keep on sitting for very long at one place, keep on moving so that your body becomes flexible.
- 13. Catch a whale- Be optimistic and say you would be able to catch even a whale.
- 14. **Keep, a feel good journal-** Buy says- "Buy a blank journal and fill it with things that make you smile. Good jokes, photos of your pet, comedy scenes from T.V. serials and pictures and so on. Read and listen to such journals and Cassettes when you have a yeky mood."
- "Life is too short to be miserable, so start turning your thinking around positive thoughts, an optimistic Outlook and over your happiness can lead you to better relationships and experiences. Those who are optimistic will have an aura of yellow colour. It relates a sense of awaiting and inspiration. It can mean that you are an actively intelligent and enlightened person who likes to share your wisdom with others."

Some Great quotes on 'OPTIMISM'

"That man is the richest, whose pleasure is the cheapest."

"Life does not always turn out to be the way one wants, it is to be, but making the best of it is, is the best way of being happy."

"Those who remain very happy will never have internal laziness. Laziness is a great vice."

- Ms. Suman Mehra B.Sc. B.Ed. 4th Semester

The Power of Morning Aura

I woke up In the morning with the hue of sunlight
It was bit early than usual, my mom looked with the a
sight,

She was a awestruck and said its only five, for you still a night

Should I sleep or stay awake there was a constant fight.

I went to the terrace and heard the temple bells rings Closing my eyes I became thoughtless, there was a bliss string

It was so rejuvenating, accompanied by the a cuckoo's singing

Golden touch of the Sun, and leaves in the air started flinging.

I started dancing rigorously which I loosened my hairs
I jumped I shouted, rejoiced, cried, and didn,t even
care

This is the power of morning charm
Depleting your grief layer by layer
With a it of stretching I tried to challenge the Sun with
the blunt stare.

Tears rolled down my cheeks because of the harsh glare,

With the small victory I understood, you win if you dare

Coming back to the point, I feel the need to share, Thank God for making this world kind enough to care.

-Mrs. Amita Choubey B. Ed. 2nd semester

A Two or Three in the Morning

At two in the morning your mind starts picking up speed like a train that was made in Japan but transplanted in America.

It goes faster than normal and only makes stops in two hours intervals that make you wish that you could that fast and never stop.

At two in the morning you wish that the world was as frozen as Antarctica but as warm as Africa.

You wish that the temperature never changed and that you could stay frozen in time like Captain America, until you feel like I'm freezing your heart and mind and moving forward again.

At two in the morning, I am usually asleep and dreaming about a place that exist only when you close your eyes and escape into the very thing that is your being.

The flowing rivers that make up your thoughts are rushing rapids that roil right there in front of you.

The mountains that make your heartbeat that surround your mind and make you have no second thoughts.

The very same mountains that cause you to dive head first into the endless lake you call your aura and drown in the feelings of everything at once.

At two in the morning, I don't usually write poetry.

But this morning in particular I have found that not only does inspiration strike at two but It strikes as fast as you have diarrhea.

Poetry is diarrhea of the head and the heart working together instead of against each other. At two in the morning, you start thinking of things that couldn't have happened without meeting some people.

The same people who spend forever on one poem, and never finish others.

At two in the morning, you become real.

As real Pinocchio, who went from wood to human.

As really as the walls that you sometimes wish to bang your head upon and crack open that skull so some inspiration leaks out like egg whites into a bowl.

At two in the morning, my breathe becomes the air in which I never want to breathe in again.

It becomes the song that I refuse to listen to because it reminds me so much of what I'm missing and what I will never have.

At two in the morning it becomes dreams of finding someone. you love dead and a bullet in their head.

It becomes a broken down mindscape and a ragged heartbeat.

It becomes a demon who spreads lies and rumors about the ones you love.

At two in the morning you can find the beast that lurks at night waiting to fight like Jekyll and Hyde.

It becomes the one thing you never want to see among your dreams and among your thoughts.

At two in the morning, you find out that not only are you not living. You are a husk of the person who you thought you where.

As two turns into three in the morning. you find yourself breaking down and crying out tears that sting your flesh.

You find yourself breaking in the most beautiful of ways and you find yourself wanting to be dead inside with no hope of being resuscitated.

At three in the morning your cocoon of hatred turns into a butterfly with broken wings and a scarred body.

At three in the morning you become a bird that soars in the air with nothing but when your next meal on your mind.

At three in the morning, I become something that scares me.

I become what I push underneath and hide away for all eternity.

At three in the morning I am building a protective circle of salt around my heart and my mind so that no evil spirit make break me and that no one can get to me.

I am building a brick wall so tall that I can't see the blue sky that I trapped in my eyes. I built a wall so tall the the night trapped inside my hair cannot and will not be shown to me.

At three in the morning, I have become more broken by what isn't then what is.

By three in the morning I am a new person and none can change that.

By the time I'm writing this line tears are trickling out of my eyes like mirrors reflecting the pain and lies that I have told myself.

Like the lake that is nothing more but a calming prayer in my wild life.

I am crying a year for all the wrong I have done to myself and to everyone around me.

at 3:18 am, I am regretting most decisions in my life.

I sometimes wish that my brain doesn't pick important days to keep me awake.

At three am you can find me laying down curled into a ball because it protects me from the pain of knowing that I'm not all that important.

Most of the time you can find me trying to find a way under my skin that doesn't involve a knife or nails.

In the earliest part of the morning you can find me trying to decide if I want to wake up today or stay asleep forever.

At three in the morning I have over come most of my reluctant thoughts to see that I am a beautiful flower with thorns that protect from grabby hands.

I have found that I hold all the oceans and the skies in my eyes.

I have found that I hold both the day and night in hair.

I have found that I hold the purest ivory in my skin and no one can take but me. I have found that I wish to change the world through my poetry and myself through it too.

I have found that if I let myself wilt and die that I would just be another death that would hurt more people then it's worth.

Maybe that's why people write poetry at two in the morning.

Maybe that's why, I write poetry in two in the morning.

Because if I don't then I am wilting and giving up the will to live

-Miss Gurpreet Kaur Bansal B.Sc. B.Ed. 2nd Semester

A Powerful Morning Prayer

Dear God, In the morning, O Lord, I will direct my song and my prayer unto You and will look up. (Psalm 5:3)

Good morning Lord! This is the day that you have made, I will rejoice and be glad in it. With gratitude, I thank you for preserving my life for one more day. With gratitude, I thank you for your ultimate gift of love for me, in the form of your son and the sacrifice of his life on my behalf. Because of this overwhelming gift that I often cannot comprehend, I humbly submit to you. I know Lord, that I am a mere human and cannot instruct you, but you Lord can instruct me. So teach me your ways that I may rely on your faithfulness. Teach us to number our days and to use our time wisely. I don't know what this day holds, but I know that you hold the day

It was you that laid the foundations of the Earth and therefore understands every part of it. I know that you keep the sun in the sky, the stars in place, and have created this Earth for me to inhabit and enjoy.

Throughout this day, may I be keenly aware of your presence in everything I do – as I commute to work, drop children off at school, keep house and speak with my neighbors. May my life be a living example and may others see Christ in me. There are many that are hurting in this world – may I be a salve to someone today Lord, in a way that I can't even imagine. May my words be seasoned with salt and minister grace to all that hear. May my actions be aligned with your Word. I pray for wisdom that is peaceable, gentle, and approachable, with lots of mercy and fairness. You said an unlimited supply of wisdom is available to me if I simply ask, so I pray for wisdom to know how to deal with the many people and situations that will cross my path.

I pray for protection throughout this day; protect from harm and evil; go before me, to the left and right of me and behind me. Order my steps so that I walk worthy of your calling throughout this day. May I be attuned to your promptings – whether it shows up as a gentle tug or a strong conviction.

I pray for reconciliation in families, in nations and to you. I pray that all may come to know you and be reconciled back to You.

Lord, you know my faults and my flaws – forgive me for being unkind with my words and my thoughts; forgive me for being self-serving; forgive me for holding on to old wounds instead of giving them to you. Forgive me, Lord.

When I am overwhelmed, confused, unsure, and restless, help me run to your Word. May your Word come alive to me so that it is a living guide in every situation. Help me, Lord, to remember the promises of your Word and bring the right passage to my remembrance for the situation. I acknowledge Lord that I need to spend more time with you reading and praying so that I am prepared for whatever the day brings. Lord, I know that your Word is indeed a light unto my feet and a light unto my path.

Remove fear and anxiety. As believers you have not given us a spirit of fear, but of love power and a sound mind. So when we are fearful, may we remember your love for us and use that love as the impetus to love others and see situations differently; may we tap into the power that you have given us — for we are never alone because you have not left us comfortless. May your wisdom be the underpinnings for our sound minds. May we remember that we don't have to be anxious and when we are tempted to be anxious or worrisome, may we verbalize our concerns to you and then leave them there as you instructed us. Our worry does us no good and limits us, and you do more with our worry than we ever could. So help us to turn all of our anxious thoughts and nerve-wracking situations over to you; to truly do that and trust that you are working. That you are working all things together for our good because you love us; that you are working in ways that we cannot comprehend because your ways supersede ours. And that in this working you are molding us continually into masterpieces fit for your use. You are increasing our faith and our capacity to love.

As a child of yours Lord, I know that I am your masterpiece though I feel so far from it. Help me to remember my worth in you when I'm faced with challenging situations. When I feel depressed, help me to remember that I'm fearfully and wonderfully made in your image – a replica of you and that you loved me so much you thought that I was worth dying for. I don't know too many people that would die for me, but you did, and I'm eternally grateful and humbled.

For the unseen, Lord, thank you. You are beyond understanding, you are abundant, you are mine, and I am yours. I submit all to you today, Amen.

-Ms. Tejaswini Singh B.A. 1st year

Importance of Vedic Science In Our Lives

India is one of the oldest civilizations known for its rich and diverse heritage, culture, philosophy, scientific accomplishments, trade, and commerce for over 1000s of years. With some of the oldest universities like Nalanda and Taxila, India has always been at the forefront of education. Our nation has had its fundamental educational methodology that was firmly rooted in the scientific tenets of rigorous analysis, logic, and experiential learning. Unfortunately, India was raided and occupied repeatedly, and the successive foreign rules gradually pushed the ancient knowledge in the background. The ancient knowledge and wisdom were purposefully forgotten and relegated to the backburner to propel modern and western expertise. But clouds can cover the sun only for the time being. In the end, the sun comes out blazing and lights up the whole world. Similarly, our timeless indigenous knowledge may have been eclipsed by vested interests. Still, the time has come when we will be able to re-discover the Vedic science once again in its true glory.

What is Vedic Science?

The word Vedic implies that which is contained in or derived from the massive body of data compiled within the four ancients Vedas, viz. Rigveda, Yajurveda, Atharvaveda, and Samveda, which alongside the Upanishads, Aranyakas and Brahmanas form the category of texts called Shruti and form the nucleus of all knowledge. Veda itself springs from the Samskrit word Vid, which suggests "to know."

Like the sun rises every day without fail, this is often considered timeless and relevant for all eras. Vedangas, Upangas, Upvedas, Darshanas, Puranas, various Smrutis, Shastras, and Itihasas are samples of this. This unique knowledge culture has accommodated a distinctive sort of regional indigenous disciplines over time.

Ayurveda, Yoga, and Vedanta are the three hottest fruits of the Vedic system that are highly valued today. At their base lies a firm theoretical foundation of the in-depth, holistic study of nature, human psychology and of data itself, its means (observation), methods (logic and language), and validation (experimentation).

The large body of Vedic knowledge typically comprises eternal truths and natural laws and, therefore, the sustainable practices and rituals derived from them. During this context, the word Indic (related to India) is employed interchangeably with Vedic (ancient knowledge developed within the Indian subcontinent). This spectrum of data called as Vedic Sciences holistically covers a variety of new disciplines including chemistry, metallurgy, technology, astronomy, astrology, botany, ecology, philosophy, psychology, language, mathematics, economics, architecture, agriculture, medicine, administration, and humanities.

By Vedic Sciences, we at SVS, ask this collective body of India's native knowledge domain, and not merely its religious aspect as commonly misunderstood. The topic of native Vedic inquiry is often broadly classified into subjective knowledge, objective knowledge, and meta-knowledge.

Why is Vedic Science important?

The mainstream education system in India has ignored the Indic dimension of imparting education. It's time that this vital knowledge is revived. It must be passed to subsequent generations.

The time is ripe for reintroducing Vedic knowledge among the youth since the macro-level interest in sustainable Indic practices is increasing globally. Also, the main target at the individual level among the youth is additionally slowly shifting from a merely economic viewpoint to a more balanced socio-spiritual-environmental perspective.

Moreover, aside from a couple of reputed colleges, a bachelor's degree is becoming practically irrelevant in employability. This system also doesn't encourage independent thinking and sensible application of data. Explicit attention is required in improving analytical abilities even as character development. Education in Vedic sciences can deal with the above gap effectively through holistic thinking and action.

It will be instrumental in the following ways:

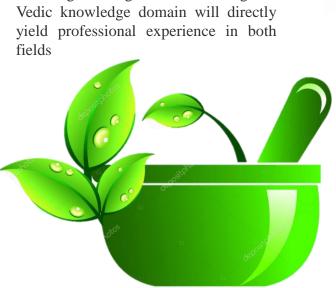

1. A solid foundation:

People around the world are now mindful of the very fact the modern-day medicine has severe limitations. They merely work on the symptoms and fail to deal with the basis explanation for an ailment.

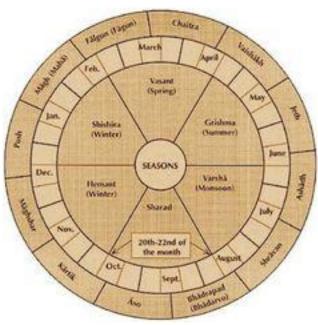

Therefore, the people are trying to find an alternative holistic approach to reinforce modern science in pursuing wellness at the physical and mental levels. This is the rationale behind the rising popularity of Yoga and Ayurveda. There'll be a growing demand for practitioners, consultants, and researchers in these areas. A solid foundation in Vedic sciences may be a prerequisite to excel in these fields.

2. Indic knowledge is a goldmine:

Computing technology is powerful enough to enable codification and mining of India's rich knowledge domain (5 million manuscripts known to date). The precise knowledge explanation methods adopted in Indic texts more amenable to machine-processing than English texts. Big data analytics, data mining, and scale-out computing are valuable tools for this. Studying the way to apply them for encoding, mining, and visualizing the Vedic knowledge domain will directly yield professional experience in both fields

-Miss Gurpreet Kaur Bansal B.Sc. B.Ed. 2nd Semester

3. Complement modern science for innovation:

The Vedic methodology offers a different perspective and data points that expand the horizons of the students remarkably. Some examples are – more reliable cures for contemporary illnesses, ecometallurgical friendly and agricultural methods, and unique insights into the social organization, leadership, and conflict management. These areas open new vistas for entrepreneurship also as multi-disciplinary research

Caged Bird

A free bird leaps on the back of the wind and floats downstream till the current ends and dips his wing in the orange sun rays and dares to claim the sky.

But a bird that stalks down his narrow cage can seldom see through his bars of rage his wings are clipped and his feet are tied so he opens his throat to sing.

The caged bird sings with a fearful trill of things unknown but longed for still and his tune is heard on the distant hill for the caged bird sings of freedom.

The free bird thinks of another breeze and the trade winds soft through the sighing trees and the fat worms waiting on a dawn bright lawn and he names the sky his own

But a caged bird stands on the grave of dreams his shadow shouts on a nightmare scream his wings are clipped and his feet are tied so he opens his throat to sing.

The caged bird sings with a fearful trill of things unknown but longed for still and his tune is heard on the distant hill for the caged bird sings of freedom.

-Mr. Aman Singh Bais B.Ed. 2nd Semester

You may write me down in history With your bitter, twisted lies, You may trod me in the very dirt But still, like dust, I'll rise.

Does my sassiness upset you?
Why are you beset with gloom?
'Cause I walk like I've got oil wells
Pumping in my living room.

Just like moons and like suns, With the certainty of tides, Just like hopes springing high, Still I'll rise.

Did you want to see me broken?
Bowed head and lowered eyes?
Shoulders falling down like teardrops,
Weakened by my soulful cries?

Does my haughtiness offend you?

Don't you take it awful hard
'Cause I laugh like I've got gold mines

Diggin' in my own backyard.

You may shoot me with your words, You may cut me with your eyes, You may kill me with your hatefulness, But still, like air, I'll rise Does my sexiness upset you?

Does it come as a surprise
That I dance like I've got
diamonds
At the meeting of my thighs?

Out of the huts of history's shame
I rise
Up from a past that's rooted in
pain
I rise
I'm a black ocean, leaping and
wide,
Welling and swelling I bear in the
tide.

Leaving behind nights of terror and fear
I rise
Into a daybreak that's wondrously clear
I rise
Bringing the gifts that my ancestors gave,
I am the dream and the hope of the slave.
I rise
I rise
I rise
I rise.

-Ms. Chinmay Khare B.A. 1st year

To Those of You Alive in the Future

Who somehow have found a sip of water, on this day in the past four syndicated series involving communication with the dead were televised and in this way we resembled our own ghosts in a world made brief with flowers. To you, our agonies and tizzies must appear quaint as the stiff shoulders of someone carrying buckets from a well or the stung beekeeper gathering honey. Why did we bother hurrying from A to B when we'd get no further than D, if that? On monday, it sleeted in pennsylvania While someone's mother was scoured further from her own mind. A son-in-law smoked in the parking lot, exhaling white curses Torn apart by the large invisible indifference.

The general anesthetic wore off and someone else opened her eyes to the results. In this way our world was broken and glued. But why did we bother shooing away the flies? Did we think we could work our way inside a diamond if we ground more pigment into the paper's tooth, tried to hold fire on our tongues, sucked at the sugars of each other? Many the engagement rings in the pawnshop. Many the empties piled at the curbs. A couple paused on a bridge to watch chunks of ice tugged by bickering currents. One who slept late reached out for one who wasn't there. Breads, heavy and sweet, were pulled from wide infernos of stone ovens. My I wrote it on a leaf. Sometimes I could still manage to get lost, there was no guidance system wired inside me yet. Laughter might have come from a window Lit far into the night, others were dark And always silent.

> -Kaif Ahmed Khan B.Sc. B.Ed. 1 Semester

Dust

Someone spoke to me last night, told me the truth. Just a few words,

but I recognized it.

I knew I should make myself get

up,

write it down, but it was late, and I was exhausted from working

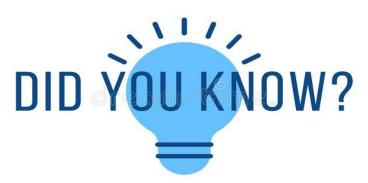

all day in the garden, moving rocks.

Now, I remember only the flavor—

not like food, sweet or sharp. More like a fine powder, like dust.

And I wasn't elated or frightened, but simply rapt, aware.
That's how it is sometimes — God comes to your window, all bright light and black wings, and you're just too tired to open it.

- Mithlesh Prajapati B.Sc. B.Ed. 1 Semester

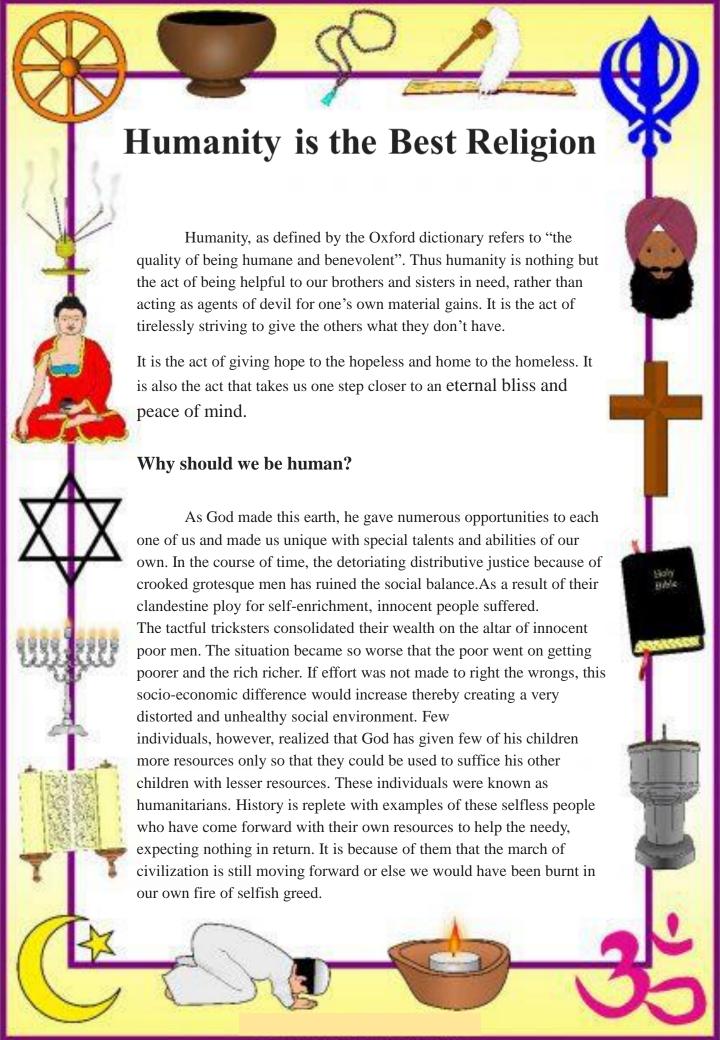

Executives of five of the largest publishing companies in the world — Hearst Magazine, Meredith National Media, Time, Conde Nast and Wenner Media — compiled 11 compelling facts about the magazine publishing industry. While we live in a new age, the power of quality print publications is still in demand.

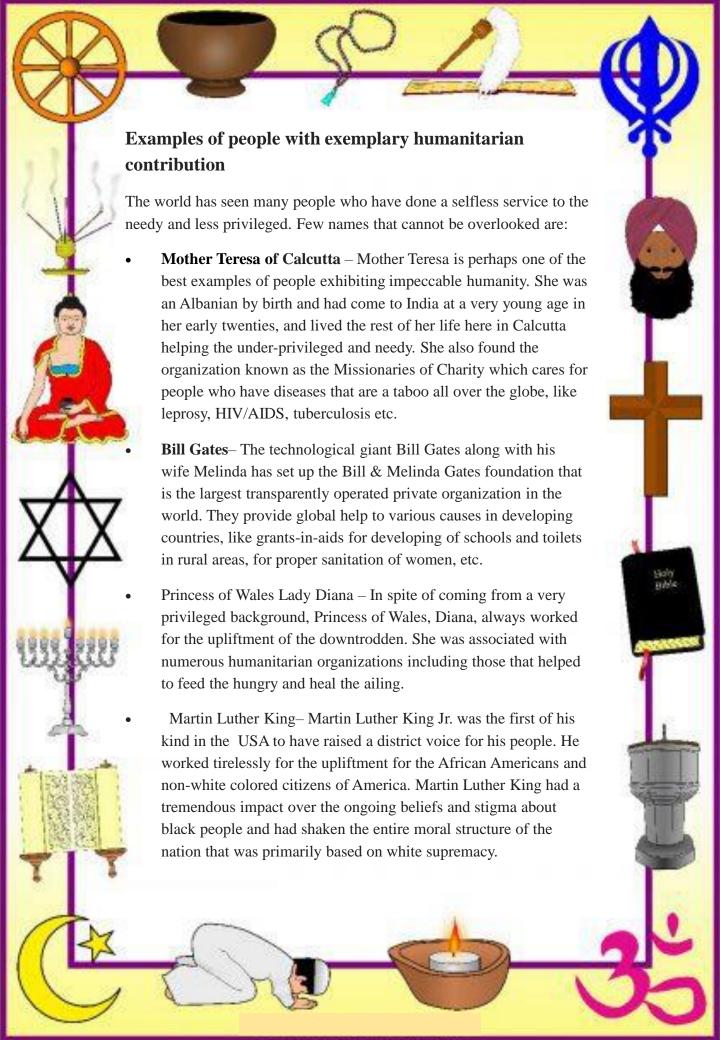

- 1.Magazine readership has grown over the past five years. Average paid subscriptions reached nearly 300 million in 2009 4 out of 5 adults read magazines. Magazines deliver more ad impressions than TV or Web in half-hour period.
- 2. Magazine readership in the 18 to 34 segment is growing.
- 3. Since Facebook was founded, magazines gained more than one million young adult readers.
- 4. The average reader spends 43 minutes reading each issue.
- 5.Magazines are the No. 1 medium of engagement across all dimensions measured. Simmons' Multi-Media Engagement Study find magazines continue to score significantly higher than TV or the Internet in ad receptivity and all of the other engagement dimensions, including "trustworthy" and "inspirational."
- 6.Magazines and magazine ads garner the most attention: BIG research studies show that when consumers read magazines they are much less likely to engage with other media or to take part in non-media activities compared to the users of TV, radio or the Internet.
- 7. Magazines outperform other media in driving positive shifts in purchase consideration/intent.
- 8. Magazines rank No. 1 at influencing consumers to start a search online higher than newer media options.

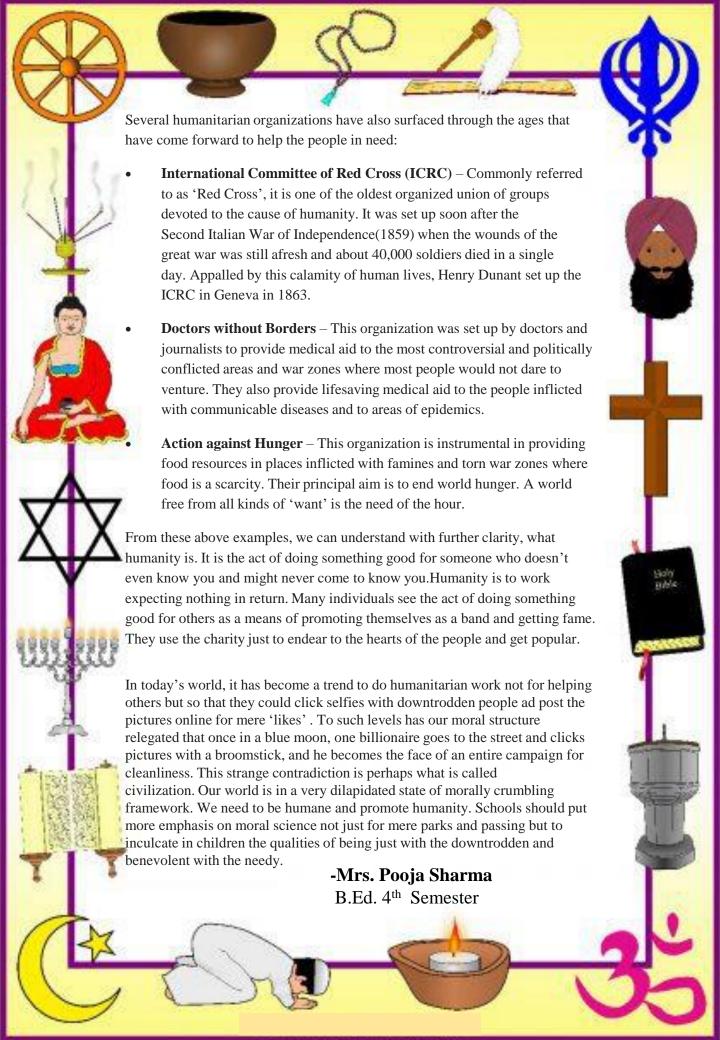

Ms. Palak Patel

B.Sc. B.Ed. 2nd Semester

DEPARTMENTAL REPORTS

DEPARTMENT OF EDUCATION

Department of Education works with the motto of "Sankalp, Samanvaya and Samarpan"

The highlights of the Departmental activities for the session 2020-2021 are as follows:

- The Department of Education conducted Webinar on 2th July 2020 on the topic of "Understanding self".
- An online conference from 3rd July to 4th July 2020 was conducted by the department on the topic "Mental Wellbeing During and after COVID-19 outbreak".
- The Department of Education organised online Conference from 6th July 2020 to 8th July 2020.topic of "Role of Literature in Social Reconstruction of Self Reliant India".
- The Department of education conducted online conference from9th July to 11th July topic of "EQ, SQ, HQ and Value Based Learning: Relook of Education System".
- Mrs. Aditi Pimprikar had Published Research Paper in Indian Journal of Psycho-Lingua. Vol.50(2) July,2020, ISSN:0377- 3132 On TOPIC: "Psychological Disorders and their Treatments".
- Mrs. RATI RAI Published Research Paper in Indian Journal of Psycho-Lingua. Vol.50(2) July,2020, ISSN:0377- 3132 on Topic: "Strategies for Enhancing Online marketing".
- Mrs. Rati Rai attended Online SOFT SKILLS Course from 27 to 4 August2020,
 Organized by Department of English, Pioneer Kumar Swamy College, Tamil Nadu.
- Three of the faculty members Mrs. Rajni Yadav, Mrs. Aditi Pimprikar and Mrs. Rati Rai Enrolled for Ph.D. in Education in June 2020 from Rabindranath Tagore University, Bhopal.

स्वरचित मौतिक रचना:-

श्रीमती मनीषा जरगर बी.एस.सी.बी.एड.

वक्त बडा गुमगीन है, माहौल भी संगीन है, बस तू थोड़ा बढ़ जा, वक्त को, जीतने का, मन बना, मन बना, मन बना! माना कि साँस हैं कम, और उस पर आस भी है कम, तो क्या हआ.... थोड़ा रुक जा, मुश्किलों को जीतने का, मन बना, मन बना, मन बना, माना कि रात है काली, और उस पर नींद है भारी, तो क्या हुआ.... थोड़ा उठ जा, मुनहरी मुंबह को देखने का, मन बना, मन बना,मन बना! माना की मायुसियों का शोर है, और उस पर मौत का जोर है, तो क्या हआ... थोड़ा खिलखिला, जिंदगी जीने का, मन बना, मन बना, मन बना! माना कि खो गए अपने कहीं, और मिट गए सपने कही, तो क्या हुआ.... थोड़ा संभल जा, बेसहारों की अपनाने का, मन बना,मन बना,मन बना! वक्त फिर मुस्क्राएगा, वापस अपनी चॉल पर आएगा, रख भरोसा उस खुदा पर, वक्त ही तो है....ग्जर जाएगा, ग्जर जाएगा, ग्जॅर जाएगा! तो न हो निराश तू, रख हौसला पास तू, अपने मन को मयूर बना, आशाओं के, गीत गा, गीत गा, गीत गा! जीतने का.... मन बना, मन बना, मन बना! देखना फिर यह चमन खिल खिल आएगा, यह मर्ज भी एक दिन मात खाएगा, बस तू थोड़ा, ठहर जा, ठहर जा, ठहर जीतने का.... मन बना, मन बना, मन बना।

पर्यावरण प्रदूषण

अंकुश राय बी.एस.सी.बी.एड. II सेमेस्टर

> इंसान की सारी माया पर्यावरण पर संकट लाया देश को विकसित बनाया पर्यावरण को खूब सताया पेड़ - पौधे नष्ट हो गए पेड़ काट इंसान मस्त हो गए अपने स्वार्थ को दिया बढ़ावा पर्यावरण को खूब सताया पंछी सारे लुप्त हो गए इंसान सारे सुस्त हो गए इमारतें बहुत बनाया पर्यावरण को खूब सताया प्रदूषण को इतना बढ़ाया पर्यावरण प्रदूषण की चपेट में आया इंसानों को फिर भी समझ ना आया पर्यावरण को खूब सताया पर्यावरण की दुहाई सुन लो पेड़ काटने वाले कसाई पेड़ लगाओ देश बचाओ पर्यावरण को स्वच्छ बनाओ।

कोरोना से विजय

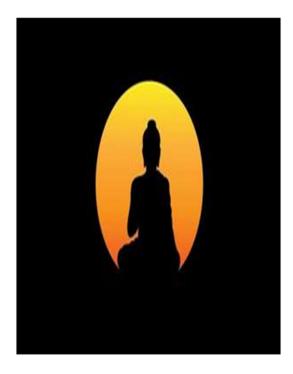

क्यों ना आज हम भगवान को मंदिर में नहीं हृदय में खोज लें। क्यों ना आज हम अल्लाह को मस्जिद में नहीं घर में खोज लें। क्यों ना आज हम यीश् को चर्च में नहीं मन में खोज लें। क्यों ना आज हम गुरु को गुरुद्वारे में नहीं दसम ग्रंथ में खोज लें। मानवता की तलवार हो परोपकार हो साथी। समझदारी का रथ चले विश्वास हो जिसका सारथी। हौसले की ताकत हो मजबूती की रौनक भी। कोरोना का विनाश होगा होगी हमारी विजय भी।

> सुबोध कुमार दुबे बी.एस.सी. बी.एड. II सेमेस्टर

एकाग्रता

शबनम अख्तर बी.कॉम.

एकाग्रता समस्त ज्ञान का सार है।

उसके बिना कुछ नहीं किया जा

सकता।साधारण मनुष्य अपनी

विचार-शक्ति का 90 प्रतिशत अंश

ट्यर्थ नष्ट कर देता है और इसलिए वह

निरंतर भारी भूलें करता रहता है।

प्रशिक्षित मनुष्य अथवा मन कभी

कोई भूल नहीं करता। जब मन एकाग्र

होता है और पीछे मुड़कर स्वंय पर ही

केंद्रित कर दिया जाता है तो हमारे

भीतर जो भी है, वह हमारा स्वामी न

रहकर हमारा दास बन जाता है।

ज्ञान की प्राप्ति के लिए एकमात्र उपाय है- एकाग्रता। रसायनविद् अपनी प्रयोगशाला में जाकर अपने मन की समस्त शक्तियों को केंद्रीभूत करके जिन वस्तुओं का विश्लेषण करता है, उन पर प्रयोग करता है और इस प्रकार वह उनके रहस्य जान लेता है। ज्योतिषी अपने मन की समग्र शक्तियों को एकत्रित करके दूरबीन के भीतर से आकाश में प्रक्षिप्त करता है और बस, त्यों ही सूर्य, चंद्र एवं तारे अपने-अपने रहस्य उसके निकट खोल देते हैं। इसलिए हम सबको एकाग्रता के साथ अपने सभी कार्य करने चाहिए, तभी हम सफलता को प्राप्त कर सकेंगे।

मानव जीवन में कला एवं संगीत

डॉ. प्रीति श्रीवास्तव

ब्रम्हा द्वारा रचित इस सृष्टि में मानव अपने जीवन में विभिन्न कलाओं को आत्मसात करता है। कला मानव जीवन के विकास में अत्यंत सहायक है, कला का सैदधान्तिक ज्ञान होने पर मानव में अपने भावों की अभिव्यक्ति करने के साथ - साथ सौन्दर्य बोध एवं सृजनशीलता का विकास होता है. जाति, धर्म के भेदभाव से परे सभी सीमाओं को पार कर मानव मस्तिष्क विकसित करने में कला अत्यंत महत्वपूर्ण है. किसी भी देश की संस्कृति का सम्यक ज्ञान वहाँ की कलाओं से होता हैं । भारतीय संस्कृति में प्राचीन काल से आधुनिक काल तक के कला के रूप एवं साहित्य के मुख्य पहलू शामिल हैं भारतीय कलाओं का अपना ॲलग महत्वे है यह सभी कलाएँ मानव जीवन को बहत प्रभावित करती है, ऐसे में मानव के व्यवहार का परिमार्जन करने वाली शिक्षा भला कला जगत से कैसे अछूती रह सकती है। वर्तमान में विभिन्न कलाओं को शिक्षा से जोड़ा जा रहा है जिसमें विदयार्थियों मे समझ विकसित की जा सके इसी उददेश्य को ध्यान में रखते हए शिक्षा जगत को कला से जोड़कर रखने में मूलरूप से विभिन्न कलाओं को वर्तमान समय में प्रधानता दी जा रही है जिसमे ललित कला एवं उपयोगी कलाओं के अंतर्गत श्रव्य - दृश्य कलाओं को विशेष महत्त्व दिया जा रहा है। ललित कलाओं के अंतर्गत आने वाली कलाओं में संगीत कला को सर्वश्रेष्ठ माना गया है।

गायन,वादन व नृत्य इन तीनों विधाओं से मिलकर संगीत पूर्णता प्राप्त करता है। संगीत सुनना व सीखना दोनों ही हमें स्वास्थ्य लाभ प्रदान करता है इसीलिए संगीत को चिकित्सा पद्धित के रूप में भी शामिल किया गया है। इंटेल इंटरनेशनल साइंस एंड इंजीनियरिंग फेयर ने बच्चों पर शोध किया इस शोध में करीब 15 सौ बच्चों पर अलग-अलग तरह के संगीत के प्रभाव का परीक्षण किया गया, शोध में पाया गया कि जिन बच्चों ने शास्त्रीय संगीत को सुना उन बच्चों के शरीर में श्वेत रक्त कणिकाओं की संख्या अधिक पाई गई, साथ ही संगीत सुनकर वे तनावमुक्त महसूस कर रहे थे।

संगीत केवल कला ही नहीं अपितु संगीत ध्यान चिकित्सा पद्धति व आध्यात्मिक साधना का समायोजन है प्रतिदिन 20 से 30 मिनट कोई अच्छा एवं सकारात्मक संगीत अवश्य सुने इससे आपके मन की नकारात्मक ऊर्जा सकारात्मक ऊर्जा में बदलेगी, रोजाना संगीत सुनने से हमारी सोचने समझने की शक्ति बढ़ती है क्योंकि संगीत मांसपेशियों को रिलैक्स करता है और इससे हमारा मूड भी फ्रेश रहता है जिससे हम अपने दिन भर की गतिविधियों को सुचारू रूप से संचालित कर सकते हैं, अतः मानव जीवन में कला एवं संगीत की अहम् भूमिका है।

शबनम अख्तर बी.कॉम.

जो मनुष्य सदा अपने को दुःखी मानता है, उसे ईश्वर की प्राप्ति नहीं हो सकती। ' मैं कितना दुःखी हूँ', ऐसा सोचते रहना आसुरी भावना है, धर्म नहीं। हर मनुष्य को अपना बोझ ढोना है। यदि तुम दुखी हो तो सुखी बनने का प्रयत्न करो, अपने दुखों पर विजय प्राप्त करो। यदि हम संसार के महापुरुषों के चरित्र का अध्ययन करें तो अधिकांश दशाओं में हम यही देखेंगे कि सुख की अपेक्षा दुःख ने तथा संपत्ति की अपेक्षा दारिद्रय ने ही उन्हें अधिक शिक्षा दी है एवं प्रशंसा की अपेक्षा निंदा रूपी आघात ने ही उनकी अंतः स्थ ज्ञानाग्नि को अधिक प्रस्फटित किया है।

बहुत कम मनुष्यों को इस बात का ज्ञान है कि दुःख के साथ सुख और सुख के साथ दुःख लगा हुआ है और सुख भी उतना ही घृणित है जितना कि दुःख, क्योंकि सुख और दुःख दोनों यमज बंधु हैं। जिस तरह दुःख के पीछे दौड़ना हमारे मनुष्यत्व की विडंबना है, उसी तरह सुख के पीछे दौड़ना भी।

सुबोध दुबे बी.एस.सी.बी.एड.॥ सेमेस्टर

ईश्वर ने जो दिया कम नहीं, पाना हमारा काम है। वृक्षों को काटना नहीं, लगाना हमारा काम है। संघर्ष की राह पर चलकर, संसार बदल सकते हैं हम। कोरोना से जंग जीत कर, सूर्य सा चमक सकते हैं हम।

कोरोना से निपटने की तैयारी

प्रांजली मिश्रा बी.एस.सी. बी.एड II सेमेस्टर

हम हाथ मिला सकते नहीं, तेरे आने से देश में मायूसी सी छाई है, जैसे एक आँधी काली घटा घेर लाई है, फिर भी नहीं डरेंगे तुमसे, क्योंकि सबसे पहले चिकित्सा पद्धति, भारत में ही आई है। निपटने का तुझसे हर संभव प्रयास जारी है, तुमने तो फैला लिया अपना कहर, अब निपटने की आई, त्म्हारी बारी है।

सकारात्मकता

शिखा सेन बी.एड. ॥ वर्ष

एक पेड़ से लाखों माचिस की तीलियां बनती हैं, लेकिन एक माचिस की तीली लाखों पेड़ जला देती है। इसी प्रकार एक नकारात्मक विचार या शक आपके हजारों सपनों को जला सकता है। इसलिए अपने विचारों में सकारात्मकता रखें और खुश रहें।

कोरोना को हराकर दिखाएंगे।

कोशिश करने से, हर मुश्किल आसान होती है। निराशा में भी, आशा छुपी होती है। इसी आशा के साथ, हम सब कदम बढ़ाएंगे। और अपने विश्वास से, कोरोना को हराकर दिखाएंगे।

कोरोना से डरो ना,डरो ना

डॉली उइके बी.कॉम.

जगह-जगह बस एक ही बात कोरोना-कोरोना, कोरोना-कोरोना स्कूल है बंद, मुश्किल है संग कुछ करो ना, करो ना कोरोना से डरो ना, डरो ना हाथ को साब्न से धोयें म्ख को ढँककर खाँसें- छींकें भीड़ से सब दूर रहे डरो ना डरो ना, कोरोना से डरो ना हम कहें सलाम-नमस्ते हाथ ना मिलाओ क्छ हफ्ते ट्रेन , प्लेन हो या बस थोड़े दिन ना करो सफर हम इसे न फैलने देंगें मिलके इसे हम रोकेंगें डरो ना, डरो ना कोरोना से डरो ना,डरो ना।

चलो चलकर वह शहर देखते हैं

श्रीमती रति राय बी.एड. '

चलो चलकर वह शहर देखते हैं, बेखौफ जी रहे थे, बेकदर हो चले थे, उस खौफ से भरे कदरदान शहर को देखते हैं, चलो चल कर वह शहर को देखते हैं, बेलगाम हो चले थे, बंदिशों तोड़ चले थे, लगाम में कसे बंदिशों भरे शहर को देखते हैं, चलो चलकर वो शहर देखते हैं। विमुक्त पक्षी बने पिक्षयों को कैद कर चले थे, उस कैद में बैठे पंछियों को ताकते शहर को देखते हैं। गरल सा समीरण, मलीन सलिल कर चले थे, उस पुनीत प्रभंजन प्रवाहनी की देखते हैं। चलो चलकर वो शहर देखते हैं। चलो चलकर वो शहर देखते हैं No. West

मेरी नई कविता "माँ का किरदार"

हजारों ठोकरों के बाद भी तकरार नहीं देखा, माँ के जैसा इस जहां में कोई किरदार नहीं देखा। चुपचाप तकलीफ सहकर सबको खुश रखती है, माँ को सबके सामने कभी अश्कवार नहीं देखा, हमने देखी है जमाने भर में मुख्तलिफ मोहब्बतें, मगर आज तक माँ के जैसा प्यार नहीं देखा, हजारों ठोकरों के बाद भी ----कई बार औलाद ने दिल तोड़ा और सताया भी है, फिर भी माँ के मन में कभी दरार नहीं देखा, मैंने पाई है दुआएं फकीरों और कलंदरों की अंक्श, पर माँ की दुँआओं जैसा असरदार नहीं देखा, हजारों ठोकरों के बाद भी हमने देखी और सुनी है जग में वफाएं बह्त, लेकिन माँ के जैसा कोई वफादार नहीं देखा, हमारी गुजरी है कई रातें ऊंघती पहरेदारी में, बिना पलक झपके रात गुजार दें माँ के जैसा पहरेदार नहीं देखा, हजारों ठोकरों के बाद भी तकरार नहीं देखा, माँ के जैसा जहां में, कोई किरदार नहीं देखा।।

> अंकुश राय बी.एस.सी.बी.एड. II सेमेस्टर

गुजर जाएगा, गुजर जाएगा जिंदा रहने का ये , जो जज़्बा है। फिर उभर आएगा, गुजर जाएगा माना मौत चेहरा, बदलकर आयी है माना रात काली है, भयानक है, गहराई है, लोग दरवाजों पर रास्तों पर,

रुके बैठे हैं, कई घबरा के सहमे हुए हैं,

मगर यकीन रख, ये बस लम्हा है, दो पल में, बिखर जाएगा, जिंदा रहने का यह जो जज़्बा है, फिर से उधर आएगा।

मुश्किल बहुत है, मगर वक्त ही तो है गुजर जाएगा।

ये वो कहर है, जो दुनिया को डराने आया है।

मगर नासमझ है, जो इंसान को इराने आया।

इतिहास गवाह है, यह फासला भी स्लझ जाएगा।

जिंदा रहने का, यह जो जज़्बा है। गुम हुआ है टूटा नहीं।

सोनाली त्रिपाठी बी.एस.सी.बी.एड. ॥ सेमेस्टर

परीक्षा का सुखद एहसास

हम सभी बचपन से पढ़ाई करते परीक्षा देते आ रहे हैं, कुछ लोग इसे मुसीबत का नाम देते हैं और कुछ लोग इसे बोझ समझते हैं। अगर विद्यार्थी सच्ची आस्था और विश्वास के साथ परीक्षा दे तो वह कभी भी असफल नहीं होगा। अच्छे परिणाम के साथ- साथ हमें यह परीक्षा सुखद अहसास भी दिलाएगी।

जब परीक्षार्थी परीक्षा की तैयारी करता है,तब विद्यार्थी अपने सारें दुख परेशानियाँ आदि भूलकर परीक्षा में एकाग्र चित हो जाता है और वह परीक्षा की तैयारी में पूरी तरह से जुट जाता है। परीक्षा के समय विद्यार्थी के दिमाग में चलने वाली सारी प्रतिक्रियाएं अचानक कहीं गायब हो जाती हैं और वह पूरी तरह से एकाग्र चित होकर विषय को पढ़ता है और उसे सिर्फ सफलता ही नजर आती है।

परीक्षा कई रसों का अनुभव भी कराती है, जैसे ही परीक्षा नजदीक आती है वह हमें बहुत डराती है, परंतु अगर प्रश्न पत्र हमारे अनुकूल होता है, तो अपार आनंद का अनुभव भी कराती है। कभी-कभी विद्यार्थी अपने आप को योद्धा मानने लगता है और वह जैसे-जैसे प्रश्नों को हल करता जाता है उसे अपनी जीत नजर आने लगती है और उसे ऐसा अनुभव होता है जैसे उसने अपना लक्ष्य प्राप्त कर लिया है।

परीक्षा सकारात्मक सोच को भी बढ़ाती है अगर हम उसमें पूरी तरह सफल होते हैं तो हमारी सकारात्मक क्षमता और ज्यादा बढ़ती जाती है। परीक्षा हमारी एकाग्रता को बढ़ाने के साथ-साथ हमारे हार्मोन असंतुलन को भी संतुलित करती है। परीक्षा व्यक्ति विशेष को एक सकारात्मक ऊर्जा के साथ- साथ जीवन को उत्साह से भर देती है। यह याददाश्त क्षमता को भी बढ़ाने में सहायक है। परीक्षा एक ऐसा शस्त्र है जो आलसी व्यक्ति को भी ऊर्जावान बना देती है।परीक्षा को अगर हम चुनौती समझकर सफलता प्राप्त करते हैं तो उससे मिलने वाले सुख के अनुभव को व्यक्त नहीं किया जा सकता है।

यह एक दिन का इम्तिहान महीने के कई दिनों को बदल कर रख देता है, कभी डर तो कभी घबराहट कभी खुशी का अनुभव कराता है। यदि यह इम्तिहान अच्छे जाते हैं और परीक्षाफल मेहनत के अनुसार आता है, तो वह आनंद मिलता है जिसे व्यक्त करना बहुत कठिन है। पूरा रोम-रोम प्रफुल्लित हो उठता है वह खुशी जो कहीं से नहीं मिलती वह सिर्फ मेहनत के फल से ही मिलती है इसलिए परीक्षा से घबराना नहीं बल्कि उसे प्यार से अपनाना चाहिए। परीक्षा से सुख प्राप्त करने के लिए परीक्षार्थी के अंदर यह तीन गुणों का होना अत्यंत आवश्यक है-कड़ी मेहनत, सच्ची लगन और ईमानदारी।

नई शिक्षा नीति और भारतीय समाज

डॉ.रोशनी द्विवेदी

वर्तमान नई शिक्षा नीति में मंत्रालय के नाम का परिवर्तन किया गया है। मानव संसाधन विकास मंत्रालय का नाम शिक्षा मंत्रालय करने का निर्णय लिया गया है। इस नीति में भारतीय उच्च शिक्षा आयोग के गठन का भी प्रावधान किया गया है। इस आयोग से कानूनी एवं चिकित्सकीय शिक्षा अलग रहेंगे। इस नीति की मुख्य विशेषता यह है कि विद्यार्थियों को पाठ्यक्रम के अतिरिक्त संगीत, खेल आदि को सहायक पाठ्यक्रम के रूप में ना रख कर मुख्य पाठयक्रम में ही समाहित किया गया है।

वास्तव में हम अर्थात भारत अभी भी शिक्षा के दृष्टिकोण के आधुनिक परिप्रेक्ष्य में वैश्विक परिप्रेक्ष्य से पीछे हैं। हमें विद्यार्थी की रुचि का सबसे पहले ध्यान रखना चाहिए क्योंकि व्यक्ति वही करता है, जो उसे अच्छा लगता है। अगर पाठ्यक्रम में कुछ ऐसी बात हो जाए जो विद्यार्थी के रुचि की हो, तो फिर तो विद्यार्थी के मन की बात बनती ही है और फिर विद्यार्थी अपनी रुचि के हिसाब से अपने पाठ्यक्रम को समझेगा, जानेगा और पढ़ने का प्रयास करेगा और उसे व्यावहारिक सफलता भी प्राप्त होगी। मुझे इस संदर्भ में आमिर खान की 3 इडियट पिक्चर के कुछ दृश्य याद आ रहे हैं, जिसका मुख्य पहलू यही था कि हम विद्यार्थी की इच्छा को जाने और समझे कि वह क्या करना चाहता है, वह किस दिशा में आगे बढ़ना चाहता है, उसकी रुचि किस दिशा में है और फिर उसे उस पाठ्यक्रम में प्रवेश दिलाएं, ताकि उसका दिल और दिमाग दोनों उस पाठ्यक्रम में लगे और तब वह देश और समाज के लिए अपना योगदान बेहतरी के साथ कर सकेगा।

कोठारी आयोग (हिंदी) सन् १९६४ में भारत की केन्द्रीय सरकार ने डॉ. दौलतसिंह कोठारी की अध्यक्षता में स्कूली शिक्षा प्रणाली को नया आकार व नयी दिशा देने के उद्देश्य से एक आयोग का गठन किया। आयोग ने भारतीय स्कूली शिक्षा की गहन समीक्षा प्रस्तुत की जो भारत के शिक्षा के इतिहास में आज भी सर्वाधिक गहन अध्ययन माना जाता है।

भारत सरकार ने इस शिक्षा नीति में कम से कम इस बात को ध्यान में रखा है और इसके लिए वह धन्यवाद की पात्र है। पहली बार भारत सरकार ने शिक्षा की व्यवस्था पर सकल घरेलू उत्पाद का कुल 06 फ़ीसदी खर्च करने की योजना का निर्माण किया है। अनुसंधान के क्षेत्र में एम . फिल .की डिग्री को समाप्त करने का निर्णय लिया गया है। इस डिग्री को समाप्त कर यह व्यवस्था की गई है की अनुसंधान के क्षेत्र में जाने के लिए 3 साल की स्नातक डिग्री के पूर्ण करने के पश्चात 01 साल स्नातकोत्तर की डिग्री करके पीएचडी के अनुसंधान कार्य में छात्र प्रवेश कर सकता है।

यहाँ एक तथ्य और समीचीन है भारत के विभिन्न प्रांतों में विभिन्न महाविद्यालयों को उत्कृष्टता का दर्जा भी प्रदान किया गया है। अगर संस्थान को उत्कृष्टता का दर्जा प्रदान किया गया है, तो वहाँ शिक्षक भी उत्कृष्ट होने चाहिए, कोई ना कोई ऐसा मापदंड होना चाहिए जिससे कि शिक्षकों की अकादिमक योग्यता का परीक्षण किया जा सके और उन्हीं शिक्षकों को पदस्थ किया जाए जिनमें उत्कृष्टता की अकादिमक योग्यता हो।

मध्यप्रदेश के संदर्भ में यदि बात करें तो जिन स्कूलों को उत्कृष्टता का दर्जा प्रदान किया गया है वहाँ तो शिक्षकों की पदस्थापना ऐसे मापदंडों को ध्यान में रखकर की जाती है किंतु उच्च शिक्षा के क्षेत्र में भोपाल उत्कृष्टता महाविद्यालय को छोड़कर जिन 05 महाविद्यालयों को उत्कृष्टता संस्थान का दर्जा दिया गया है, वहाँ ऐसी कोई नीति नहीं अपनाई गई है, जो चिंतनीय है, तथ्यपरक है और राजनेताओं और प्रशासकों को इस तरफ ध्यान देना आवश्यक है, तभी हम नई शिक्षा नीति की सार्थकता और सफलता की बात कर सकते है।

भारतीय संविधान के अध्याय- 4 में नीति- निर्देशक तत्वों में इस बात का उल्लेख किया गया है कि 06 से 14 वर्ष तक के बच्चों के लिए अनिवार्य एवं निशुल्क शिक्षा की व्यवस्था सरकार की तरफ से की जाए। ऐतिहासिक पृष्ठभूमि की चर्चा की जाए तो सन 1948 में डॉक्टर राधाकृष्णन की अध्यक्षता में विश्वविद्यालय शिक्षा आयोग का गठन किया गया था और तभी से शिक्षा नीति के निर्माण के संबंध में कार्य और अनुसंधान भी प्रारंभ हो गया था। सन 1964 से 1966 के बीच कोठारी आयोग का गठन किया गया और उनकी सिफारिशों के आधार पर सन 1968 में तत्कालीन प्रधानमंत्री श्रीमती इंदिरा गांधी ने शिक्षा के संबंध में महत्वपूर्ण परिवर्तन किए थे। तत्पश्चात सन 1985 में शिक्षा नीति के संबंध में फिर से भारत के बुद्धिजीवियों और समाज के प्रत्येक वर्ग द्वारा चिंतन मनन किया गया और 1986 में शिक्षा नीति की घोषणा की गई।

29 जुलाई 2020 को भारत सरकार द्वारा नई शिक्षा नीति का मसौदा जारी किया गया है। इससे पूर्व शिक्षा नीति 1986 में जारी हुई थी। 34 वर्षों बाद फिर से भारत सरकार ने शिक्षा के संबंध में चिंतन- मनन, विचार-विमर्श करके नए समकालीन परिवेश के अनुसार शिक्षा नीति घोषित की है।

आज हम चाहे स्कूल शिक्षा या उच्च शिक्षा के शिक्षक हो, अब हमें नए समकालीन और तकनीकी परिवेश में अपने आप को परिवर्तित करने की आवश्यकता है। हम अपने विद्यार्थी से तभी संवाद स्थापित कर सकेंगे जब हम तकनीकी रूप से लगभग उनके बराबर हो। इसलिए परंपरागत शिक्षण साधनों के साथ-साथ हमें नवीन तकनीकी युक्त शिक्षण साधनों को भी अपनाना चाहिए तभी नई शिक्षा नीति का जो उद्देश्य है वह पूरा हो पाएगा।

दिल तो बच्चा है जी

डॉ. रोशनी द्विवेदी

उम्र की सीढ़ियाँ चल जब समय, तन में उतर आता है।। सबसे पहले आँखों के रस्ते, चेहरे पर नजर आता है।।

समय, धीरे-धीरे अधिकार जमाता है, पूरे तन पर। ना जाने कैसे, पर सबको नजर आता है।।

दिल है बच्चा जी ,यह लोगों से सुना करते थे। अब जब खुद पर आया तो, दिल तो बच्चा है कहा करते हैं।।

उम्र कुछ भी हो, उसका मलाल ना करें। दिल है जवां,दुनिया जवां, बस यही मिसाल बने।।

समय, धीरे-धीरे कब्जा कर लेता है, पूरे तन पर। लेकिन दिल उससे अछूता रह जाता हूँ ।।

दिल ही तो है जो, आखिरी साँस तक। बच्चा रहकर, समय को मात दे जाता है।।

मतदान जागरूकता

वोट डालने चलो रे साथी, लोकतंत्र के बनो बराती। एक वोट से करो बदलाव नेताजी के बदलो हाव-भाव।।

सही उम्मीदवार का करो चुनाव, बेईमानों को मत दो भाव। आपका वोट है आपकी ताकत लोकतंत्र की है ये लागत।।

सुबह-सवेरे वोट दे आओ वोटर आईडी संग ले जाओ। उस इंसान का करो चुनाव, जो पार लगाये देश की नाव।।

मतदान के दिन घर में मत रहना वरना पाँच साल पड़ेगा सहना, भैया, दीदी,चाचा-चाची वोट देके आ जाओ जी।।

स्वरचित रचना श्रीमती मनीषा जरगर

"ईश्वर सर्वत्र उपस्थित नहीं हो सकता है....इसलिए उसने माँ की रचना की"......

ज़िंदगी की तपती दुपहरी में चलते-चलते जब पाँव में छाले पड़ जाते हैं, तब माँ ही है जो अपनी ममता का मलहम लगाकर एहसास दिलाती है कि तू तन्हा नहीं इस जहान में "हर घड़ी मेरे प्यार का साया चलेगा तेरे साथ बच्चा"......माँ एक नन्हा शब्द पर उसके अर्थ अनगिनत....माँ के लिए लिखना शुरू करें तो समुन्दर की स्याही बना लें और आसमान कागज़ तब भी माँ की महिमा का बखान असंभव है; माँ से ममता,माँ से ममत्व, माँ से मातृत्व....शायद ही एक शब्द की इतनी भाव संज्ञा हो सकती है।माँ में पूरी कायनात की जमीं और आसमाँ समाहित है....माँ से ज़िंदगी रोशन है, माँ से ही ज़न्नत में रोशनी है....इस जहान से उस जहान तक के उजाले माँ से है...सच तो ये है कि सिर्फ माँ ही हक़ीक़त है,माँ ही खुदा है......

माँ आगाज़,माँ अंत, माँ ही दुनिया,माँ अनंत, माँ ही मातृत्व, माँ ही ममता, माँ से सजते सारे ग्रंथ...

अनुशासन

कुमारी गीता माली

अनुशासन में रहना प्यारे कॉलेज के बाद भी जरूर, याद रखना अपनी शिक्षा का पढ़ा हुआ पाठ जरूर। प्रोफेसर ने जो विषय पढ़ाए याद रखना जरूर कॉलेज का अपने गौरव गान भी सुनाना तुम जरूर कला हो वाणिज्य हो या संकाय चाहे कोई भी हो महाविद्यालय का झंडा सदैव ऊँचा रखना जरूर। जाना चाहे कहीं भी क्षेत्र
चुनाव जो भी कर लेना
याद रखना जरूर और
शिक्षा का अपने सम्मान
रखना जरूर और जीवन
में उत्तरोत्तर प्रगति करना
खूब और राष्ट्रधर्म निभाने
की शपथ निभाना जरूर
अनुशासन से अगर चलोगे
मंजिल तुम पा जाओगे
और नाम अपने कालेज
का कर जाओंगे जरूर।

मानव को सहानुभूति नहीं **समानुभूति** की आवश्यकता

श्रीमती पूजा शर्मा

बी.एस.सी. बी.एड.

सहानुभूति में हम दूसरे के दुख को पहचानकर उसे दूर करने के बारे में सोचते हैं, लेकिन खुद दुखी नहीं होते। इसमें दया करने से अपनी श्रेष्ठता का अहंकार पनपता है। समानुभूति यानी दूसरा जैसा महसूस कर रहा है, वैसा महूसस करना। इसमें संवेदना का व्यवहार नहीं, व्यवहार में संवेदना झलकती है। दोनों में संवेदना की गहराई का फर्क है।

अतिशय व्यक्तिवादिता से पीड़ित जिस हिंसक समाज में हम आज जी रहे हैं, वह आक्रामक स्पर्धा को बढ़ावा देकर व्यक्ति को व्यक्ति के खिलाफ टकराव की स्थिति में खड़ा कर देता है। हम ऐसे संवेदनहीन समूह में बदलते जा रहे हैं जहाँ हर दूसरा हमारा प्रतिद्वंद्वी है, उसका सुख-दु:ख हमें नहीं व्यापता। मानवीय संबंधों में बिखराव के पीछे तो यह है ही, राष्ट्रों के बीच टकराव के पीछे भी कुछ हद तक यह जिम्मेदार है।

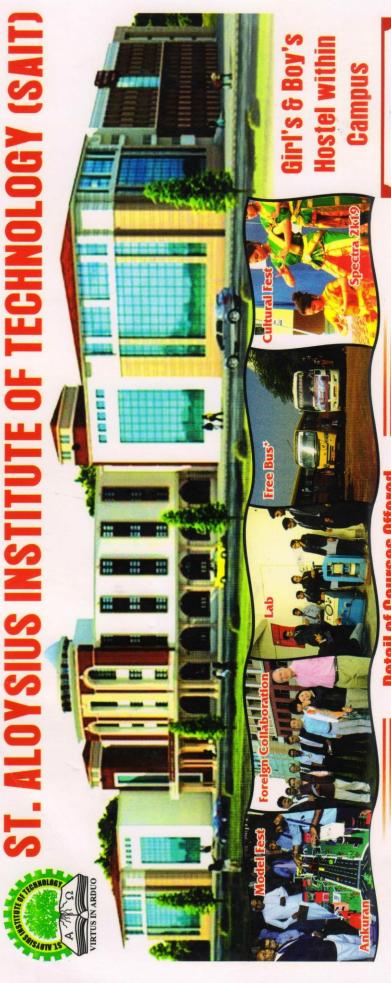

समानुभूति का मतलब है, दूसरा जैसा महसूस कर रहा है, वैसा ही महसूस करना। इसके लिए स्वयं को दूसरे के स्थान पर रखकर सोचना होता है। सहानुभूति में हम दूसरे के दुःख को पहचानकर उसकी मदद करने की सोचते हैं। हमारा स्वयं दुखी होना जरूरी नहीं है। सहानुभूति में एक दूरी है, जबिक समानुभूति में स्वयं वही भाव महसूस करने के कारण बराबरी है। सहानुभूति में अक्सर दया करने से अपनी श्रेष्ठता का अहंकार पनपता है। सहानुभूति से आप किसी गरीब की मदद कर सकते हैं किंतु जिसने अकेला बेटा खो दिया हो उसके सामने अपने बेटे की उपलब्धियों और वैभव की चर्चा न करना समानुभूति का उदाहरण है। इसके लिए हृदय की विशालता चाहिए, मुँह का बड़बोलापन नहीं। इसमें अन्य का बोध तिरोहित हो जाता है और करुणा का जन्म होता है।

दूसरे की भावनाएँ समझने और बाँटने का मानवीय संबंधों को मधुर और स्थायी बनाए रखने में अपनी भूमिका से कीन इनकार कर सकता है। मित्रता की शुरुआत भी अक्सर इसी विश्वास के साथ होती है कि अगला व्यक्ति हमारी भावनाओं-विचारों को, बिना निर्णायक बने बाँट-समझ सकेगा। आध्यात्मिक गुरु या मनोविश्लेषक की सफलता का राज भी यही है कि साधक-बीमार को यह पूरा विश्वास हो जाता है कि गुरु या मनोविश्लेषक उसे पूरी तरह समझता है और उसके सामने दिल खोला जा सकता है। सामाजिक जीवन में भी जहाँ टकराव है, वहाँ भी बातचीत की सफलता की संभावना तभी ज्यादा होती है जब दोनों पक्ष एक दूसरे के दृष्टिकोण को ठीक से समझते हों और उसके प्रति संवेदनशील हों। महात्मा गाँधी और मार्टिन लूथर किंग का सत्याग्रह इसका अच्छा उदाहरण है। दलाई लामा इसके आधुनिक प्रवक्ता हैं।

समानुभूति के अभाव में लोग गलत फैसले लेते हैं जो उनको और आस-पास के लोगों को हानि पहुँचाते हैं। अच्छी बात यह है कि समानुभूति को हम सीख भी सकते हैं। और जीवन को अधिक प्रसन्न और कम जिटल बना सकते हैं। ध्यान से सुनने की आदत, दूसरे के भले की वास्तविक चिंता, लेकिन निर्णायक बनने से बचना और उनकी भावनाओं को औचित्य प्रदान करना आदि ऐसे तरीके हैं, जिनसे हम समानुभूति विकसित कर सकते हैं। सच्ची मुस्कुराहट के साथ पूछा गया एक वाक्य, कहो, कैसा चल रहा है, इसकी अच्छी शुरुआत हो सकती है। समानुभूति, सहनशीलता और सहानुभूति से आगे का उपक्रम है जहाँ संवेदना का व्यवहार नहीं, व्यवहार में संवेदना झलकती है। तभी तो कोई बुद्ध और गाँधी बनता है। संसार को करुणा, अहिंसा और प्रेम का प्रेरक संदेश दे पाता है। आइए, हम सब नरसी मेहता की तरह इसे अपने में जगाएँ।

वैष्णव जन तो तेने कहिए जे पीड़ परायी जाणे रे"

Detail of Courses Offered

Engg. Diploma (3 Years)

B.Tech (4 Years)

- ·Civil
- Lateral Entry Mechanical

Computer Science

Mechanical

Electrical &

Electronics

CE, ME

lacement Other Courses • B.Ed. (2 Years)
• B.Sc.- B.Ed. (4 Years)
• D.El. Ed. (2 Years)

- - B.Com. (Plain+Taxation)
- B.Sc. (PCM+Computer Science)
- B.A., (Hist., Geog., Socio., Eng. Lit.)

Email:saitjbp@gmail.com, jesuben36@gmail.com, Website:www.saitjbp.in, www.frdavis.in Ph: (0761) 2601176, Mob. 9111021375, 9425155175, 7470930699, 9424306411 Vear Ekta Market, Mandia Road, Jabaipur (M.P.)
